## *Chapter 387 - Side Story - The Valentine of the Shield [II]*

---

“Fufufufufu, then next... Is me “

The accessory merchant stands up and asks me.

So, why do you sound like a villain?

Though the boss is me thrust might be a rough.

You would do what it seems to be the same kind as me.

“The accessory designed by the Hero of the shield is showing signs of popularity. By incorporating jinx, and creating stylish shape it was easy to spread by words of the tongue “

When referring to Calmira Island, partnering with my accessory business, has spawned various jinx.

A business prayer for example would be, in coordination with the Chivalrous thieves' guild, if you hang that accessory on the carriage, you won't meet with thieves. Jinx like that are made.

However, when you add guilty couscous to business the effect would be ineffective.

Even sly things like this gets pretty profitable.

Surprisingly people, cherish something like this.

Guys like me usually do not believe in God or visit the shrine on New Year 's Day, first of all I only participated in the Festival to buy a lucky charm.

The determined effective time of the jinx is one month, I was attacked a few times for my new design.

By making this Jinx, many of the merchants likes to come and buy this

accessories.

And investigating the background of the merchants who bought it, the Chivalrous Thief Guild then moves into action.

Coming from a merchant such as myself, to examine and give such judgement.

In the first place in business you don't willingly speak of such thing during the time of purchase.

Although I'm a terrible villain, what about the Accessory merchant?

This shed rumors of the dark guild, that I control the entire neighbourhood.

"In making new accessories what kind of ore is used? Low quality ones that are in limited areas is most ideal "

"Alright. The most ideal candidate --- "

And, I choose a limited ore that is worth next to nothing quarried right in my territory to be used in making accessories.

Only accessories that have jinx can be priced cheap, it's the trick to making money.

This alchemy. Though the meaning is deferent.

It is the dark side of the jinx.

And then, the report of the accessory merchant ended.

"Is that the end of it "

"Hero of the Shield. Yes "

Then the slave dealer raised his hands.

“What is it? Wasn't your report already over? ”

“Yes. I forgot that there was a request from Zeltbru. Yes ”

“With what? ”

“It is concerning about the Firo Real that are being raise in Hero territory ”

Now, they are holding a vibrant Firo Real race In Zeltbru.

The special Filorials that were raised in my territory had overwhelmingly surpassed the existing famous wings and were overtaking them.

Tamers and gamblers sometimes come to meet with me, I have ask Motoyasu to be around.

Well half is like cheating. Also no one can imitate.

So I have no Idea.

“The results of the Firo Real that was raised by the Hero are too good, we might have to separate the race in different categories and an examination will be held ”

“I wonder ”

No normal Firo Real is a suitable match against the mutation called Firo Real King and Queen that I raised.

It can also transform to look like a normal Firo Real. Not like theres an examination.

And winning races is easy, it's inevitable it can't be help.

“Rather, it would be better to put it in a separate category ”

“If it's from the Hero, then your words would be followed. Yes ”

“It can't be helped. Besides, it going to create more buzz than a normal Firo Real race and everyone will be excited quickly. I'll allow it if you give me a share over here ”

“Thank you! Once, my clan get together, we would like to give our thanks to the Hero of the Shield “

All of the slave merchants clan!?

I remember how the two uncles look exactly alike!

That means the whole clan management, the meeting of look-alike might starts to gather around me!

“Your, your clan is also busy. I, would feel bad about it “

“It’s a pity. Yes “

And well, the meeting proceeded without any problems.

“ ... “

During the meeting the Chivalrous Thief was listening with a discontented look.

As I feel like the force has gone missing from my shoulders eventually the slave dealer and accessory merchant left. (TL: I need help on a better translation)

“What’s the matter?”

“No, apart from,”

“I see?”

That reminds me I wonder if the name of this guy is the cost? It was kinda Rowdy? I don’t remember much. Previously, but I have been calling his name the Chivalrous Thief, because the impression is in relation to the name.

"Well, I'm good it's nothing I"

Words were muttered to me as the chivalrous thief murmuring opens his mouth.

"Not such a reason……"

"N?"

"I also think this chivalrous thief guild has become big ……"

"Oh, if you say so."

The past when a wave hadn't occurred…… phoenix game that is older than six months. Just half a year at least. In such a short period of time, I think that it is something that has become big. As result during the time when the world was in complicit, it suddenly became huge now that its peaceful it is an important organization.

"I too was getting anxious to become …… And rapidly increase in leaps and bounds." "I see." "I'm now, in a position to serve a friend, to do well as a boss …… I need to remove his anxiety"

Hmm …… This I think I can understand. Before the wave I did prepare for anything except remove anxiety. Even if I think I made the best use of the situation it's not all intact, sacrifices are made.

Much like the position of the hero who saved the world. People praise me, and cast words of thanks. It's not only this world. Much like glass of our world. Everyone is all, is a hero who saved the world come over us with

strong appreciation and expectations. The times to color the earth with blood at long last were over.

And because I ended such dark times, it cannot be helped.

It isn't a bad feeling to be relied upon, but pressure take is also correspondingly heavy.

At the same time, this guy's feelings can be seen. At this point it's better to get along, even I have anxieties. I was originally just a college student. Although somehow force to become the Hero of the Shield, from this time it's not just violence. Although I relied on the power of the shield until now, it no longer needed. If that happens only with the title of hero who saved the world, that a college student can also do accordingly.

Receiving the title of Duke during the time remaining in this world, also held land in accordance with the title. When you control a big land, obligations to protect the people who live there come out naturally.

Confronting monster head on, I'm the hero of the shield that protects peoples back. As the position and power grows, also at the same time the responsibility increase.

Becoming rich you also become awful, and eat lots of delicious things, make a harem. Talk about how simple it is, but is at least the case about me, lot of troublesome responsibility follows it.

The thing should have uneasiness.

But, that's why I can also give advice.

"Don't you show or tell your subordinates about your troubles? There are a lot of guys here who are willing to takes over your anxiety"

“My ears hurt degojaro”

Shadow who sent out the slave dealer and accessories merchant joins in the conversation. What? Does shadow also understand the darkness of the country?

“Since the poor people hide in the Chivalrous Thief guild, the action of subordinates is monitor one by one degojaro. The other day we also got rid of the person who has failed in an attempt to orchestrate the plan to become the boss degojaro” “…… Oh”

There are always gonna fools who aims for the top this here is the law of the jungle. Oh well it is funny no.

“Well, Letting those stupid guys who are resisting should attack me directly with my wagon . Disposal would be easy.”

Those who assess the dangerous bridge yearns and idolize the Chivalrous Thief... its identity, I have connection with dangerous people who are after me …… I can't check them now. It is also nearly impossible to verify because of there are high shadow of latency and perceive ability. It is difficult if it's about mere thieves.

And now, the lvl of the Chivalrous Thief is raise to 150. When people are in danger they fought to reach lvl 40 to release the class up to protect themselves from waves. This means that 100 is the very limit the current of public accustomed.

In course now the Hourglass of the Dragon era cannot be easily class up because it was returned to the administrative state. Although temporary,

not anyone can do these thieves together also have over 40 talented professionals.

But, this Chivalrous thief was allowed to given strength further Reborn. Lvl reset is made to punish others. Horribly strong boss with his subordinates In fact, combat sense aside, push the limit to have a high Lvl's as possible. The "know that. Just scary do it ....."

"Scary?"

"Probably was not uncommon you were slaves hunting Nante one year ago? Such a thing you can trying to Mokeyo the rules in, you can not seek trying Ayatsuro the darkness guild, it is not very 's but scale is too large. The do's to do if you lose!"

"I make physical to shut up."

You think now can do it us. And threaten to crush the darkness guild itself provisionally boarded darkness guild is in full force hero to Zerutoburu – whatever gonna send a thug me us as dangerous molecules. After all, to negotiate the force's minimum required. I like the power defunct justice is powerless.

And will not be struggling if war is lost in the discussion only. No era of the war, there was a dispute even contemporary Japan who was my original. Of economic war, I have a nasty war that does not exist is dead that were visible. After all this Even, to come to the limit by providing Toka inconvenient and customs of powers, it will if tariff became physical war if not through.

"I!?"

"Anyway, me panic Na, but what there Once arrangements that here is to follow. While you're the boss here, it is also my subordinate is a hero of the shield. I'll protect you if you do that you do just fine."

"I found ..... I see"

While to say that, the face of the Gentleman thief is quite gloomy.

"..... Or more of the original thief family business was comfortable?"

To my question Gentleman thief nods.

"It was the carefree're just being used. Given the only thing of what there When Nigere if was good. Myself, to pursue their own pleasure. But every day it just is, sometimes nostalgic"

"I want to or return? No, do you want per legitimate job?"

Also think that you If dismissal if so. Coming years, and going to live if attached to the legitimate work is not difficult Shikahodo. If the person does not want to do from the bottom of my heart, it is not a good and even if done. Well, I was acquired by Kuwase an active bowl and Nanchatte. But, Gentleman thief shook his head, leaving the troubled face.

"No, it is but there is a thing took, its ..... and be grateful to handing out to troubled people, happy. Work itself is not a bad" "I see."

Do not you the good if there is a challenging Nari guy? Although I think, or that mean pressure is also large.

“Families who were left in the country is probably …… and I believe have that …… I is good, but this is a bad thing but. I, I think not get also some. Understanding a good thing, there is rewarding do it. ” “Do because it’s a Gentleman thief. Thing of guy to do good deeds in a bad means of Tteyuu Gentleman thief”

There may not be a person correct the good deeds. It because you say What guy rotten to the core is, really backs to the bad thing is circumvent the rules.

…… Is it me? Shiranna.

So Chivalrous thief to help the weak and fielding villain that does not Sabake Even table. Little different, but the case of ours, even it’s true that there are guy that has been saved in it. Still bad it’s a bad thing. That fact does not change. But, here also troubled If you do not wipe the anxiety of this guy. Yeah. Do’ll stimulate the pleasure of those who work behind the scenes.

and “It would know if you, the world is not interrupted villain even saved. This includes, but is it passed since as will passed since decades hundred years passed since it is a thousand years I will continue as long as there are …… people”

“……”

"Guy became bandits and trouble to eat is you like like a guys would often, but enough guy to continue that bad even if there is food, clothing and shelter are with it what Goman"

"Oh."

"Some of such guys, I'm the guy also mixed helpless even in ours hero who saved the world."

This is a fact. The judge is because they were that bad, it is difficult to middle people Nante. If wrong one step Do not out the beginning of the dictatorship. Then the advanced future'm going to be in dystopia.

"That the world parasite, the Sabakeru even no guys helpless is I just you"

"I, only?"

Anyone can do that you cannot even Hero and his honor. It would be another kind of pleasure.

"Yes. Even Hero a Chivalrous thief that Sabakeru a villain that cannot be the only looking in Komanui the hand, it's you." "....."

I might not even comfort in this degree.

"Well, I'm Good luck. Unless Yarakasa a compelling Hema here is gonna to follow."

"Oh, oh!"

The face of Chivalrous thief is like is getting better than before, it seemed to me. Well, you'll like this mon. Well, you can either go back to the village. Chivalrous thief opened his mouth and believe such.

"Hero of the Shield sama, reminds me -"
