# Chapter 1

Nuuoooooo!

Although I have raised my voice in surprise, I'm reflecting.  
It seems that I'm trapped in a small place.

Nu?

Uun.

Where am I?

I don't see anything, but darkness when I open my eyes.  
Nothing changes even if I close them.

Gotsun

Ah, ouch!

Ouch ouch ouch.

I hit my head when I attempted to stretch.

What is happening?

Where the hell am I right now?

Umm, certainly yesterday...

Are? Are?

I can't remember anything.

Nonono.

I really can't remember a thing.

What's up with me?

Was I perhaps abducted?

Are they demanding a ransom?

Is it begging for my life in front of a video camera?

Wait wait wait.

A little timeout.

Don't panic, don't panic.

Let's calm down first.

My body doesn't hurt and the criminal isn't here.

Yosh, I'm safe for now.

Safe.

Settle down, me.

Nonono, I'm calm.

Alright.

Anyway, I must restore my visibility first of all.

I want to stretch my legs because it's so narrow I must be curled up.

My body is so rounded that I almost hear it creaking.

I'm not really fond of narrow places.  
Living in a closet is impossible.

Boshu boshu boshu boshu

Fuu~

I break through something like a husk which is wrapping me up.

I was able to get out my limbs somehow.

Outside air feels nice~

Refreshing coolness.

It's good I am able to feel at ease.

Boshu boshu

I take the opportunity and break through the husk around my face.

Ofu!

Uwa! I can see the light somehow.

Although the light is weak, my eyes are clapping.

I feel dizzy.

But, I'm able to see the surroundings.

I can see plant thingies around, but there's no sky.

I may be in a cave.

It's humid after all.

Anyway, I'm glad that I'm not in a car or a suspicious office.

The line of kidnapping may be thin.

Then what?

What is it?

Uun.

Yosh.

I should confirm my surroundings.

「Kyan kyan」

「Garururururuuuu!」

Paku

「Kyu—n」

Kuchakucha kuchiyu kuchiyu

Nn?

I heard some dangerous sound, but...

That... a shriek and angry roar?

It was like a cry of a wild beast.

A feeble voice of dying.

Kuchiyu kuchiyu, a sound of eating.

Boshu boshu boshu  
I break the shell in front of me in order to expand the field of vision.

Ge!!!  
Uohoiiii!  
O, ooooi...  
What the hell are you showing me!  
A huge wild dog is eating a huge eggs!  
I can't see the puppy-ish? creature inside the egg.  
Gross...

「Kyan kyan」  
「Garururururuuuu!」  
Paku  
「Kyu——n」

Ah, it ate one of them.  
Rather, that dog is way too big!  
It's super huge!

It's not a dog anymore.  
Because its size is that of a rhinoceros.  
You wouldn't be able to keep such thing at home, you wouldn't be even able to attach a collar.  
Absolute store entry refusal.  
If someone took that into the shopping center, it would leave with corpses behind.  
It's already a monster that appears in games.  
Because it has man-eating size.

「Garururururururuuuuu!」

Bad!  
Dangerous!  
The huge stray dog's? eyes and mine meet.  
It will be okay.  
I'm glared at, though.  
But, what are those creatures?  
What are they, what are they?

【Current skill points: 50】  
【Consume 50 points to acquire the Appraisal Skill?】

What's going on?  
What, what?  
N?  
I heard a voice in my head.  
Was it my imagination?

It probably was.

【Consume 50 points to acquire the Appraisal Skill?】

Uo!

No way!

It seems that I wasn't wrong.

I heard it again.

This is serious.

Appraisal Skill is that thing, right?

The thing that often appears in games which allow you to see the monster's identity and status and level.

The ability I would like the most if I was in a different world.

In that case, the answer was already decided.

Want it, want it~

I must acquire it.

『I want to acquire that skill』

I answer in my heart.

【Appraisal Lv1 acquired.】

Thrilling.

Yeah.

Clap clap.

It seems that I have acquired the skill.

Well then, let's use it on that stray dog? creature.

Are?

But, how do I use it?

Let's try praying silently first.

『Appraisal』

-----  
Race: Biological  
-----

Ofu!

A screen appears in front of my face.

It looks like character screen in games.

I see it, but... all I can see is...『Biological』.

As expected, even I understand that the stray dog in front of me is a living creature.

I will do it once again.

『Appraisal』

-----  
Race: Biological  
-----

Once again.

-----  
Race: Biological  
-----

Once more.

-----  
Race: Biological  
-----

And another one.

-----  
Race: Biological  
-----

Eei, another one.

-----  
Race: Biological  
-----

It's no use.  
The appraisal is useless.  
Biological is too vague.  
It seems that Appraisal-san is completely worthless.

Nono, wait a second.  
That dog may be special.  
There's a possibility that its race is really called『Biological』.  
Then, something else...  
Let's try these!

Yosh!  
I look at the egg close to me.

『Appraisal』

-----  
Race: Biological

-----  
Kwu~, oi!  
Nothing changed after all.  
The unchangeable「Biological」notation.  
Although I already knew it well, but you know?  
I had to confirm anyway.

「Kyan kyan」  
「Garururururuuuu!」  
Paku  
「Kyu——n」

Ah, it ate another one.  
That's right.  
It was so.  
I should have judged the situation calmly.  
I'm the target, am I not?  
Wild woofwoof's.  
I will be eaten by the wild senpai.

I must quickly escape!  
I must leave from here immediately.  
There seem to be several eggs left.  
It will be most likely alright.  
If they are sacrificed, I may be able to escape the beast.

Farewell!

## Chapter 2

Dotetsu

I fell down while advancing forward.

I can't stand up.

Are? I don't have any strength.

I can't move at all.

What's up with me? What wrong?

When I look at my hands...

Ara! What a cute, tiny looking hands.

Almost like a child's... baby's hands.

Nonono.

They don't look small, they really are small.

My hands.

When I look down to the nearby small puddle...

Bishoujo's? No, bishounen's? appearance.

Anyway, it's a typical angel-like face from middle ages.

Who might it be? This angel.

Just looking at him is soothing.

In such place...

He? is dressed in an eggshell, only his arms and legs are visible.

What an innovative fashion.

Quite avant-grade.

Is this perhaps Paris Fashion Week collection?

Kui Kui

When I move my head left and right, the face in the puddle also moves.

Kui Kui

When I move my head again, it moves in the same way.

Doon!

Isn't that me! This angel, is me?

Eh, for real?

Truly?

What has happened to me?

Nono calm down.

Right.

I should Appraise myself.

It's the reason I chose this skill after all.

What am I?

How is it?

『Appraisal』

-----  
Race: Biological  
-----

Nooooooooooooo!  
Shiiit.  
It was so.  
That was the case.  
It was a piece of junk Appraisal-san.  
Appraisal-san you are way too useless.

But, I won't give up.  
Let's give it another try.  
Not giving up is important... Probably.

『Appraisal』

-----  
Race: Biological

『Appraisal』

-----  
Race: Biological  
-----

Yo, you piece of junk...  
Entirely useless.  
When it comes to this, desperation.  
For the time being, thing I can appraise...  
I will appraise everything!  
I'm going to do it!

Uguaaaaaaaaaaa!  
Nuooooooooooooooooo1  
My eyes, my eyes hurt.

Ah, what a headache, it feels like my head is going to explode.  
Something seems to be wriggling inside my head.  
It's going to burst from excessive information.

【Fixed proficiency of a skill reached.『Appraisal Lv1』has become『Appraisal Lv2』】

Ofu!  
Nn?  
I have a feeling that I have heard a voice, but  
it may be because my brain hurts.  
Wait.  
Gimme few minutes.

But...  
Are?  
It seems the Appraisal skill leveled up thanks to the headache.  
Because I heard the voice of god.

Are you serious?  
Seriously?  
Seriously serious?  
Fixed skill proficiency...  
I have certainly used the skill without resting. Have I trained it?

Maa, anything is good at this point.  
Level up is a good thing.  
I should have raised my Appraisal by little bit.  
Then, there's only one thing left.  
This time, I should concentrate it only on myself.  
Now then!

『Appraisal』

-----  
Race: Vampire Egg  
-----

Yoshaaaaaaaaa!  
Yaay!  
Ueeeeeeeeiiii!  
『Biological』has disappeared.  
Somewhat, a real name has appeared.  
I'm very happy.  
Just from getting the race name, I feel accomplished.  
Banzaai!

Nn?

Are?  
But, wait.  
Vampire Egg?  
That seems to be me.

Eeh?  
I'm not a human?  
I was certain because of the arms and legs...  
Certainly, I may be too beautiful for a human...

Uun.  
Nn?  
I wonder...  
I don't understand at all.

I'm suddenly uncertain.  
Vampire is that blood-sucking kyuuketsuki, right?  
Though I'm an egg.  
In the first place, Vampire is a mammal. Is it okay to be an egg?

Nono, it may not be a mammal.  
It's a creature from myths after all.  
It's not like scholars classified it.  
It may not be weird for it to be an egg.  
In fact, I have been born as an egg.

Rather.  
No way...  
Isn't this that thing?  
The internet famous reincarnation in a different world?  
Reincarnate in Noble, Hero, or Magician and defeat the Maou, that thing?  
There have been novels about reincarnations to goblins and elves recently.

But, wait.  
If I'm not mistaken...  
I should have met a god and receive cheat-like powers before reincarnating.  
I should be living comfortable different world life with that power.

I have a feeling that I have not received anything, but...  
Is it just my imagination?  
Is it just my imagination?  
It was important so I said it twice.

「Kyan kyan」  
「Garururururuuuu!」  
Paku  
「Kyu—n」

Ah.  
Another one was eaten!  
He gulped it down.  
The puppy-like thing that came out of the egg was squashed.  
The huge dog's mouth is bloody.

Isn't this, like really dangerous?  
Isn't this a life crisis?  
Let's quickly escape.  
Un, let's immediately do that.  
Escaping is winning!

Farewell!  
Dotetsu.

Aaaaaaaaaaah.  
Unuaaaaaaaaaa!  
It was so.  
That was the case.  
I forgot for a moment, but I, can't move.  
Because I'm an egg, a newborn baby, it's impossible to walk on two legs.  
Nonono.  
Such a bloody scene for a baby is a way too Spartan.

But, anyway, let's run.  
I have no choice, but to do it.  
If that's the case, I have three choices.

Roll.  
Crawl. ←This  
Walk with all my strength.

The ground is bumpy, it's straight and there are too many obstacles.  
Rolling would make me dizzy, I would absolutely not survive.  
Because my mind far surpassed the body development, walking is impossible.  
Therefore, crawling is the only real option.

Well then, departure!

Sasa Crawl Sasa Crawl  
I crawl in the egg to the side with all my might.

Vampire-san is crawling nodesu.

## Chapter 3

Kyuuketsuki-san Desu ga, Nanika?

Nono, who am I telling that to?

I don't even understand my own condition nodesu yo.

-----  
Race: Vampire Egg  
-----

See, Appraisal-san says I'm a vampire.

Although I'm still wrapped in a shell, my arms and feet can be seen, even my face shows here and there.

I'm superhumanly beautiful for some reason.

Because I sparkle like jewels when I look at my reflection.

I unconsciously admire myself.

Uun.

It seems I can only accept it.

That's right.

I have really reincarnated into Vampire-san.

The reason I'm so calm is because I have safely escaped from the bloody scene.

From the scene of huge eggs being eaten by a huge stray dog.

Yes, yes, I have shamelessly escaped from a crime scene.

It was grotesque.

I crawled away while the big stray dog? was eating in a trance.

Because it was way too bloody.

Dobatto.

I noticed blood.

It's muddy.

Although I already wiped the blood in the puddle nearby.

It's probably splatter...

No, I should think about it like reaching the home plate.

Such pitch was a once in a lifetime experience.

I can't say anything about it because I don't remember anything in the first place.

No, but, I could have experienced going to the toilet every 40 minutes during the class before.

I have such certain feeling.

Un, it's probably right.

Maa, if I was chased by the stray dog I would definitely die.

I sincerely thank you, sacrificed eggs.

I'm glad, I'm glad.

It was a sudden death of a lifetime.

Fuu, a peace of mind.  
Well, right now, I'm hiding in a hole of a big tree.  
The big stray dog is dangerous, it's necessary to hide.  
It shouldn't be able to enter this hole with such big build.

That's that, let's confirm the present conditions.  
Somewhere in the middle of the confusion, Appraisal became level 2.  
I couldn't find out more because of the situation.

Let's Appraise myself once again.  
Thoroughly.

-----  
Race: Vampire Egg  
-----

Umu.  
It seems that I really am a Vampire Egg.  
Nothing else except the name of the race is displayed.  
Though I try several times, no further information appears.

Mumu?  
Wait.  
I may receive bonus points if I appraise ten times.  
If there is such game element like the appraisal, it may not be strange.  
Let's try it.

Fuu.  
I'm tired.

But, nothing has changed.

It seems there was no meaning to it after all.

But, rising the Appraisal level is indispensable, the proficiency probably raised, let's assume it was a good practice.

Well, now that I have confirmed my identity as a vampire.

Would my next objective be to level up?

If this is the world where Appraisal can level up, there also should be the basic status level up.

Although I don't know where I am, I must increase my specs.

Enough to win even against that stray dog.

Which reminds me, what name would appear if I Appraised that dog?

「Guuuuu~」

Ah, my stomach screams.

I was wondering who made that sound, but it appears that it was myself.

Hahaa.

That's somehow embarrassing.

Although no one saw me.

I probably got hungry after crawling with all my might.

Uummm...

Something... to eat, something to eat... food is...

Kunkun Kunkun <sup>1</sup>

Are? This eggshell... The eggshell I'm wearing smells somewhat nice.

It smells slightly sweet.

Is it perhaps edible?

If I'm not mistaken, birds or something eat it.

I have a feeling that I'm correct.

I feel like it's a precious meal during their childhood.

Yosh!

Let's give it a try.

Let's try eating a little bit.

If it's awful, I can just spit it out.

Boshu

I break off a little piece of shell.

Paku

I eat.

『Appraisal』

-----  
Others: Dungeon's Wall

Fumufumu.

It seems that this place is a dungeon.

The answer comes back regularly every time I appraise the wall, the ground, and the ceiling.

Dungeon, huh~

Dungeon is that thing, right?

It sounds cool when I say it, right? Dungeon.

The place where monsters appear in swarms, a place fully equipped adventurers explore.

You hunt monsters for materials and items and search for treasure chests.

Isn't this dungeon full of dreams?

Mufufufufu.

My gosh!

My dreams exploded too much and I let out a weird laughter.

Prudence, prudence.

But, but, if this is a dungeon, there may be a treasure chest.

If there's some great equipment in it, I may get strong in one go.

Because I didn't break the shell yet, I don't know what system I belong to, but most likely the humanoid.

Because when I look at my hands and feet coming out of the egg, they look human-like.

Vampires are often able to transform.

Therefore, it's possible to equip human equipment!

Yoshaaaaaaa!

Ouu, but don't be impatient.

It's not like I have found the treasure chest already and it's not even confirmed that it

actually exists.

I will firstly upgrade my Appraisal and gather the necessary information.

Those are the basics.

Right now, after getting out of the hole in the tree, I technically look around the dungeon.

Of course, I'm crawling because I can't walk yet.

If another person saw me, he would see me like a crawling baby cosplaying as an egg.

That would be a very surreal scene.

For the time being, I have to wait until I level up my Appraisal and gather enough information.

The cave system is basically made from rocks, but for some reason, they are shining, the rocks.

Therefore, a light source is not a problem.

They may work by magic.

There are trees growing here and there, but Appraisal says only 「Dungeon's Tree」 every time.

Maa, there's no meaning in knowing the tree's name in the first place.

Although I have been crawling for a while now, my hands and knees don't hurt.

Maybe because I'm a Vampire-san, my skin may be tougher than the skin of an ordinary person.

I'm glad.

「Gururuaaa」

?!

This is bad, it's them.

The huge stray dogs who ate the eggs.

I enter the hole in the nearby tree at high speed.

From there, I wait and see.

They are only walking, it's not like they are looking for me.

Probably, a stroll after a meal.

I can feel somewhat comfortable mood from them.

Fuu, that was close.

If they pursued me because of greed, that would be really bad.

I'm glad that these dogs don't have a hungry mind.

Then, let's appraise the dogs for the starters.

I may grasp something from their name.

『Appraisal』

-----  
Race: Earth Dog  
-----

Fumufumu.

A dog of the ground, huh.

I don't understand.

Most likely a dog that can't be found in Japan.

I don't know much about dogs, but I'm certain I would have heard about such huge dog if it existed.

I can't remember anything about myself, but I remember various information.

I just can't remember personal information, some kind of personal information amnesia?

I get hungry when I look at these Earth Dogs.

Should I eat some eggshell?

It crunches when it enters my mouth.

Mushamusha

Somewhat delicious.

I feel like it became a habit.

This eggshell is an important meal.

Mushamusha

Ah, which reminds me, I have not appraised this eggshell yet.

Well then.

『Appraisal』

-----

It's the same...

Maa, I knew it.

Appraisal-san's true abilities.

But, but, I had little expectations.

I can't see the Earth Dogs anymore.

I must quickly level up my Appraisal.

When the level rose from LV1→LV2... I think I have activated Appraisal continuously one after another.

I may level up if I do that again.

Kyorokyoro

I look around restlessly and confirm that there are no enemies.

It came.  
Level notation.  
This may make my life easier.  
If I understand opponent's level, I will know if it's weak or strong.  
Because that would definitely be impossible just with the race's name.

Yosh, let's continue appraising.  
Well then, well then, let's appraise the eggshell in my hand again.

-----  
Others: Vampire Egg's Eggshell  
Description: Protects a stomach for a period of time after eating, allowing consumption of any poison.  
A rare, expensive ingredient  
-----

Oou.

Uhhyo.

Appraisal-san, you are growing up steadily, aren't you?

A description is added.

I did it.

This eggshell apparently has more uses than rice cracker.

Since it may be useful in the future, I should preserve it and look for other ingredients.

Let's keep on appraising.

When crawling in the dungeon while being cautious about the Earth Dogs, I found beautiful red flowers.

Oou.

A flower worth of appraising.

I have no choice, but to do it.

Here I come.

-----  
Others: Nirvana Flower

Description: Extremely poisonous flower. From the petals to the root, everything is poisonous.

The bulb part is particularly poisonous. A superb piece of work if the poison is removed.

-----  
Hee~

Poison, is it?

Though I nearly plucked it, I'm safe.

So it is true that beautiful flowers have poison.

But, but, can't I use this?

A level 1 me is a small fry.

In this dungeon, I should be an existence that is especially weak.

Therefore, I could use this poison to kill my enemies.

It's decided, let's harvest it.

Should I take around ten flowers for now?

Sasa Sasa Sasa

Collection completed.

Kukukuku.

Fufufufu.

Let's end Earth Dogs with this.

Let's finished them off with poison.

Just a pinprick to die.

You must not despise the Vampire-san.

## Chapter 5

Giko giko Giko giko

Sharpening of the branch I picked up into the spear is completed.

I smear plenty of「Nirvana Flower」poison over it.

Smear, smear, fufufu.

Poison spear complete.

For me, who has modern person's sense, it seems that I really made something terrible, but let's not mind it.

I think I would lose if I mind it.

The present me is Vampire anyway.

I'm an egg anyway.

Armament is necessary nodesu.

I won't survive in the dungeon without intellect nodesu.

With this, I should be able to win even against that dog.

All I have to do now is to wait for the Earth Dog in the tree's hole.

Should I really wait here patiently?

I think I will meet it even if I don't look for them.

Let's look on the Nirvana Flower again while waiting for the dog.

It's a beautiful red flower, but I'm concerned about one of Appraisal's sentences.

-----  
Others: Nirvana Flower

Description: Extremely poisonous flower. From the petals to the root, everything is poisonous.

The bulb part is particularly poisonous. An exquisite delicacy if the poison is removed.

-----  
That's so.

That's right.

———An exquisite delicacy if the poison is removed———

What does an exquisite delicacy tastes like?

In addition, the rice cracker at my disposal, the vampire egg.

An ingredient which protects the stomach from poison.

-----  
Others: Vampire Egg's Eggshell

Description: Protects a stomach for a period of time after eating, allowing consumption of any poison.

A rare, expensive ingredient

-----  
This is perhaps... a chance.

It may be a chance.

My fever?

Perhaps if I eat the eggshell my stomach will be protected from the flower's poison?

I'm tempted by the unrivaled delicacy.

Although the eggshell isn't that bad... what should I do~

Maybe I should try eating the flower a little~

It will also put the eggshell performance to the test.

If the performance of the eggshell is actually poor, I will be in trouble.

That would also mean that Appraisal could make mistakes.

I think it's necessary to check whether Appraisal's information is correct before it's too late.

That's right.

Let's do that.

What should I do?

Crack crack.

I pierce the shell with my fangs and suck on it while thinking.

Right, right.

I just noticed a while ago, but I have fangs.

Well, I seem to be able to drink through them like drinking a juice through a straw and get nutrition.

Vampires may be possibly magical.

Because I'm stuffed in an eggshell I don't feel like a vampire yet.

Yosh!

Let's do it in one go.

Let's do it while my stomach is protected with the eggshell.

Gabun.

I insert my fangs into the flower's root.

D, delicioooooooooooooooooooooooooooooos.

Fantasutikku!

What's this thing?

It's so delicious my throat got wet.

The taste is similar to orange juice.

**【Fixed proficiency of a skill reached. Skill『Poison Resistance Lv1』acquired】**

Oou.

I acquired something.

Poison Resistance, was this thanks to the Nirvana Flower after all?

It's delicious and got me a resistance.

Double value is economical.

I got something nice on my hands.

Well then, let's drink one more time.

Gabun.

And another one.

Gabun.

Gabun.

【Fixed proficiency of a skill reached.『Poison Resistance Lv1』has become『Poison Resistance Lv2』】

Gabun.

Gabun.

Gabun.

Gabun.

Gabun.

Gabun.

【Fixed proficiency of a skill reached.『Poison Resistance Lv2』has become『Poison Resistance Lv3』】

Fuu~

I'm full, so full.

I may have drank too much because it was so delicious.

Because my stomach is full, it will have to do.

I will keep the rest.

Before I noticed, my resistance raised to level 3.

Uun.

Somehow, after filling my stomach I became really drowsy.

Although it's completely full of liquid.

I should lay down and rest for a while.

ZZZZZZZZZZ

ZZZZZZZZZZ

zzzzzzzzzzzz

「Uooo!」

I fell asleep.  
Full stomach is terrifying.  
Way too comfortable.  
However, to be able to sleep in such situation...  
Is my mind already used to the dungeon?  
Adaption, huh.

Well then, let's eat some wake-up eggshell.  
And drink a little of Nirvana Flower juice.

Ku~~  
Quite delicious flavor.  
Laying down is also quite good.  
What a considerably luxurious breakfast.

Oo.  
An Earth Dog appeared at a right time.  
Which reminds me, I still couldn't see its level when I was appraising it before.  
Well then, well then.

-----  
Race: Earth Dog  
Level: 3  
-----

Fumufumu.  
Level 3, is it?  
Two levels above me, I see.

But, I have a poisonous weapon.

I don't know if it works or not, but I should be able to defeat it if I throw it from a distance.

It should be worth a try.

Earth Dog won't be able to enter this hole anyway.

There's no risk.

Yosh, let's do it.

I have three poison spears prepared.

Although I would like to defeat it on the first try.

I aim from the hole at the Earth Dog who is approximately 5m away from me.

Here I come.

Earth Dog.

I will now show you the power of Vampire.

I raise my poison spear and accelerate my crawling.

Imagine javelin throwing in Olympics.

I accelerate to my max speed and ready my arm.

Crawlcrawl Crawlcrawl Crawlcrawl Ei

The spear I threw soars...

Bun dosu

「Kyan」

Oou.

The poison spear has splendidly struck the Earth Dog.

I did it~

「Gurururuaaaaa」

Are?

The spear hit it, that Inu-san is still alive, though.

It's coming...

As expected its size is indeed of a rhinoceros.

I wonder if the poison is dull...

Rather, it's looking this way.

It's excessively glaring at me, though.

Nonono.

I wasn't the one who threw it at you, I wonder if it would believe me if I say that?

Communication doesn't seem possible in the first place.

Oh.

Dangerous, dangerous.

Dadadadada Dadadadada

Earth Dog is running towards me.  
It's completely enraged.

Waaa!  
Evacuation, emergency shelter!  
I evacuate to the deepest part of the tree hole and prepare my spear.

「Gururuuaaaaaaaaaa!」

Dosudosu Dosudosu  
The Earth Dog assaults the tree hole and barks.

Yusayusa Yusayusa  
The Earth Dog's assault shakes the tree, but I'm not minding it.  
It's okay, it's alright.  
『Dungeon's Tree』is probably firm.  
Although the Earth Dog stuck its face into the tree hole, but I'm not minding it.  
It's spitting saliva, but I'm not minding it.  
This should be a safe place.

Are?  
If I think about it...  
This may be a chance.  
I can attack one-sidedly right now.  
I mean, opponent's head is right in front of me.  
Couldn't I poke it with poison spear as much as I like?  
It may be alright if pay attention to the distance.

Let's give it a try.  
I carefully, carefully, approach the barking Earth Dog.  
I poke it with the poison spear.

「Ei, ei, ei」  
Dosun dosun dosun  
「Kyan」

O, ou...  
It looks like it works somehow.  
I might be able to defeat it like this.  
Yosh, let's poke it a little more.

「Ei, ei, ei」  
Dosun dosun dosun  
「Kyan, kyan」

Fuu~  
The Earth Dogs movements gradually became dull.  
The poison may have taken the effect.

「Kyan」

Batan.

Oh.

It finally stopped moving and fell on the ground.

Areare? I may have defeated it.

Have I done it?

【12 Experience gained】

【Vampire Egg's level has increased from 1 to 3】

【Evolution requirements has been met】

It's heeeeeeeeere!

Ueeeeeeeeeeeeeeeeeei!

It finally came.

To think... that I would defeat that big dog...

The poison may be strong.

Nono, it may have been thanks to my crawlthrow.

Maa, I don't know which it is, but with this, my egg life comes to the end.

Because I apparently met the requirements of the evolution.

Gufufufu.

My dream spreads.

Now then, what can I evolve into?

[] (´・ω・`) []

## Chapter 6

I thought that I would evolve automatically after leveling up.  
Apparently, that's wrong.  
Because nothing has happened.

Uuummm...  
Should I try speaking to the voice of God?  
Would that allow me to evolve?

『I'd like to evolve, but』

【Display Evolution paths?】

Oh.  
A reply came.  
Where are you? The voice in my head?  
Oh, well.  
First of all, evolution, the evolution.

『Please』

【Displaying Evolution paths.】  
【Please select the Evolution path.】

-----  
Current: Vampire Egg  
-----

Evolution path: Baby Vampire  
-----

Ho~u.  
Although it said select, there's only one path.  
Then, is there a need to select...  
Maa, it may be only the first one.  
Surely I will have many choices during the next evolution.  
Let's think that I'm right.  
Well then~  
U~n.  
How about Baby Vampire?  
Although I may be able to continue my Egg life, continuing to crawl like that may get difficult.  
I would like to evolve from four legs to bipedal.

『Baby, please』

【Commencing the Evolution】

Baribari bari.

Mu, a crack appeared on the egg.  
Pakan.  
Then, the egg lightly breaks, and I'm born.

It may be just my imagination, but I feel like my body become slightly larger.  
I have a feeling that my body is filled with energy.

Right, right.  
Let's confirm with Appraisal.

-----  
Race: Baby Vampire  
Level: 1  
-----

Ou!  
My race changed.  
I evolved.  
My nails grew up a little bit.

Sha Sha  
I cut the air with my claws, it feels somewhat pleasant.

Suta Totatota  
It seems that I can walk now.  
I'm glad~ With this, I can say bye bye to crawling.  
This makes me the happiest.

In addition, with the eggshell removed, I can see that I indeed look human-like.  
Although not perfect human-like body, the skin is sparkling dazzlingly as ever.  
Freed from the egg cosplay, I feel fresh.  
How refreshing.

Oh.  
While pleased by my own evolution, my gaze fell on the Earth Dog's corpse.  
On the contrary to my expectations, the corpse didn't disappear like in the games.

What should I do?  
I may be able to eat it~, this corpse.  
I'm a Vampire after all.  
I heard there are people who it dogs anyway.

I should appraise it for the time being.

-----  
Others: Earth Dog's flesh  
Description: Chewy meat. Eating raw may be dangerous.  
-----

It had become a murdering meat.  
It's not classified as『Race』anymore, but as『Others』.  
Appraisal-san is heartless.

It's dangerous according to the description.  
But, wait...  
I wonder if the eggshell would help me protect my stomach?  
Because it's dangerous to my life, it would classify it like a poison or something.  
This may actually work.

To tell the truth, I want to eat something proper since I only had the eggshell and the flower juice so far.  
To put it bluntly, I want to eat meat.  
Very much.

Therefore.  
There's no need to hesitate.  
Let's eat it right away.

Busun  
I absorb the eggshell with my fangs.  
Gaburi  
I eat the Earth Dog's flesh.  
Or more precisely, I absorb it with my fangs.

I squeeze the meat with my fangs like a juice and gradually fill my stomach.  
The feeling of eating meat is quite strange.  
It's jiggly because it's raw.

**【Fixed proficiency of a skill reached. Skill『Food Poisoning Resistance Lv1』acquired】**

Oh.  
I got something.  
It appears to be different from poison resistance, but still useful for survival.  
Naisu skill!  
I should probably eat a lot of things~

Sucky suck.  
After eating the dog's meat to some extent, I separate my fangs from it.  
Yosh.  
I found out that I can eat it.  
I cut the meat, wrap it in the grass and store it in a cool place.  
I may be able to preserve it in this tree hole.

I quickly finished my task and fell asleep.

zzzzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzzzz

「Guruaaaaaaaaa」  
「Gururururu」  
「Gurururuaaaaaaaaa」

Are?  
It's somewhat noisy outside.

When I look out from the hole, I see three Earth Dogs gathered outside.  
They look very angry.  
They are sniffing around the location where the corpse is.

This is dangerous.  
Did they sniff it out?  
If they stay there like that, I won't be able to leave.

I have three poison spears at hand.  
I may be able to defeat them if I stay in here.  
I have a stock of food.  
But, if they call for more comrades it may be dangerous.

What should I do?

Dogon! Dogon!  
W, what!

The tree is shaking.  
Moreover, considerably violently.  
What is happening!

Dogon, dogon, mishimishimishi.  
Are, isn't this dangerous?  
This is dangerous.  
The tree seems to be breaking, but...  
It's shaking crazily, though.

When I look out of the tree hole.  
Geh!  
What's that thing?  
There's like a huge Earth Dog.  
What, what?  
The appearance of their boss?

-----  
Race: Earth Dog Leader  
Level: 1  
-----

.....  
It's leader, alright.  
But, it's huge.  
It's about 1,5 times larger than the others.

Dogon dogon  
Mishimishimishi, giiiiiii, batan

Are?  
A sudden brightness from above.  
Also, a cool breeze.

The tree broke...  
It was broken...  
Dungeon Trees can be broken.  
What's this?  
I was certain that it's an indestructible object or something... I was wrong.

「Guruaaaaaaaaaa」  
「Guruguruguruguruuuuuuu」  
「Ruruurururururu」

S, shit.  
I need to quickly escape.  
I don't have protection.

Okay, disperse!

I start running while holding the poison spear.  
Bipedal running!

## Chapter 7

「Guruaaaaaaaaaaa」  
「Guruguruuuuuuuuuuu」  
「Gurururururururu」

Oh, crap.  
This is dangerous.  
Because I'm being chased.  
They keep chasing me hard.  
Earth Dog x3, Earth Dog Leader x1.

If that's the case...  
Ora.  
I throw the poison spear.

Dosun  
「Kyan」

It seems I hit one of them.  
Its speed slows down and it withdraws.  
Yosh!  
Remaining.  
Earth Dog x2, Earth Dog leader x1.  
I must escape.  
I could gain some time if I hide in other tree holes, but...  
Unfortunately, I don't see any tree holes...  
Why at such time.  
I have found them easily until now.

Oh.  
What's that?  
When I look forward, I see a door of some artificial structure for the first time.  
I appraise it while running.

-----  
Others: Anima Temple  
Description: A sacred place governing over the life and death.  
-----

Although I don't understand it well, it looks good.  
Anyway, let's take refuge in there.  
There may be people inside.  
I wonder if I can find my sanctuary there.

Dondon Dondon  
I knock on the door, but it won't open.

Why does it not open?  
Is there any method?

【It's necessary to consume skill points in order to enter the temple】

Oh.  
Voice of God again.  
But, an entrance fee?  
Is this a theme park or something?  
But, if it means entering a safe place.  
『I understand. That's alright. Use them』

【The present amount of skill points is 100】  
【Consuming 100 skill points】

Dosan.  
The next moment, the door opened.。  
Yoshaaaaa.  
In any case, let's evacuate.

Batan.  
When I enter, the door closes and the Earth Dogs collide with the door.  
Fuu~  
I'm saved.  
I look around restlessly.  
But, what is this place?  
Unlike everything else, this is artificial...

It's considerably old building...  
As the name implies, it surely has a holy atmosphere.  
The air is clear, totally different from the cave.

Anyway, let's look around.

Tekuteku Tekuteku  
Dust dances with my every step.  
Nobody may have come here in a while.  
It's quite large, I hardly think that humans would build something so enormous.  
In reality, it looks like a huge version of Parthenon.  
I feel totally dwarfed.

When I advance further, I came across a cliff-like place.  
I see floating lights similar to fireflies at the very bottom.  
Magically beautiful... I feel very sacred aura.

I look at the lights and appraise them.

-----

? :?

? :?

---

No information available.

This didn't happen until now.

One more time.

---

? :?

? :?

---

Nothing is displayed after all.

No way... did Appraisal-san break?

I appraise the building's floor immediately.

---

Others: Anima Temple

Description: A sacred place governing over the life and death.

---

Yokatta~

Appraisal-san didn't break.

It seems that those floating lights are special.

Because it's so magical, I can agree with the「?」.

But this place, an Anima Temple, huh...

If I'm not mistaken, it should have a meaning of life or soul or something like that in Latin.

Nonono.

Because it's a word with many meanings, would a feminine principle as present in the male unconscious be right?

Because I don't know the link between the reality and this place, it may have a totally different meaning.

However, if it had that meaning...

Wouldn't the floating lights at the bottom be people's souls?

The Anima Temple's description is「A sacred place governing over the life and death」after all.

If that's the case, then this sacred place is slightly scary.

The unclear space of life and death is chilling my heart.

Rather.

I think that a place of life and death would be an endgame content in a game.

If that were the case, it would be a place of last boss fight.

You would fight and beat the boss.

I'm just a baby after reincarnation, though?

Is it alright for me to be here?

「Hohoho, it has been a while since anyone came here, *ja nou*」

I heard a voice from behind all of sudden.

【 (´・ω・`) 】

## Chapter 8

Uo!  
That surprised me!  
I heard a voice from behind all of sudden.  
Are?  
I thought there wasn't anyone.  
I didn't hear even a footstep.  
When I look back, Ojiisan? is standing there.  
Sharp ears, long beard... not a human, but an elf?  
Who is he? This temple's priest?

「Errr, who might you be? I thought no one was here」  
「That's because only I and the soul-like being reside here nou. However, you are not ordinary. To be able to enter」

Skill points were needed in order to enter.  
From Jiisan's way of speaking, ordinary people don't have skill points?

「I have entered with skill points」  
「Hooou. Skill... a person from a different world as expected. It can also explain the maturation to Baby Vampire」

As expected.  
It seems that not everyone in this world possesses skill points.  
It may be only a special feature of people from different worlds.  
If that's the case, there may be a lot more people who came to this world just like me.

「Are there other people from different world?」  
「I have only met a few people ja. But, there are many here. You should pray to the saints zo」

Elf Jiisan points at the part of the temple.  
A hole in the wall fitted with many mummies lined up.  
Almost as if they were saints of pyramid or catacombs.  
It doesn't seem like they are alive.  
What is this about I wonder?

「That is...」  
「If you have an opportunity go the east of the dungeon. If you go where the red flowers, where Nirvana Flowers bloom we will meet again rou」

I continued to hear Elf Jiisan's voice as he was disappearing.  
He quickly disappears like a fog.  
I swing my hand, but there's nothing.

I wonder what was that about?

It may be some kind of magic.  
In a world with a leveling system, that may not be surprising...

After looking around for a while, I didn't find Elf Jiisan around after all.  
It seems he really disappeared.  
Well then, let's look at the mummies like Elf Jiisan said.

The mummy totally looks like a saint.  
Is it alive or dead, I can't tell.  
It may be in both states.  
It would be over in the reality, but here, I have a convenient skill.  
To tell you the truth, it's Appraisal-san.  
Even if this was an ancient civilization excavation site, I could easily advance thanks to the Appraisal skill.  
It's a field in which Appraisal-san invincible.  
Well, then.  
Please, have a quick look.  
Appraisal-san.

-----  
Race: A person reincarnated from a different world.  
Description: Person who created things  
-----

Oooou!  
A person from a different world in such place.  
Jiisan said『There are many here』after all.  
If that's the case, they may have come here in the past from Japan just like me.  
I'm quite interested in the sentence『A person who creates things』...  
But, it doesn't seem like I will get more information.  
I should try appraising the next mummy.

-----  
Race: A person reincarnated from a different world.  
Description: Person who healed people  
-----

This one is reincarnated too, huh.  
The description is different.  
A person who heals, would that mean he/she was a saint while alive?  
Nonono.  
There are much more professions which could help people.  
There's the case of songstress after all.

What about this one?  
-----

Race: A person reincarnated from a different world.

Description: Person who crossed the sea.

-----

Another reincarnated person.

He apparently crossed the sea...

I wonder if every mummy here is a reincarnated person?

Nn?

But, wait a minute.

Until now, Appraisal displayed dead creatures as『Others』not『Race』.

Then, after all, are these mummies alive?

No, they just may not be completely dead.

In that case.

「Good evening」

I greet the mummies first of all.

Silence.

No reaction.

Maa, wasn't that obvious?

I didn't have any expectations.

Really.

Therefore, I don't feel depressed because there was no answer.

Mummification of reincarnated people, huh~

Mummy-sans, huh~

Hmm?

Wait.

I have an idea.

If you think about it, it's a good idea.

Until now, I have gained skills only by sucking something with my fangs.

I may be able to get something if I suck this time.

I may be able to obtain some skill.

And because I'm a vampire, there wouldn't be problem sucking a human blood.

It's rather natural.

I should do that.

Then, which mummy should I choose?

『Person who created things』or『Person who healed people』.

As expected, drinking saint's blood would be awkward, let's go with『Person who created things』first.

If things go smoothly, I will suck the saint after.

Okay!

Gabun.

I bite and suck the mummy's blood.

【Skill『God's Fangs』activated. Skill『Blood Bone Alchemy』acquired.】

Uooo.

I did iiiiiiit!

Hiyahooooo!

A good looking ability getto.

Pakan!

W, what.

My body is all of sudden enveloped by a white light and I feel like a bell is pounding inside my head.

It's so bright I can't open my eyes.

It feels like an electric shock is running through my head.

As if the shock is forcibly playing with my brain.

Guaaaaaaaaaaaaa!

Aaaaaaaaaaaaaa!

My surroundings are covered with white light...

I feel a soft sensation of floating.

Like if my body is flying somewhere.

When I notice, I'm outside of the Anima Temple.

I have returned in front of the stone door.

Earth Dogs are in front of me...

{} (´•\_•` ) {}

## Chapter 9

「Gururururuaaaaaa」

「Guruaaaaaaaa」

「Gurururuaaaaaa」

Earth Dogs bark at me after discovering me.

T, this is bad.

This is a dead end, the door won't open...

I will get eaten by those guys.

Dondon Dondon

I hit the door.

「Oi, hurry up and open. I want to go inside again」

【You are not able to enter at this time.】

Kuuuuuuuuuu.

Why?

Why?

Will it work if I put in skill points?

Dondon Dondon

I hit the door again.

【You are not able to enter at this time.】

「Guruuruuruaaaaa」

C, crap.

Earth Dogs will attack me.

I have two poison spears in possession.

Eei, I will throw one for trial.

「Ei」

Dosun

「Kyan」

O, ou.

It hit.

It hit one of the Earth Dogs.

I regret that it didn't hit the Earth Dog leader.

【Fixed proficiency of a skill reached. Skill『Throwing Lv1』acquired】

Getto!

tte, now's not the time to celebrate.

Uumm, a weapon, a weapon... one last poison spear.

Nothing else, but this...

Nonono.

That's right!

I should have obtained a skill from the mummy in the temple.

If I'm correct... the name should be「Blood Bone Alchemy」.

Judging by the name, an alchemy that requires blood and bones.

If that's the case, blood and... bones...

Ah, found them.

The dog I threw the spear at.

The injured Earth Dog.

Although it's bleeding, I don't see its bones.

Should I try it on that dog?

This ability.

「Gurururururuaaa」

Most likely because of the injury, the Earth Dog attacks me frantically.

The remaining dog and the leader are watching.

They are most likely expecting it to bring me down.

Then, I have no choice, but to do it.

This ability...「Blood Bone Alchemy」, I will bet on it.

「Ei」

I throw the last poison spear at the attacking Earth Dog.

Dosun.

The spear sticks in its body, but it keeps charging at me without minding.

It most likely understands that it's going to die anyway.

It charges desperately.

Ku.

I heard that a wounded beast is the most dangerous one.

I can't be careless.

In that case.

I extend my hand towards the direction of the Earth Dog.

Gabun.

The opponent bit into my left hand.

Guaaaaaaaa.

Gyaaaaaaaaa!

I feel the pain, but I endure.

My arm is about to come off.

But, I have caught that fellow like this.  
Right now, I'm able to see that guy's wound.  
I'm able to touch his blood and bones easily.

I will give my left arm to you.

Pup.

But, eat this.

I will take your life.

Doban.

I insert my hand in the wound the poison spear made.

I touch its blood and bones directly.

A bloody, wet flesh and hard bones.

I plunge through the flesh and touch its bones.

「Blood Bone Alchemy!」

Pika Dododododdo baam.

「Guruaaaaaaaaaaaaaaaaaaaaaa!」

The Earth Dogs explodes from the inside.

Blood and flesh scatter everywhere.

My entire body is bloody.

A circle of blood and bones is drawn around me.

A red circle appears.

【12 Experience gained】

【Baby Vampire level has increased from 1 to 2】

Blasting!

Terrific... Blood Bone Alchemy.

Somehow, my opponent was blasted with one hit.

I don't have a single idea as to what happened, but that guy has died.

Because it's an alchemy, I prayed「Change」 「Change」 in my mind, so the alchemy might have activated and caused an explosion?

Because I don't have a clear image of alchemy.

「Gurururu...」

「Gururururu.....」

The remaining Earth Dog observed me from the distance.

It seems it's frightened after seeing its companion done in.

But, the leader is a big guy.

Earth Dog leader is full of a motivation.

I crouch down and put my right hand on the ground.

The left arm which was bitten by the Earth Dog is now, but a decoration.

Far from functioning properly, it got blown off by the explosion.

It fell far in the distance.  
Therefore, right now, I'm one-handed.

I gather the blood and bones scattered on the ground with my remaining hand.  
The alchemy is based on blood and bones.  
If I have this much raw material.  
I could do some proper training.  
What is necessary right now, is a weapon.  
The ultimate weapon that will allow me to defeat them.  
A weapon that can overturn this situation.  
I will create it now!

「Blood Bone Alchemy!」

My hand shines.  
The blood and bones shine and contract in my hand.  
A weapon wrapped in red light is produced in my right hand.

What appeared is... a deep crimson, shining gun.  
A Revolver Magnum.

As expected, the most powerful weapon a modern person could remember is a gun.  
A sword or a spear can't win against a gun.  
A gun that can ensure heavy damage from a distance is the strongest.  
With that thought, a revolver was created.

The ammunition, Earth Dog's blood and bones.  
Blood bullets.  
Bone bullets.  
Two kinds of bullets.

I pick the bullets with my mouth and load them into the gun.  
The loss of my left arm is huge.  
But, thanks to that, I have obtained the strongest weapon instead.

I will drink you.  
You dogs.

「Gurururururu」  
「Gururururuaaaaaa」

Dadan Dadan Dadan Dadan

The Earth Dog leader and its henchman charge at me.  
They may have thought that the more time they give, the worse it will turn out.  
But, they are slow.  
I already loaded the gun.

It may use a considerable amount of my stamina...

I need to rest somewhere...

But, I must do something about my left arm before that.

It was blown off because of the alchemy.

I collect the blood, bones, and my former arm.

I image my left arm in my mind.

「Blood Bone Alchemy!」

A deep crimson arm light form forms bit by bit.

When a bold red line is produced, the bones, blood, and flesh start mixing.

The crimson light soon turns into an object.

Fuun.

The light ceases.

I make a fist and release, but it didn't go well.

I may still need more practice with the alchemy.

But, that's entirely OK.

I'm satisfied because the arm is properly sticking to me.

I gather the Earth Dog's bodies while feeling relieved.

If I leave these guys here, their friends may come.

The present situation.

I can't fight in my present situation in which I could lose consciousness at any moment.

Let's leave from here immediately.

I start walking unsteadily.

I enter the nearby tree's hole and lie down.

{} ( ' . . . ) {}

## Chapter 10

When I woke up.  
The pain has subsided.  
I have a tingling ache in the left arm I created with Blood Bone Alchemy.  
And I'm absurdly hungry.  
Anything's good, I want to eat.  
What is necessary right now is blood and nutrition.  
My decreased stamina and my left arm are probably demanding energy.

Gabun  
I bite the Earth Dog's meat next to me.  
Chiyu Chiyu  
I suck the nutrition with my fangs.

I'm thankful to my growing fangs now.  
Because I can eat without having to move my mouth.  
I can get nutrition comfortably without moving.  
As I suck the nutrition through my fangs, I can tell that it flows directly to my left arm.  
The feeling of blood transferring.  
Because I'm a vampire, my relationship with blood may be subtle.

【Fixed proficiency of a skill reached.『Food Poisoning Resistance Lv1』has become『Food Poisoning Resistance Lv2』】

Ouu.  
I heard a voice.  
But, it's a meal time now.  
I need to get my nutrition...  
I must get my perfect physical condition back.

Before I noticed, I fell asleep while sucking meat with my fangs.

I wake up.  
My left hand is still tingling.  
I am hungry.  
My body demands meat.  
Gabun Chiyu Chiyu  
I bite the Earth Dog's meat and suck with my fangs.  
My body is filled with energy.

【Fixed proficiency of a skill reached.『Food Poisoning Resistance Lv2』has become『Food Poisoning Resistance Lv3』】

I heard a voice, but...  
Not yet.  
I'm not full yet.  
My left arm demands to eat more.  
It demands blood.  
It demands meat.  
More.  
Give me more.  
Gabun Chiyu Chiyu  
I slurp on Earth Dog's meat again.

I wake up.  
Not yet.  
It's not enough.  
My left arm wants a meat.  
But, I already ate all of the Earth Dog's meat.  
Then, next, the Earth Dog leader's meat.  
I carefully set it aside.  
The most delicious meal was left for last.  
Well then, itadakimasu.  
Gabun Chiyu Chiyu  
I eat the meat.

I wake up.  
I need more.  
I need more blood and meat.  
My body and left arm wish for it.  
But, I already ate all of the Earth Dog leader's meat.  
I don't have anymore preserved meat.  
I have no choice, but to hunt more.

Tekuteku Tekuteku  
I get out of the tree hole.

The crimson gun I made with alchemy in my right hand.  
Revolver Magnum.

I found a passing Earth Dog.  
I reflexively point the gun and pull the trigger.  
Get well letter from my Blood Bullets.

Ban Ban Ban  
「Kyun」  
The Earth Dog exploded while collapsing.

【12 Experience gained】

I collect the Earth Dog's corpse and drag it to the tree hole.  
Gabun Chiyu Chiyu  
I eat the meat.

Outside of the tree hole.

Ban Ban Ban  
I shoot an Earth Dog with my practiced hand.  
It explodes from inside causing a fountain of blood and falls to the ground.

【12 Experience gained】

No matter how many times I heard the god's voice, it didn't move my emotions.  
I, who is taken by the feeling of severe starvation only want the meat.  
I want to bite into the meat immediately.  
I want to bite and suck.  
My fangs are aching.  
But, I have enough self-control to stop.  
It may have become my habit to eat in the tree hole.

I dragged the prey back to the tree hole.  
Gabun Chiyu Chiyu  
I eat the meat as usual.

## Chapter 11

Back in full force!

I woke up in a refreshing mood after a while.  
I have hunted Earth Dogs like possessed in the last days.  
Wake up, hunt dogs, eat, sleep.  
That was the extent of my daily life.  
There was a case when I was firing the gun half asleep.  
Before I noticed, an Earth Dog exploded right in front of me.  
It was a zombie mode.  
The me without awareness is scary...

But, but.  
Thanks to that, I have lost the uncomfortable feeling in my left arm.  
Even if I close and open my fist, I feel nothing.  
No discomfort.  
Yosh!  
I have finally returned.

The settling of my craving for meat may be particularly big.  
I probably got enough nutrition.  
My fangs have calmed down.

I should appraise myself after a long time.

-----  
Race: Baby Vampire

Level: 4  
-----

Are?  
Ouou.  
I leveled up before I noticed.  
The last thing I remember is leveling to level 2 after killing the Earth Dog leader.  
I have improved by two levels since then.  
It seems my level has increased while I was hunting.

I feel that my body slightly bigger.  
Leveling up may have increased body growth.  
It would be difficult to notice little by little.

Well then, let's go hunting.

There's a mountain of bones near when I get out of the hole.  
Come to think of it, I have been piling up the bones while being absorbed in hunting.  
It can't be helped since there's no space in the tree hole.

Tekuteku Tekuteku

Oh.

Earth Dog discovered.

I aim the crimson gun at it and pull the trigger.

Ban Ban Ban

「Kyun」

The Earth Dog's movements immediately stop and it explodes.

Fuu~

I got used to it.

I felt nothing at the sight of the grotesquely exploding Earth Dog.

I already know from where the blood will spurt.

I have certainly become stronger.

Because right now, I'm the one hunting.

Being hunted feels nostalgic.

I feel like it was during the ancient egg times.

Now then.

I collect the Earth Dog materials and throw them into the hole.

When I finish, I will use it for the Blood Bone Alchemy exercise.

Because I have done the bullet refining only during the hunting mode.

I must try other abilities.

Then, shall I try to make the revolver once again?

Because when I made it before, I was in a desperate situation and wasn't able to tell what's what.

Yosh!

The blood and bones of Earth Dog I have hunted until now are scattered on the ground.

I put both hands on the ground.

I think of the Revolver Magnum in my mind.

Coming!

「Blood Bone Alchemy!」

Pika

The blood and bones shine and something like a gun appears.

But...

That won't do.

It didn't turn out well.

What came out only resembled a gun.

A practice may be necessary after all.

Then, once more.

「Blood Bone Alchemy!」

Pika

「Blood Bone Alchemy!」

Pika

「Blood Bone Alchemy!」

Pika

「Blood Bone Alchemy!」

Pika

.....

.....

.....

.....

.....

.....

No good!

Uumu.

There's a pile of a gun like things...

Everything is imitation, huh~

A mountain of model guns.

Although the appearances are similar, it really does not function as a gun.

What was different that time?

That time, I was able to create functioning gun in one try...

I can't remember well how I did it that time.

I only know that I was desperate.

It doesn't go smoothly right now.

Though I would be most likely be able to use the maximum of my concentration if I fall in a pinch~

But, I still have a gun so all's good.

Let's move forward steadily.

Rather, I haven't appraised this gun yet.

-----  
Weapon: Revolver Magnum Special version

Description: Can load 10 bullets. Powerful shooting potential.  
-----

Hooou.

It says『Special version』, but it looks exactly the same as in my world.  
The display shows the gun as a『Weapon』.  
In that case, let's appraise the failures.

-----  
Others: Model Gun

Description: Alchemy failure. Junk. Weapon imitation. Can't be fired.  
-----

Fuu~

Appraisal-san, you are quite straight.

I would like you to be more considerate.

『It's sloppy, but there's a hope』or『Future prospect is good』or.

I think this model gun is made quite well.

Maa, let's leave it as it is for today.

My stomach is suffering because of the training.

Overdoing things is not good.

I will be also troubled if I start mass producing model guns.

This place would look like an armory or some terrorist's hiding place.

A cave with lots of guns.

I might be able to sell them if I was a merchant, but... I still didn't see a single person yet.

Even though it wouldn't be weird to meet adventurers because this is a dungeon.

There are not even footprints...

Is this place really inside of a dungeon?

Mumu!

Which reminds me.

I haven't appraised the ground after Appraisal-san raised to level three.

I should do it.

I don't have high expectations, though.

Then, please.

Appraisal-san!

-----  
Others: Wall of the Great Dungeon of Aries

Description: One of the seven great dungeons.  
-----

Uo!

Ooooo.

Appraisal-san, you have done it.

I'm sorry for underestimating you.

The name of this place has appeared.

So this place is called『Great Dungeon of Aries』.

Moreover, one of the seven great dungeons.

## Chapter 12

「Gurururururururururu」

It's noisy outside of the tree hole.  
Judging by the voice, a cry of an Earth Dog?  
Rather, I feel like the voice is getting closer each time...  
What a splendid substitute for an alarm clock.  
Tekuteku Tekuteku  
When I take my crimson gun and get out...  
As expected, three dogs were waiting outside.

「Gururururururururu」

「Ku~on, ku~on」

「Guruaaaaa」

They bark something towards me.  
Ouch.  
A waking up high-pitched voice.  
It's like a bell ringing in my head, but... A breakfast?  
I'm delighted that my breakfast came right to me.  
Although I have a lot of preserved food, the more set aside the better.  
It seems that the food doesn't rot in the tree hole.

When I point my gun towards the Earth Dogs.

「Kyan, kyan」

「Kyan, kyan」

「Kyan, kyan」

All dogs prostrate before me on the ground.  
Almost as if they were bowing before me.  
One of them takes out something strawberry-like from its mouth and put it in front of them.  
With the feeling of「Please feel free」it pushes the strawberry with its snouts.

Are?

Arererere?

No way, is this...

It's not that, right?

It seems the dogs are paying tribute to me.

They are wagging their tails furiously.

But, let's make sure first.

It may possibly be Earth Dogs' scheme.

They may have poisoned the fruit and aim to kill me with poison.

Maa, it won't be effective against my poison resistance, though.

I even have the protecting eggshell at hand.

I have a reassuring ally.  
Well then, it's your turn Appraisal-san.

-----  
Others: Earth Berry

Description: Edible fruit. Sweet with rich fragrance.

Said to be cultivated by Earth Dogs, they present this fruit as proof of loyalty to superior beings.

-----  
Yes.

I understand.

Thank you very much, Appraisal-san.

I have been paid a tribute.

It may be because I have defeated the Earth Dog leader.

Do the weak flock around the strong in demon society?

Sounds like weak meat flocking around the strong meat.

Then, let's accept it first of all.

I have enough food, I should avoid useless fighting.

I pick the「Earth Berry」the Earth Dogs presented me.

When I look at it up close, it really resembles a strawberry.

「Ku~on, ku~on」

「Ku~on, ku~on」

「Ku~on, ku~on」

The dogs urge me to quickly eat it.

I understand.

I would eat it even if you didn't sing with such painful voices.

Well then, I'm doing it.

Paku

Fumufumu.

As Appraisal said, it tastes sweet.

A fruity taste spreads in my mouth.

I like it.

「Kuon, kuon」

「Kuon, kuon」

「Kuon, kuon」

The Earth Dogs wag their tails in joy.

They lower their heads.

It seems they are glad because I seemed to like it.

「Do as you see fit」

I tell the dogs in high spirits and return to the hole for breakfast.  
Gabun Chiyu Chiyu  
I suck the Earth Dog meat with my fangs.

When I finished the breakfast and went out of the hole, one Earth Dog was still there.  
It「Waa~ Waa~」'd me while sticking out its tongue and wagging its tail.  
The dog is in a completely tamed state.  
I don't sense any ambition, just the fluffiness.

「Kuon, Kuon」

It lowers its head and moves its neck.  
It may be saying「Get on」.  
If that's the case, I will accept the offer.  
Saku  
I climb on the Earth Dog's back.

「Ku~on, ku~on」

The Earth Dog barks joyfully.  
The ride is really comfortable.

「Kuon, kuon」

Yusayusa Yusayusa  
The dog shakes its head and asks inquiries me for the destination.

Let's see~  
What to do?  
Uumu.  
Let's run through this are first.  
Because I'm just a Baby Vampire, I don't know my surroundings.  
I'm ignorant of the geography.

Kuikui Kuikui  
I draw a circle with my finger to instruct the dog.  
I wonder if the meaning「Circle around the area」will transmit...

「Wan, wan」

It seems to have understood.  
Rather, this is the first time it barked『Wanwan』.  
Did it get genuinely attached?

「Waooo~n!」

The dog barks and starts running.  
Sasa Sasa Sasa Sasa  
It runs around the dungeon.  
The view of the surroundings slowly spreads around me.  
The breeze hitting my skin is comfortable.  
It's more comfortable than walking by myself.

Sasa Sasa Sasa Sasa  
The scenery is similar no matter where I look.  
The trees and plants show here and there, the meadow continues.  
The most standing out are the red flowers, Nirvana Flowers.

Ah.  
That reminds me...  
The Elf Jiisan in the Anima Temple said something about this.  
If I'm not mistaken... Was it『If you want to meet, go where the red flowers bloom』?  
Then, let's have a look.

Patpat Poi  
I pat the dog's head and stretch my finger to indicate the direction.

「Wooo~n」

It seems we have a good mutual understanding or something, the dog starts running to the direction I pointed at.  
Sasa Sasa Sasa Sasa  
To the direction where the red flowers bloom.  
The wind is comfortable.

{} (´•\_•` ) {}

## Chapter 13

Arrival!

There's a house at the end of the Nirvana Flower field.

That's probably Elf Jiisan's house.

I'm somewhat excited to see a house after so long.

I dismount the Earth Dog.

「Wan wan」

「Yosh yosh」

When I pat the Earth Dog's head, it wags its tail and waits for orders.

Because the door is human-sized, he won't be able to go in.

I raise my finger and tell him the instructions.

「Listen, Earth Dog. Wait here. If you have a business to take care of, you can return」

「Wan, wan」

Yosh!

I think it understood.

Ton ton

I knock at the door.

However, there was no answer.

「Excuse me, is someone home? I was told by the Elf Ojiisan to come, but...」

Silence.

There's no reply.

It may be not this house.

Gacha

When I unintentionally touched the doorknob... the door opened.

It opened...

Then, I will let myself in?

Because I was invited after all.

I go through the door and enter inside.

I appear to have entered a reception room after going through a small corridor.

It's full of high-class furniture.

「Excuse me, is anyone here?」

Silence.

There was no answer again.

Bon doka!

Mumu?

I heard an explosion from the next room.

Mofumofu

Did something happen? There's a smoke coming out of the room.

「Goho, goho」

The door opens and one Elf Jiisan appears.

Ah.

It's the elf from Anima Temple.

「Ojiisan, it's has been a while」

「Oh」

Ojiisan dumbfoundedly looks at me.

His eyes are popping.

「Who are you *ja*?」

Eh?

Are?

Arere?

Does he not remember me?

And I thought we could have a normal conversation...

「You know, we met at the Anima Temple the other day」

「Aah~ that place?」

Fumufumu the Elf Ojiisan nods.

Nn?

Are?

Did I perhaps meet a troublesome guy?

No, that's wrong.

Because we definitely met before.

「Excuse me?」

「I understand *ja*. Me in the Anima Temple is just an illusion magic *ja*. It's something like a messenger *da na*. In order to send people who went there to this house *no*」

Houhou.

So that's why he disappeared like a fog.

One mystery solved.

「But you, if you have entered the Anima Temple... a reincarnated person?」

What to do?

I don't have concrete memory, so I don't know...

I am somewhat knowledgeable about Japan and I somewhat understand that this is a different world.

「Probably... I think that's the case」

「I see, I see. I'm El *ja*. Although I'm El Jii I'm also a sage. Many people call me that. But you, how strange *ja nou*... you don't appear to be a human, but...」

「I appear to be a Baby Vampire」

「Ho~u, a non-human. I'm an elf *nou*. What is your name *no ja*?」

A name...

Come to think of it, I can't remember anything.

I did not pay attention to this until now.

I unconsciously avoided it.

Only when El Jiisan asked me about my name I notice that I don't know even my name.

A name, huh...

I wonder what my name is...

「Seeing you like that, it appears that you don't know your name. It's okay, it's okay. Sometimes, it's a good thing to stop worrying about certain things. However, it would be better to make at least a temporary name, for now, *zo*」

That's right.

Let's think positively.

Even if I remember, it's not like anything would change.

Then, what should I name myself...

My name...

My name is...

At that moment.

I incidentally remember one surname.

『Tokugawa』

It suddenly appeared in my mind.

It may even be my real name.

「Then, Tokugawa」

「I understand *no ja*. Tokukawa-san *ja na*」

Elf Jiisan says few words.

Not Tokukawa, but TOKUGAWA similar to that shogun Tokugawa.

It may be unusual name even in Japan.

「However, you. By your appearances, your level must be low. You did good to survive here until now... The 50th floor of the Great Dungeon of Aries is a place one will not survive easily...」

Nn?  
The 50th floor?  
Elf Jiisan just said it so casually...  
Seriously? The 50th floor?  
Eeeeeeh!  
Eeeeeeeeh!  
Hey, oi.  
No way...  
It was so deep.  
I was certain it was the 10th floor or something.

「What's wrong? You look surprised *ja*」  
「No, that... to think it's the 50th floor... you see, I was born on this floor」

「Hoho~u. That is something unusual. It's rare to be born in a dungeon and even if you do it's not a place newborn can survive. You either must have been exceptionally lucky or your abilities must be...」

「Nono, it's nothing much. The enemies around me weren't that strong, their levels were also low」

「Nu, level is... you are in a possession of 『Appraisal』, huh... right, right, you are reincarnated after all. Enemies being weak may be my fault *no ja*. Because they monsters were a hindrance to my research I hunted quite a lot *no yo*. Also, because I cultivate the Nirvana Flowers a lot of monsters have moved away *nou*」

There was a reason after all.  
I thought that those dogs were too weak for the 50th floor.

「Which means, the normal enemies are much stronger?」  
「Let's see *ja no*... The only monsters left on this floor are young ones or those who can survive among the Nirvana Flowers」

「Specifically, how strong are they? Monsters of the 50th floor?」  
「It would be impossible for a high-grade adventurer to fight monsters of the 50th on his own *ja nou*. Because it won't always be a one against one. An intermediate level party would be required. In the first place, it's dangerous for humans to stay in the dungeon for an extended amount of time because of the Demon Element, so they can stay only for a limited amount of time. The deeper you go the stronger the Demon Element and the monsters are after all」

Fumufumu.  
Sounds dangerous.  
I don't know the ability of the adventurers, but they will most likely be difficult to deal with.

「Oops. You have just been born, so you don't understand the strength of adventurers. An advanced level adventurer is on the level of ten thousand normal people. Most people are at an intermediate level... they are reasonably strong. Of course, the best would be to experience their strength yourself」

「On what level would Earth Dog leader be?」

「That dog, huh? That fellow... let's see *nou*... at the top of elementary level adventurer *kanou*?...」

That stupidly huge rhino-sized dog is just that?

That means... the strength of other monsters... is unreasonable!

Fuu~

I'm glad I wasn't born on a different floor.

I, I would probably die.

I'm really glad that I was born here.

「That dog was an elementary level, huh...」

「Nu, perhaps, you? Did you defeat the dog leader?」

Elf Jiisan seemed to guess my answer.

「Maa... yes. Promptly」

「W, what really?」

「Ah, yes. But, it was elementary level so it's only natural, isn't it?」

「What are you saying *ja*. You, who was just born as Baby Vampire, that is a splendid achievement! It's not an opponent that can be easily defeated. Even elementary adventurers with items and weapons wouldn't be able to easily defeat it. Gufufufu. I'm looking forward to your future prospects *ja nou*. As expected *ja*」

「Nono, it was nothing」

「Wait. I have a suitable gift for you no *ja*. Wait a minute *no ja zo*」

Dada

Elf Jiisan runs out of the room.

He leaves me behind.

Are?

What's wrong, El Jiisan?

He looked very cheerful.

A hustling Jiisan.

{} (´•\_•`) {}

## Chapter 14

Batabata

El Jiisan returns after several seconds.

He has a book in one hand.

And a small cloth bag in the other.

「This is?」

I point at the book.

「Monster picture book *ja*. It can automatically record every monster you encounter. I want you to record all monsters around the world by all means. This was always my dream. To become a monster master. I can't leave this floor, please complete it by all means in my stead」

Eh.

Ojiisan, what did you just say?

You just said something so terrible so casually.

「El Jii, you can't leave this floor?」

「I cannot physically leave because of various reasons. It's something like a seal」

「I, is that so」

「Also, this is bag is an item box. Everything up to a certain extent can be stored inside and the capacity is also excellent」

Hey, this.

Isn't this super convenient item?

It caaaaaame!

Yosshaaaaaa!

I thought it looked like an item box, but...

To think it was the real thing.

I think it's the most useful thing after Appraisal.

Un un.

Thank you El Jii.

I was worried about a storage for meat, blood, and bones.

「Thank you very much」

「It's okay *ja*. I still have more than enough left. Because I am researching monsters in this house, I would like you to show me the picture book regularly. It will surely be useful for my research, I will definitely reward you *no ja*」

「I understand」

I attach the item box to my waist and put the monster picture book inside.

Four-dimensional pockets are sure great.

「It's because I feel a lot of talent in you *ja*. My blood is boiling after so long no *ja*. That guy... you remind me of the former hero」

???

Hero?

This world also has heroes?

If that's the case, the Maou...

It's becoming more and more like a game.

「El Jiisan, you were hero's acquaintance?」

「That's right. Even though I say hero, it's a hero of the previous generation *ja ga nou*. We were traveling together *ja*. I was a sage *ja*. That times' Maou was powerful...」

El Jiisan recollects something while nodding his head.

It seems he was a member of hero's party.

Nonono.

El Jiisan looks really lighthearted, was that really okay?

I have a feeling that he possesses a lot of influence in this world, though.

But, I can understand now.

This explains how he is able to live in this dungeon.

A regular person wouldn't be able to drive away monsters of the 50th floor.

Ah.

Right, right.

I must ask the important thing.

I have to ask if there is a way to move around the dungeon so I can level up.

「Are there some Transfer Stones or Gate that would allow me to move between the floors? From your talk, the monsters on the next floor should be strong... I would like to find enemies of just the right strength, but」

「Transfer Stones are not usable in the dungeon *ja*. There was a Transfer Gate on this floor, but... I have ended up destroying it *nou*. The closest one should be on the 40th floor. But, I don't know whether it's still functioning or not. If it's broken then try, 30th, 20th, 15th, 10th. There also should be gates on all single digits floors」

There were here after all, Transfer Gates.

But, why did El Jiisan break it...

Really, why?

「40th floor, huh...」

Descending ten floors seem somewhat difficult.

According to El Jiisan's talk, the monsters there should be quite strong.

「Nu, if I'm not mistaken there should also be one on the 60th floor. No, that may be broken... Creating a Transfer Gate is hard, but maintaining it is even harder *nou*. It's necessary to protect it from the monsters and constantly supplying it with magic no *ja*」

Hohou.

So that's why there are only so few of them.

Because the number of advanced levels adventurers is few, they have to station people in order to protect it.

However, the gate on the 60th floor looks unreasonable, so the target is the gate on the 40th floor.

The higher the floor number the stronger the monsters would be.

「However, it's okay *ja*, if it's you, you will be fine *ja*. You will be fine if you raise your level steadily *no ja*. Because I have also become strong steadily」

「I, is that so?」

「It's alright. I will thoroughly prepare you *no ja*. Rest assured. I was called Sage-sama in the old days, many people wanted to become my disciples *nou*」

O, ouu.

To think El Jii would approach me first.

Did, I just become a sage's disciple?

In fact, I felt that my abilities are not enough so I was going to request El Jii to let me become his disciple.

I have nothing against a Sage of the former hero party becoming my master.

「I will be in your care」

「Leave it to me *no ja*. You will surely become a first-class magician. Let's have fun. Fufufu」

I, Vampire-san have become a Sage's disciple.

{} (´•\_•`) {}

## Chapter 15

「Where have you been living until now *no ja*?」

「In the tree holes」

「Hohou. Weren't you leading a practitioner-like life. I also lived in the tree holes long time ago」

That's because you are an elf... is what I thought.

I will pass on the *tsukkomi*.

Because I just got a master with much effort.

「Then, you should stay with me. There are rooms available *nou*. This house is uselessly spacious *ja*」

「Yes. I will be bothering you」

「Since you have become my disciple, there's no need to be so reserved. Use my house as if it was your *no ja*. I usually am locked up in the laboratory anyway *nou*. That reminds me, have you eaten something?」

「I had an Earth Dog and Nirvana Flower」

「Nirvana drinker, huh... I'm the same *ja*. I got addicted when I first ate it in order to gain the Poison Resistance *nou*. To that sweetness」

「Certainly, that fruity taste」

「Right, that's right. I'm growing vegetables here so there's no need to worry about food *ja*. I have no Earth Dog meat, though, I'm eating Cypher *na*」

Cypher?

What is that? A monster or something?

Judging from the name, rhino-like fellows?

「El Jiisan, what is this Cypher?」

「Slightly stronger version of Earth Dog. Since you defeated a leader, you should be able to hunt them on your own soon *ja*」

Houu.

Then, let's make the target of my hunting the Cypher for the time being?

「You can use the prepared guest room. It's the door with number 3. I'm quite drowsy today, so let's start the practice tomorrow. Well then」

El Jissan leaves the room.

Now then, now then.

Since it has been decided that I will move in here, I need to fetch my belongings from the tree hole.

Although it's just bones, meat and Earth Berry.

In other words, only food and bones.

Ah.

There also was the mountain of model guns.

When I leave El Jiisan's house in order to fetch my belongings, I remember something. Which reminds me... I haven't appraised El Jissan's house yet.

-----  
Others: Sage's hiding place  
Description: Former hero party member lives here.  
-----

O, ouu.  
Appraisal-san.  
You did it.  
You gave me personal information.  
Is this something like a nameplate?

「Wanwan」

Oh.  
Earth Dog with wagging tail is waiting outside.  
Pikoon!  
A sound comes from the item box.  
I take out the source of the sound, it's the Monster picture book.  
It's full of pure white pages, but...  
It seems that『Earth Dog's』entry has been added.  
Houhou.

So he meant this by the automatic recording.

「Wanwan」  
「Wait, wait」

Sa  
I mount the Earth Dog.

「Take me to my house. Go home」  
「Wanwan」

The dog starts running.

We arrive at my home, I enter the tree hole, and put the meat and bones into the item box.  
It seems that I'm far from exceeding its capacity even after putting quite a lot inside.

Poi Poi Poi

Putting the items inside became somewhat enjoyable.

Poi Poi Poi

I put in one after another.

Poi Poi Poi

I continue filling the item box.

Yosh!

Storing completed.

There's still a lot of unused space in the item box.

This is amazing.

This item.

「Wanwan」

Oh.

The Earth Dogs is calling me.

I have gotten quite attached to it, but I need to mark it somehow to distinguish it from the other dogs...

Right!

Let's practice then.

I take out bones and meat from the item box.

I extract blood from the meat with my fangs.

I touch the blood and bones with my hands.

I imagine a certain something in my mind.

「Blood Bone Alchemy!」

Powan

What appeared in front of me is... a collar.

I attach it to the dog.

With this, it will be much easier to distinguish.

「Wanwan」

Oou.

The dog seems pleased.

Right~

I have attached a collar, maybe I should name it.

Because it's Earth Dog...

Would Ado be alright?<sup>1</sup>

「Ado! From today, your name will be Ado」

「Wanwan Wanwan」

It looks like it understands.

Ado seems to be pleased.

Ado's intelligence may be quite high.

Then, let's return to El Jiisan's house.

Sa

I get on Ado's back and we set off.

Sa Sa Sa Sa

The breeze feels nice.

[[ (´◡` ) ]]

## Chapter 16

We have arrived at the sage's house.  
But, because Ado didn't leave before, I think of a certain thing.  
I take out a lot of bones and extract blood from the meat with my fangs.  
I touch the blood and bones with my hands.  
I think of a small, but cozy house.

「Blood Bone Alchemy!」

Powan

A doghouse with a red roof is created.  
Because of Earth Dog's size, it's considerably big.  
Rather than a doghouse, it may be better to say a garage.

「Ado, you can live in there」

「Wanwan Wanwan」

「Yoosh, yosh. I will go inside the house and sleep. Ado should also rest」

「Wanwan Wanwan」

I enter the sage's house and enter a room number 3.  
It's a simple room with a table and a bed.  
But, because I have so far slept only inside tree holes, the bed looks irresistible.  
It has a presence of an Angel.  
Dodo Bafu  
I jump into the bed and almost loose it at the melting, soft feeling.  
So comfortable~  
The futon is meltingly soft.  
Fuyafuyaya~  
I wrap myself in the gentleness.

zzzzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzzzz

Oh.

I seem to have fallen asleep.

When I leave the room and enter the living room, I find a meat and a letter on a desk.

『There's extra food in the storage room if this isn't enough for you. Practice will start at noon』

It seems to be a breakfast.

Well then, itadakimasu.

Gabun Chiyu Chiyu

I pierce the meat with my fangs and eat.

Fumufumu.

It tastes differently from Earth Dog meat.

It's probably Cypher's meat, the taste of this is stronger.

Fuu~

I'm full, I'm full.

There seems to still be some time after looking at a clock.

tte, oioi.

I saw a clock after so long.

So this world has it. A clock.

24 numbers same as in Japan.

Well then~

I should probably go outside and train the Blood Bone Alchemy until the noon.

I am aiming to steadily level up in order to exceed the model gun.

「Blood Bone Alchemy」

Powan

Failure.

Fuu~

That was a good practice!

I have produced a lot of model guns.

With this much in stock, I could become an arms dealer.

Although everything is just a model gun...

Anyway, I put everything inside the item box.

It may be useful in the future.

After that, I had a lunch.

It's finally the sage's training.

「Let's start your training」

「Yes, El Jiisan」

「Umu. Good reply. Well then, let's measure your magic first. Since if you have no magic, you won't be able to use magic *nou*」

Magic, huh...

Is there some in me?

I'm not sure because Appraisal-san won't tell me.

「I will measure it roughly, there's no need to worry *ja*. Since you are a vampire, you should possess a certain amount of magic since birth *ja rou*. Well then, put your hand on this crystal ball *ja*. If you have magic, it will start shining *na*」

「Yes」

Pote

Put my hand on the crystal ball, huh?

The brightness keeps increasing...

Bacha

It broke...

Ano... eh.

The crystal ball has broken, but...

Is it safe? This thing?

El Jii is staring absentmindedly with his mouth open wide.

「W, what a thing *ja*. To think something like this would happen... it may be higher than average. Wait a second. We will try it out at once with a new crystal ball *ja*」

El Jiisan takes out a new crystal ball from his item box.

「Then, you, again」

「Yes」

Pote

When I place my hand on the crystal ball...

Bacha

It broke again...

I hope it's not expensive, this crystal ball.

「This is amazing. To think your magic talent would be to this extent... What an unexpected power. Just what is the extent of your talent?」

「I, is that so nodesu ka?」

El Jiisan gets excited.

Jiisan is full of life.

Jiisan takes a scale-like item from his item box.

「This item can digitalize magic talent. The greater the numerical value, the greater the magic. It can display magic from 1~999 which is really great. Little children who long to enter the royal magic school must get past this」

El Jiisan urges me「Come, come」with expectations in his eyes.

He seems to have great expectations, but...

I pray for the machine to not get broken.

「Should I put my hand on this?」

「Right, the same way like the crystal ball」

Pote

When I place my hand.

『999』

Mishimishi Mishimishi

The needle shakes at『999』.

Boki Bashu Suton

Ah.

The needle got blown away and got stuck in a wall.

「Nu, nununununununu..... You... seem out of the standard norms. I understand *no ja*. I understand. I understand. I clearly understand your talent. An existence with such talent could definitely become a Demon king in the future. Nunununununununu.....」

「Nunununu」While El Jiisan was groaning, I thought to myself.

Nonono.

Please excuse me from becoming Demon king.

I want to live my life peacefully nodesu.

{} (´・ω・`) {}

## Chapter 17

「Well then, let's start the magic unleashing training ja. If you can't unleash the magic there would be no meaning to your talent nou」

「Yes」

「First, you must memorize the feeling of magic circulation ja. I will pour magic into your body, do your best to memorize that feeling no ja. Here I go」

「Yes」

El Jii puts his finger on my forehead.  
Thereupon, I feel a something like a warm liquid flowing through my body.  
It's similar to a circulation of blood, but... slightly different.

I concentrate and memorize that feeling.  
I trace the stream of warm liquid inside my body.  
I'm convinced that it's operated like a water.

The flow suddenly stops.  
El Jiisan withdrew his finger.

「That's it, that feeling was the circulation of magic. It may feel unpleasant at the beginning, but you will get used to it in no time jarou. If not, you won't be able to use magic nou. I will do it once more」

「Yes」

El Jiisan pours a warm water inside my body.  
But, a magma-like substance within me opposes it.  
It forces El Jissan's water back.

「W, what... this magic!」

When El Jiisan withdraws his finger, the interior of my body calms down.  
Jiisan quivers while clattering with his teeth.  
His long beard sways.

「What's wrong?」

「No... inside you... there's something strange... You, did you really not used magic until now?」

「Yes, I have just been born」

「I see... it may be just my imagination... That was the feeling of magic, you must remember that feeling in order to use magic. That is the first step ja」

I slowly recall the feeling from a little while ago and try to circulate the water inside my body.

Ummm.

If I'm not mistaken, circulate the warm water like this...

Through this circuit...  
Go to this place...  
Turn that way...  
The water's temperature about this much...

When I control the water inside my body.

【Fixed proficiency of a skill reached. Skill『Magic Control Lv1』acquired】

Oh.  
Niceeee.  
Progress!

「Nu, wh, what you...」

El Jiisan exclaims in surprise.

「What's wrong?」  
「Why are you asking, didn't you just unleash magic no ja...」

「Eh. It wasn't such practice...? I have just traced the feeling from a little while though」

「That is amazing no ja. A normal fellow wouldn't be able to do that. Magic Control is hard no ja. A delicacy and precision similar to threading a needle is needed ja zo. It took nearly a week for a genius like myself to do it no ja. It's normal to not be able to do it even after a month. To do it in only in several seconds... a genius!」

I circulate the magic while listening to the surprised El Jii.  
Circulating the warm water feels nice.  
My body is warming up.

「Y, you are... a monster」

El Jiisan is frozen stiff.  
Oh.  
He started moving.

「Wonferful nou. I got goose bumps ja. However, be careful no ja.  
Since you have learned Magic Control, be careful to not get drunk from magic nou.  
Training steadily is the most important ja. It would be better to just get used to magic today」  
「I understand」

「Umu, work hard no ja」

El Jiisan leaves.  
I continue circulating magic, the warm water around my body.  
I circulate it in circles.  
This is magic...

It's so mysterious.  
It seems to be circulating in a different circuit than blood.

I sit on a fallen tree in grassland for the sake of relaxing and continue earnestly circulating the magic in my body.

The warmth is pleasant.  
I want to indulge myself in this feeling forever.  
I think that's only natural.

「Ku~on, ku~on」  
The Earth Dog Ado is coming.  
It may have been attracted by the magic.  
It licks my face while I earnestly practice.  
I'm training magic nodesu.  
This is Sparta desu.

I rotate the magic around my body.  
But....  
Mumu.  
My body is somewhat creaking.  
I have a burning headache.  
A stinging pain.

T, this is bad..  
It seems that instead of a warm water, a magma is circulating around my body.  
Let's stop.  
More than this may be dangerous.  
But, at that moment.  
The magic suddenly swelled up.  
Ah.  
Putsun.  
I heard a sound of something being snapped and lost consciousness.

「Wanwan Wanwan」  
Peropero  
Mumu.  
It seems that I have suddenly lost consciousness.  
Ado is licking my face.  
It's wagging its tail anxiously.  
I'm alright, I pat its head.

Ah, pain!  
Uun.  
My entire body is sore.  
I may have used way too much magic.  
But, I want to quickly circulate the magic again so I don't lose that feeling.  
I should do it again.  
An imagine of water circulating inside me floats in my mind.  
I open the waterway and pour magic in.  
I circulate the magic while paying attention to the water's temperature.

Gaga  
The water temperature increased halfway in after all.  
The temperature gradually rises while I circulate the magic.  
And when the temperature rises, the pain also increases.  
Bad...  
Dangerous...  
....  
Ah.  
Putsun.  
I have lost consciousness.

「Wanwan Wanwan」  
Peropero  
I seem to have fainted again.  
My whole body creaks from pain.  
Experiencing with my own magic circuit may not have been a good idea.  
If that's the case...  
I retrieve a bone from my item box.  
I pour the magic inside the bone say the way I pour it inside my body.

Oo.  
I feel something.  
As expected, bones may be magic's circuits.  
I'm able to sense the route the magic is spreading.

Poki  
Ah.  
It broke.  
I may have poured more than the bone can tolerate.  
It may have broken because of that.  
Let's be more careful next time.

I will pour magic inside the bone while observing it's maximum tolerance.

I retrieve a bone from the item box again and pour magic inside.

Yosh.

Good condition.

I pour magic in the circuit, it makes a path,

Then I slowly circulate it through the entire bone.

Carefully, not letting the magic overflow.

Slowly and carefully.

I carefully pour magic inside the circuits.

Poki

Ah.

It broke again.

This is quite difficult.

But, it's intriguing.

I understand that it gradually get's smoother and smoother, I will definitely succeed.

I take out another bone from the item box and continue pouring my magic power inside.

~~~~~

El Jiisan is looking outside from the house.

He is observing the baby vampire Tokugawa-san.

He carefully observes him who showed an extraordinary talent in magic.

(That guy... he really is magnificent. This is my first time seeing someone with such magic talent. He's even above me, who is considered a genius among elves. A talent is a terrific thing...)

(Besides... the strong magic I felt inside his body. Just what... was that? I felt threatened just by touching it. Who would have thought. That I would get goose bumps at this age...)

Right now, El Jiisan is watching Tokugawa-san pull out a bone from his item box.

He starts concentrating at the bone in his hand.

(Mu. Perhaps that fello... He can pour magic into the material? Magic is controlled within one's body. Unleashing magic is a considerably difficult thing to do. There are many who can't pour magic into materials)

The bone in Tokugawa's hand breaks.

(W, what... he broke the bone on the first try. Just how much magic did he pour in it? Average people won't be able to destroy materials while pouring magic in. That was a splendid magic attack)

After El Jiisan trembles in surprise, Tokugawa-san pulls out another bone.

(How fierce nou. The purity of his magic that can destroy material so easily. The quantity that causes him to break bones and faint many times. His potential is horrific... I must guide him properly... if not, a calamity may fall on this world. Tremendous magic is not necessarily a good thing nou)

El Jiisan strokes his beard and thinks.

What should he do for Tokugawa-san's future?

How should he guide that enormous talent?

## Chapter 18

Poki

Poki

Poki

Poki

I pour the magic, the bone breaks.  
I can't control my magic well.  
Something like shaking comes soon, which causes me to pour too much magic.  
The magic circuit itself may be fragile because it is just a bone after all.

Fuu~

It may be better to take a rest for a while.  
I'm able to only pour the magic.  
The problem is the uncontrollable quantity.  
I have to somehow stabilize the magic.

I may get used to it after repeating it many times.  
Isn't there a better way~?

Uun.

Fuun.

Uun.

Ah.

That's right!

What about that method?

Gabu

I pierce the bone with my fangs.  
I pour in the magic with my right hand while biting the bone with my fangs.  
I hope that this will allow me to hold the magic down, but...  
It came, the wave!  
I suck the overflowing magic with my fangs.  
Chiyu Chiyu  
Oouu.  
The bone didn't break.  
I'm pouring in a suitable amount of magic.  
I may be able to continue like this.

I continue pouring the magic for a while.  
Sometimes, a big wave of magic comes, but I suck that with my fangs.  
Because the magic returns back to my body, it's not being wasted.  
Because I have experienced the wave many times now, I'm able to get down the timing.  
I'm able to regulate the amount of magic in advance.

Like this.

Uun.

Nono, it's different.

Like this?

Yosh!

I did it!

I became able to pour magic into the bone even without sucking with my fangs.

The control of the magic wave is important.

I'm able to pour the stable amount of magic after grasping the wave's timing.

【Fixed proficiency of a skill reached.『Magic Control Lv1』has become『Magic Control Lv2』】

Mumu.

Level up.

It seems that the magic wave was the obstruction.

Let's end for today.

Since I have leveled up.

I'm tired as expected.

I want to get to the bed soon.

My energy is dried to the bones.

I quickly move and collapse on the bed.

Batan Mofu

I sink and melt inside the angelic bed.

The next day.

「Hello, Tokugawa desu. I'm a Baby Vampire, by the way」

「Wan...?」

I introduce myself to Ado.

Ado has a puzzled expression.

It's scratching its head with its forefoot...

Is it itchy?

Uun.

It doesn't sound right for some reason.

Why is it?

I may not be Tokugawa.

Although when El Jiisan asked about my name, I had the feeling『I'm Tokugawa!』.

Maa, putting that aside.  
Now then, now then.  
Let's pull myself together and start the Magic Control training.

The magic went well while hitting the bone.  
Because of that, I was able to learn the control method of the wave quite well.  
Let's try something bigger next.

Something at hand...

「Wan...?」

I meet Ado's eyes.  
Practice for pouring magic inside living things...  
There's a magic circuit inside the ribs.  
Are the magic circuits different in my body?

「Kyan, kyan」

Ado stares at me nervously.  
It's okay, Ado.  
I won't experiment on you.  
An inanimate object is first.  
I want to practice on a big one.

Then...  
Right.  
Let's try it on the fallen tree over there.  
A lot of time has probably passed since it has fallen, so there most likely won't be any magic left in it.

Tekuteku Tekuteku  
I grab the fallen tree with both of my hands and grab, I bite it with my fangs.  
I'm like an insect sucking a nectar.

Well then, magic unleash.  
I can tell that a warm water is flowing inside the fallen tree.  
As I thought.  
The fallen tree seems to be dried out so the magic is pouring down the circuits.  
I confirm the magic circulation while pouring.  
I continue pouring my magic, gradually filling the fallen tree up.  
I circulate the magic in the same circuit again to stabilize it.  
Oh.  
The magic wave suddenly came.  
The timing is different from the bone.  
The waves may be different in each and every thing.

## Chapter 19

After we to the river, Ado starts bathing.

Bashabasha

The water splashes my way.

He's comfortably playing in high spirits.

The water transparent, dazzling water reaches up to my knees.

To think there would be a river in a dungeon...

Is this groundwater?

I finally after a long time, rather I'm bathing for the first time since being born.

I feel like my heart is being washed.

I don't get much dirty because I'm a Vampire, but the cold water feels nice.

However, I thought incidentally.

Is this water drinkable?

It may not be a problem for me who have a『Poison Resistance』and『Food Poisoning Resistance』, but...

It's that person's turn.

Appraisal-san, if I could trouble you.

-----  
Others: River

Description: Lovely clear stream. High purity. Drinkable.  
-----

Apparently, it's drinkable.

Well then, I scoop water with my hand.

Gokuri

Kuuuuuu~

A cold water goes through my throat.

A deliciousness different from Nirvana Flower's juice.

Water is delicious after all.

There's no sweetness, but it's refreshing.

Being called the source of life is not just for show.

「Wanwan」

Basha Pechipechi Pechipechi

Oh.

When Ado bashed the water surface, a fish jumped out.

Nice going, Ado.

It seems proud for catching the fish.

Fish catching master, Ado.

A dog? that uses his paws in the same manner bears do.

While basking in the sun...  
Ado brings another fish.  
Kuikui  
「Thank you」  
「Wanwan」  
I receive the fish and observe it.  
A normal river fish-like feeling, huh.  
Although I am not knowledgeable enough to classify it.  
Because I only saw raw fish in supermarkets. Probably.  
Well then, I would like to ask you again.  
Appraisal-san.

-----  
Classification: Ayuyu

Description: Fish inhabiting rivers. Edible fish. Matches well with algae.  
Brought up in the lakes and seas, goes up the river after getting big.  
Adult fish can grow up to 30cm. Popular grilled with salt.  
-----

This is... a sweetfish.

It is well-known on Japanese dining tables.

Jururi

Kuuuuu~

I got hungry just from appraisal's words.

I assume that there's a salt in this world since it's popular grilled?

Since this is the 50th floor, we are most likely underground.

If this world is similar in structure to Japan.

The water should move in this cycle『Rain→Groundwater・River→Sea→Rain』.

Which means that the salt which was originally on the surface got dissolved in the water...

There may still be salt in this groundwater.

I may be able to make salt if I bring some water home with me...

Yosh!

Let's give it a try.

If I'm not mistaken, there should be a container fixed in the item box I have received from El Jiisan.

Oh.

There it is.

Chapun Chapon

I collect water in the container.

I take as much water as possible.

Not feeling the weight of the item box is seriously convenient.

Now then, now then.

I bathed and also got some fish.

We should return back.

「Ado, let's go」

「Wanwan」

Kuikui

I climb on Ado who lowered its head and we return home.

When I return back home and ask El Jii about the salt,

「Salt? Salt is a luxury ingredient ja *kara* nou... it's not easy to get ja *ro*」

I'm glad I have confirmed the existence of the salt for the time being.

However, a luxury ingredient...

Why is that so?

「El Jiisan, why is it a luxury ingredient?」

「There are not much rock salt mines ja. Rock salts are usually swarmed with strong monsters nou. It takes too much expenses to overtake *no ja*」

Are? Why don't they produce salt from the seas?

I have heard that they evaporating the sea water, though.

「There's a method to get salt differently. Are you not getting salt from the seawater nodesu?」

「We are doing that, but the amount obtained is minuscule ja. And above all, the seawater salt is bad. It's not popular」

Ho~u.

This world's salt may not be that different from Japan's.

「I have fetched water from the nearby river and I'd like to evaporate it, but.

Is there a way to get fire?」

「The river's water... which reminds me that I have never tried to evaporate it. You have thought of something interesting ja nou... However, I'm able to use fire magic nou. Magic tools... don't suit me」

El Jiisan searches through his item box.

「Oh, this ja, this. Bracelet of Flames. Anyone with magic can use this to start a bonfire ja. You can use this. You will somewhat understand how to use it after putting it on your arm ja *rou*」

「Thank you very much」

I receive the bracelet and go outside the house.

I have borrowed a container from El Jiisan.  
I pour the river water inside the container and remove the dirt.  
A clean water filtered several times.

Next, I put the container full of river water on a netting and put dry wood underneath.  
When I put the bracelet on my right hand.

Oh.  
An image on how to use the bracelet floats inside my mind.  
When I extend my right hand towards the dry wood and pour magic inside,  
Bowa  
A flame came out.  
Mishimishi  
The dry wood caught on fire.  
I and Ado watch attentively.

Soon, the water starts turning muddy, but that's not the salt so I leave it alone.  
I filter the salt at the bottom of the container again.  
After putting it back in the container again, it completely crystallizes.  
Yes!  
It's done!  
Salt desu.

I put a finger in after it cools down and taste it.  
Mumu!  
Salty.  
But, it's sweet for some reason, this salt.  
Absurdly delicious.  
It may be different from ordinary salt.  
In such times, that person appears.  
You expert opinion please, Appraisal-san.

Others: Aries' Salt

A rare fusion of sweetness and saltiness. A high-class article only for people in the known.

-----  
W, what you said...  
I feel like I have made something great, but.  
Location unknown...  
I have made it from the river water on the 50th floor, though.  
Won't I make mad profits if I sell this outside?

No, no.  
My eyes almost turned into dollars.  
I was in the middle of cooking.  
Well, I was able to make the salt, let's start grilling the Ayuyu now.

## Chapter 20

First, the processing.

I use the cooking set I borrowed from El Jiisan.

I place the Ayuyu on the chopping board, remove the scales with the knife and wash the slimy stuff off with water.

I open its stomach with the kitchen knife and remove the internal organs.

I rinse it with water again and remove the blood.

Fuu~

This is the appearance of the『Aries' Salt』.

I sprinkle both sides of the Ayuyu with salt.

Okay! On the netting.

Juwa~ Pachipachipachi

I wait until the oil starts jumping on the grill net.

Even a white smoke starts coming out.

Patapatapata Patapatapata

I fan the Ayuyu with a big leaf I've picked up.

「Wanwan」

Oh.

Ado watches the Ayuyu greedily.

I heard a gulping sound.

「Wait, Ado. Don't snatch the Ayuyu without warning」

「Wanwan」

Juwa~ Pachipachipachi

A pleasant smell drifts from the grill.

I can't get enough of that delicious fragrance.

Jururi

I swallow my drool unconsciously.

But, wait, wait.

I must not get impatient.

I must grill it from the other side.

Juwa~ Pachipachipachi

Oil flies out of the Ayuyu.

Patapatapata Patapatapata

I fan the grill with a leaf.

Juwa~ Juwa~ Pachipachi

Yosh!

Completion!

「Wanwan」

I remove the Ayuyu from the grill net.

When I sprinkle it with salt again, I got a pachipachi response.

Crap!

This fragrant scent is too much.  
I want to sink my teeth in it right away.  
I swallow my saliva.  
I grasp the chopsticks.  
Coming!

「Itadakimasu」  
「Wanwan」

I peel the Ayuyu's skin and eat.  
Paku  
「Delicious」  
This is impossibly delicious.  
This is dangerous.  
The inside of my mouth is melting.  
To think a grilled fish would be this good.  
Ayuyu's rich taste enhanced by Aries' Salt's sweetness and saltiness.  
Fused together in the oil.

「Wanwan Wanwan」  
Kuikui  
Ado rubs its head on me with sparkling eyes.  
「Alright, alright. I will also give you」  
I give Ado half of the Ayuyu.  
Paku Mushamusha  
「Kyuiiiiiiiin」  
Ado lets out a strange noise.  
It may be that delicious.  
Its tail sways vigorously.

「Oh, what, what! I smell something good. What are you eating *ja*?」  
It seems that El Jiisan was brought here by the scent.

「It's grilled Ayuyu. I have used Aries' Salt which I produced by evaporating the river water」  
「Hohou. That's quite... Gulp」  
「There's also El Jiisan's share」  
「R, really!」  
El Jiisan jumps in.

「Yes. Over here」  
I hand one over.

「Hoho~u. It looks delicious *nou*. Eating something else than Cypher meat and Nirvana Flower might be good」  
「It's hot so be careful」  
「Well then, itadakunoja」  
Paku

「H, how... melting... delicious」

Paku Paku Paku

El Jiisan eats with an amazing vigor.

「Amazing nou. You. To think you would also be this talented in cooking. How frightening *no ja*... after this much, I can't just leave *ja ro*? Wait a moment」

El Jiisan searches through his item box and hands me ten gold coins.

Ooooo.

I see these for the first time... gold coins.

It's shining wonderfully.

A gold atomic bomb.

-----

Appraisal-san.

Nice information.

tte, I have just received 100,000 for a single grilled fish.

As expected, this is too much.

「Nono, I can't receive this」

「It's alright *no ja*. Accept it. There's no need to worry, I have more money than I need *ja*. Money is not necessarily needed in this place *nou*」

「Haha~ Well then, I will gratefully accept it」

I put the gold coins inside the item box.

Money will be necessary once I leave the dungeon.

It would be better to have some on me.

「However, Ayuyu is especially delicious. Sprinkling it with the salt...」

Right.

El Jiisan is a sage.

He might know the value of this Aries' Salt.

「El Jiisan. This salt. For how much would this Aries' Salt sell for?」

「I can't tell. I'm ignorant of the worldly affairs~ I am confined in here for way too long.

However, because of such deliciousness... One or two gold for a gram wouldn't be wrong]

S, seriously...

10,000 yen per 1g.

Two Gold coins for gram would be 20,000 yen per 1g.

Salt over gold, huh...

A white jewel.

This.

With『Aries' Salt』the road to becoming a millionaire is not far.

1g for 2 Gold coins.

In other words, 1kg for 2,000 gold coins.

That will be 20,000,000.

Fumufumu.

I may do this when I get outside.

But, there's a problem before that.

Because it's doubtful if I can even leave this dungeon.

I must steadily level up to the point I can defeat enemies on the other floors.

{} (´•\_•`)

## Chapter 21

After eating the grilled Ayuyu.  
My magic training with El Jii has started.

Wanting to understand my current condition, I showed him my magic control through the bone.

If it's just a bone, I can do it without destroying it.

「I'm astonished... to make it this after only two days. You, you are not ordinary *no*」

「Nono, El Jiisan's teaching methods are splendid nodesu」

「Hohoho. Maintaining magic in a material will exhaust your magic. It would be better to pour magic into something that has its own magic」

Is that so?

I was trying to challenge something bigger, though.

Although the fallen tree... has exploded.

「El Jiisan. Should I stop trying it with a fallen tree?」

「Fumu. Maintaining magic inside something of that size would be difficult *ja rou*」

「Is that so... so that's why it has exploded...」

「Nunu? What you just said? The fallen tree has exploded!」

El Jiisan's mouth opened wide.

He is that surprised.

「Yes. But, suppressing the magic wave is quite difficult」

「I though your magic was great, but... to think it was to such extent... Just making a material explode is normally difficult. A small bean or fruit, not a fallen tree...」

「Is that so...」

「It's already offensive magic *ja rou*. It may be close to explosion magic. Nono, your talent is terrific *nou*」

Fumufumu El Jiisan nods.

Jiisan has times where he enters his own world.

「El Jiisan. Then, should I try pouring magic into small things so my magic doesn't run out? What would be good?」

「U~~n. What would be good *ja nou*. I would definitely recommend something small to an ordinary mage, but you are different. Aren't both okay? You should alternate between them. That way, you would be able to sense the difference *ja rou*」

「Alternate... is it?」

「Right. Circulation of magic isn't different in small and large things. The problem is the magic control *ja*. With such large amount of magic, you won't have any problems」

「Then, what is the difference?」

「Usually, you borrow the magic of a magic tool and operate it with yours. Therefore, controlling a large amount of magic is difficult. Because controlling a mixture of magics is quite difficult *kara nou*」

Hee~

Is that so?

So you don't use your own magic.

This might be another good thing to know.

「Then, I will continue trying magic on large things」

「Right *ja*. Carefully sense the other magic if you are doing it on something which possess magic. Overwriting the magic circuit of your target is the most important part *ja*. The more you suppress the target's magic, the easier it will be for you to circulate your own magic in. Take a look, I will show you an example」

El Jiisan plucks a Nirvana flower from the grassland.

「Wa!」

Jiisan shouts and the Nirvana flower instantly withers.

Poron

A seed comes out.

「Ooo~」

Pachipachi

Sage-like magic is wonderful.

I have ended up clapping my hands unconsciously.

「Right now, I have tempered with Nirvana flower's magic circuit and concentrated on the seed.

I have used only a minimum of my magic」

「Growth promotant... That aside, the flower has magic, huh」

「Most of the living things in this world have magic. Both small and large. The one who can control everything is called a magic master. But, such existence is just a legend *nou*」

Are?

El Jiisan who is called a sage should be at the world's peak.

I have thought that he knew everything, but...

Was I wrong?

「There is a magic that El Jiisan can't use?」

「Of course *ja*. Magic has appropriateness. Although there are all-rounders, there is no one who can use every magic」

Is that so?

The path of magic may be impossible even for sages.

「First, focus hard on growth promotant of the Nirvana flower *no ja*. Advancing steadily is

most important.]  
「Yes. I understand.]  
「Umu, do your best.]

El Jiisan left.  
I start practicing at once.  
I take a Nirvana flower in my both hands.  
I imagine a warm water and pour magic in.  
Potsun  
My magic certainly flowed in, but...  
It collided with Nirvana flower's magic and made a noise.  
I try to pin it down with power.  
Ah.  
Bofu  
The flower has exploded...  
Petals are floating in the air.

Waa~  
I have done it again!  
It seems I have poured way too much magic inside the Nirvana flower.  
Let's be more careful next time.  
I pluck another Nirvana flower and pour magic inside.

Bofu

Bofu

Bofu

Bofu

Bofu

The petals keep scattering.  
A blizzard of red flowers.  
How pretty~...  
Nonono  
This is not the time for cherry blossoms viewing.  
Uumu.  
Fu~mu.  
A quite delicate operating is necessary.  
If it's like this, should I use my fangs?  
It may go well just like with the bones.  
I will suck the overflowing magic with my fangs.

Mumu.  
Wait.

Calm down, calm down.  
Since Nirvana flower contains a deadly poison I have to eat the eggshell first.  
I retrieve the Vampire Egg eggshell and eat it.  
Mushamusha  
I have calmed down after all.  
Since it's the first thing I have tasted after being born, I grew attached to it.  
Well then!  
Let's continue.

Gabu! Chiyu Chiyu  
I bite into the Nirvana flower and suck.  
The magic is released at the same time!  
Nirvana flower's and my magic start mixing.  
Oh.  
The wave came and almost blew off the flower's magic circuit, but.  
Chiyu Chiyu  
I suppress the overflowing magic by sucking it through my fangs.  
Yoshyosh!  
I may be able to control it well.  
I have to pour more magic in while controlling the mixture of magic.  
Unun!  
It goes smoothly.  
Yish, this is it!  
I pour magic inside the flower.  
Pakan  
Ah.  
I did it.  
Nirvana flower's seed complete!  
I was able to do the same thing El Jiisan did!

【Fixed proficiency of a skill reached.『Magic Control Lv2』has become『Magic Control Lv3』】

I have heard the god's voice.  
「Wanwan」  
Of course, Ado also barked in joy.  
「Yoshyosh」  
I pat Ado's head.

~~~~~

El Jiisan sat down on a couch in the house.  
The first-rate food he ate just a while ago.  
He starts drooling just from remembering the Ayuyu's taste.

(Delicious *nou*. That grilled fish. Although I already thought that I won't get interested in food again. My curiosity in food was sparkled again)

El Jiisan thinks about Tokugawa-san's magic.

(That Baby Vampire. Enough magic power to make a fallen tree explode, huh... The magic I have felt inside him is not ordinary after all. I must guide him how to control it properly)

(However... this time's assignment may have been too early. Growth promotant is difficult *kara nou*. It's not magic an elementary level mage can do. But, if it's him... he may learn something from it...)

[] (´•\_•`) []

## Chapter 22

I have quickly finished El Jiisan's task.

I have decided to lie down.

Gorogoro Gorogoro

「Wanwan」

Ado is running around the Nirvana flower meadow.

That fellow is so energetic~

Which reminds me, according to Appraisal-san, Ado and the others are raising the Nirvana flowers.

So hard working, huh.

Then, I shall cooperate a little.

Removal of the obstructing fallen tree?

Tekuteku Tekuteku

After I grab the fallen tree with both of my hands.

I pour magic inside.

I pour this time with the explosion as objective.

Dokudoku

The magic moves from my body.

Are?

This tree...

Still has some magic remaining?

It does not seem to be empty...

Also, it seems it has roots spread on the ground...

When I poured magic inside the circuit, it went quite deep...

Mumu!

I have discovered some lump of energy.

The tree roots are caught in it.

This is quite bothering me.

But, the bottom is deep underground.

By sensing it with magic... I think it's deeper than 10 meters.

Apartment's story is about 3 meters tall, so it's deep around the size of a 3-story apartment.

How do I dig it up?

Although there is a dog-like Ado...

As expected,「Dig here wanwan」would be probably impossible.

Ah.

I got an idea.

Right.

I should just recall El Jii's task.

I should just try to grow a part of the root.

In other words, I should grow part of the root and coil it around the something bellow.

Then I should quickly try to move the root to the surface.

Fortunately, coming in contact with the something bellow may not be that hard.

Then!  
Since I have decided, let's do it.  
Okay, challenge!  
Gabu Chiyu Chiyu  
In order to not destroy the tree, I suck the overflowing magic with my fangs.  
I pour magic inside the fallen tree with both of my hands.  
Mukumuku Mukumuku  
Oou.  
It seems I have successfully grown the tree roots.  
The roots tangled around something in the ground.  
Well then!  
I grow the root upwards with all my might.

Come!  
Come!  
Come up!  
Come to the top!  
Show yourself on the surface!  
I wash down the tree with my magic and bring the root up.  
Myurumyurumyuru Doba  
Oh.  
Something appeared...  
A treasure chest entangled in tree root has appeared.  
As expected from a dungeon.  
It was buried deep in the ground, but the chest looks in a good state.

「Wanwan」  
Ado seems very interested in the treasure chest.  
It's wagging its tail happily.  
Well then, shall we open it?  
Paka  
When I open to treasure chest...  
There's some blue stone inside?  
Nonono  
A gem... blue sapphire?  
I don't know.  
「Wanwan」  
That was close.  
Ado is vigilantly watching the gem as it was a prey.  
I have to watch out.  
I point at Ado.  
「Listen, Ado. You can't eat this」  
「Wanwan」  
Yosh!  
It seems to understand.  
I protect the gem? with my body and call that gentleman.

That person appears at times like these.  
Your expert opinion please, Appraisal-san.

-----  
Others: Transformer Gem

Description: Rare item. Allows special evolution if eaten by a monster.  
-----

Oshaaaaa!  
Seemingly good item getto.  
Because I'm a Baby Vampire I also count as a monster.  
I might evolve if I eat this.  
I may be able to move to higher floors.  
Will I be finally freed from Baby Vampire?  
How nice~  
Nice gem.  
Nice stone.

Hyo! Paku Mushamusha

???  
Are?  
The Transform Gem vanished...  
tte, oi.  
Ado ate it.  
The rare item.  
It's munching on it with an innocent face.  
Why did you do thaaaaaaaaaaaaaat!  
That!  
My precious rare item!

I grab Ado and shake it.  
「Wa, spit it out! Immediately spit it out. Give me my item back!」  
Gulp  
Ah.  
Just now, Ado swallowed it.

Pakan  
W, what.  
So bright!  
Ado suddenly started shining...  
I reflexively release my hand from Ado.  
W, what, what?  
A rope of light coils around me.  
Uwa!  
I'm losing strength.  
What's this?

Am I going to get eaten by the light?  
Dangerous.  
Emergency evacuation!  
I quickly distance myself from Ado.

.....

.....

.....

When the light disappeared... standing there was...  
A small demi-human?  
There's a small girl? with dog ears and tail.  
Who is this cutie?  
Who is this outrageously cute child?  
Who is this puppy?

「Goshujin-shama!」

Are?  
The dog-person before me spoke.  
Who is this child?  
I feel like she resembles Ado here and there.  
I don't see Ado anywhere...  
But, the large Ado became about the same size as me?  
Did it become tiny with evolution?

「Y, you... are you Ado? The Earth Dog Ado?」  
「That's right deshu. I have just evolved deshu」

I, is that so  
Is that so?  
She's moving her dog ears happily.  
The tail looks fluffy.  
Let's appraise her first.

-----  
Name: Ado  
Race: Hell<sup>1</sup> Earth Dog-Human  
Level: 1  
Description: Demi-human. A monster that became human by mutation. Ancient species.  
Able to use fire magic.  
-----

Appraisal-san.  
A name has appeared...

It seems she really is Ado.  
The race sounds quite dangerous.  
Hell that basically means hell<sup>2</sup> right?  
Rather, there seems to be fire magic in the description...  
If that's true, that's more than I can do.  
I can't shoot fire from my hands yet, though.

「Ado. Can you use fire magic?」  
「Uun. Probably~ I don't know」

I see, I see.  
She doesn't know.  
She just evolved after all.  
Really, what a reliable companion.  
I mean, give me back my rare iteeeeeeeeem!  
I shake with the demi-human in front of me.

## Chapter 23

「Go, goshujin-shama~ I, I would like you to stop」

「Oh, sorry」

I separate my hands from Ado.

Ado promptly fixes her hair.

What a beautiful hair.

I think it would be better to brush them properly from now on.

There's no brush in El Jiisan's house so I will have to create one myself with alchemy.

tte, now's not the time to think about presents.

「Ado, you have snatched my rare item」

「N? I did not. It was Ado's present. Goshujin-shama pointed at it, saying that I can eat it」

Ado smiles.

It seems the communication between our races created a tragedy.

Rather, if I think about it.

It was doubtful whether Ado, the Earth Dog understands me in the first place.

If you think about it, conversing with a monster is weird.

Maa, can't be helped then.

「I understand. I will let it go this time. From now on, snatching things away is prohibited」

「Yee~ees」

Ado raises her hands and answer.

Her tail suddenly raised at the same time.

I will forgive you since you are cute.

「Well then, a lot has happened today so let's return back」

「Deshu ne」

Tekuteku Tekuteku Gacha

Ado followed me inside the sage's house.

Ah.

Right.

Ado is now a demi-human so she can follow me inside.

As expected, letting her continue to live in the doghouse would be awkward.

「Let's request El Jiisan to prepare a room for Ado」

「Ado would rather stay together in the same room with Goshujin-shama」

Ado says teary-eyed.

Her tail hangs down, she looks like she's going to cry any moment.

「I, is that so... let's do that then for the time being. It would be better to tell El Jiisan that the number of residents has increased」

I introduce Ado to El Jiisan.

「This is my first time seeing such race *ja nou*. What a curious race *ja*」

「According to appraisal, she's a Hell Earth Dog-Human desu」

「Wh, wh, wh, whatatat, really? Is that true? Are you serious?」

El Jiisan trembles.

What happened? A heart attack?

「Right deshu. Ado is a Hell Earth Dog da yo」

「I see, I see. To think I would meet a race from legends...」

Fumufumu, El Jiisan entered his own world.

Jiisan in deep thoughts gives an impression of a scholar.

「Ado, are you unusual? The description said Ancient Species, but」

「Uu~n. I don't know deshu」

That's right, huh~

I also don't know if Baby Vampire is unusual.

Only Appraisal-san knows everything.

Oh.

El Jiisan has returned from the「Fumufumu」mode.

「You. Hell Earth Dog-Human is tremendously rare species *ja*. After all, species from the ancient times are rarely seen. It's a rare encounter in life *ja*」

I, it is so rare, huh...

It's on a totally different scale compared to meeting a tanuki in a city.

Ado looks somewhat very delighted.

Probably from the rare words of praise?

「It's so legendary that even the picture book I created can't react *na*」

Which reminds me that I haven't heard the piko~n sound.

I have completely forgotten about it, though.

「Naa, Tokugawa-san. Hell Earth Dog-Human」

「Ado is alright, El Jiisan」

「Is alright deshu yo」

「I see, won't you let me examine Ado? I may be able to find out something useful to my research」

「No, it would be better to ask Ado herself, not me」

「But, Ado is Tokugawa-san's lesser demon, right? In that case, it's customary to ask the contractor」

「That's right deshu yo, Goshujin-shama」

Eh?

What have you just?

Ado is my lesser.

I don't have a memory of doing something like that, though.

El Jiisan took Ado as my lesser demon contract for granted.

「Anoo I don't understand well, though. I have formed a lesser demon contract with Ado nodesu ka?」

「Right. You didn't do it yourself? I have thought so the moment you came back home. I have thought that you definitely made a lesser demon contract with her, but」

「However, I don't remember... Ado, when did we make a contract?」

「Uu~un. A little while ago deshu. It seems that it formed during the evolution da yo~ Since I had insufficient amount of magic during the evolution, I have received some from Goshujin-shama~」

「I, I see...」

It may be during that time I was struck by that light.

I felt growing weak, but to think that it was from taking my magic.

「Then, is it alright for me to examine Ado? I won't do anything strange *no ja?* I will do it with magic *ja*」

「What do you think, Ado?」

I ask Ado.

「No deshu」

A refusal pose.

「Wha.....」

El Jiisan drops his shoulder in disappointment.

I'm also surprised at the unexpected answer.

「I, is that no good?」

「No deshu」

Ado stubbornly refuses.

El Jiisan looks at me.

Nonono.

Even if you look at me with such eyes... I have to respect Ado's wishes.

「It's like this, you will be able to examine Ado if her feelings change」

「T, that so nou... she may get attached to me soon *nou*」

「That won't happen deshu」

「Wh... how terrible *no ja*」

## Chapter 24

Peropero Peropero

Nn?

What is it?

My cheeks are tickling.

It's tiny and lukewarm... slightly cold feeling.

When I open my eyes...

Eeeeeeh!

Eeeeeeeeh!

The dog-eared Ado is licking my face.

Although I didn't mind Earth Dog, but when it's demi-human it's slightly dangerous.

A cute dog-eared little girl is licking my cheeks.

Dosa Sasa

I make a distance immediately.

「Ado, wh, what are you doing?」

「Eh? What deshuka? The same thing I was doing every day~ Peropero」

Uun.

What is it?

No, it's just a vague what, though.

「When Ado does it in a human form, that... it feels strange. Therefore, peropero is prohibited!」

「Is that so deshuka. Then, is it alright in the beast form?」

「Maa, that's right, but...」

「Then!」

Boron

Ado became a dog the size of a small pony right before my eyes.

Oou.

You are able to do such a thing... Ado-san.

「Goshujin-shama~」

Sasa Dosa Peropero Peropero

Ado licks my face.

Eeeeeeh!

W, wait!

I'm pushed down and straddled.

The reincarnated Vampire-san is not so big.

Peropero Peropero

Being licked is ticklish.

It's tickling too much.

「Whoa. Ado, return to your original appearance」

Boron

Ado returns back to human form.

「Goshujin-shama. What's wrong deshuka?」

「I, it's nothing. I was just surprised. Rather Ado, you can turn back into the beast form?」

「Right deshu. Goshujin-shama can't do it?」

Uun.

I wonder about that.

Since I'm vampire it may be possible to transform into a bat later.

I think it's not possible right now.

I don't understand how anyways.

「Regretable deshu. I wanted to play together... Gusun」

Ado's ears hung down.

I take the opportunity and free myself from Ado's straddle.

「Well then, let's have a breakfast. There's probably something in the living room」

「Ye~s」

Which reminds me, what does Ado eat?

Rather, what was she eating until now?

She seems to self-supplied her food, though.

「Can Ado eat anything?」

「Ado is... Ado is... probably alright~」

「I see, not being picky is amazing」

「Ehehe~ I was praised by Goshujin-shama~」

Ado moves her tail and ears in joy.

Breakfast.

Ado and I are in front of a table.

It's El Jiisan's table.

El Jiisan asked Ado to sit beside him, but Ado has refused.

Ado trots over and sits next to me.

El Jiisan is dejected.

Rather than a member of a former hero party, he's like Ojiichan avoided by his granddaughter.

Gabu Chiyu Chiyu

I insert my fangs into the Cypher meat and suck.

Paku

Ado stuffs her cheeks with the meat.

Mushamusha

El Jiisan is eating the Nirvana flower.  
Since he is an elf he may be a herbivore.

「Ado-chan how about a race with me. Or how about comparing magic?」  
「No deshu」

「W... why *ja*...」  
「No deshu」

It seems that Ado dislikes El Jiisan for some reason.  
No, rather than disliking him, it seems she is not much interested in him.  
No matter how temptingly El Jiisan tries, Ado always resolutely refuses.  
If the legendary race is that amazing...  
My leveling plan may go smoothly.  
I may be able to defeat all enemies on the 50th floor with Ado.

「El Jiisan, would I be able to arrive at the gate on the 40th floor with Ado's help?」  
「Uumu, I wonder *na*. Ado-chan's strength is unknown after all *nou*. Since she's a legendary species I doubt that she's weak *ja rou ga*... she was just born after all *nou*...」

「Ado is strong deshu」  
「That's right, Ado-chan is strong」

El Jiisan immediately changed his opinion.  
But, it would be better to grasp Ado's strength when she's serious.  
I don't even know my own strength, though.

「Do you know where the entrance to the previous floor is? I would like to take a look at the monsters' levels」  
「Mumu. That is dangerous *ja zo*. I don't doubt your talent, but... abruptly facing monsters of the 49th level would be hard」  
「However, the monsters on this floor are too weak」  
「*Ja na*. Earth Dog leader and Cypher are the strongest *nou*. U~nu, then how about this. You will level on this floor until you are able to defeat the golems which I created」

Golem...  
That fellow who generally appears as an early game boss?  
If that's the case, it may be just right.

「I will be bothering you」  
「Hohoho. My golems are strong. Feel free to go all out *no ja*」

The breakfast continued like this.

## Chapter 25

The fight against El Jiisan's golems has been decided to happen after the lunch.  
It seems he needs to make some preparations.  
I and Ado are strolling around the Nirvana flower fields.

Tekuteku Tekuteku  
There's a reason I'm here.  
It's the preparations for the match in the afternoon.  
My present weapon is Revolver Magnum.  
A bullet that rampages through the opponent's blood flow, Blood Bullet.  
A bullet that tears opponent's bones into pieces, Bone Bullet.  
But, golems don't have blood in the first place and it's doubtful whether they have bones.  
In other words, these two types of bullets won't work.  
Therefore, a new type of bullet is needed.

I gather Nirvana flowers and retrieve bones and blood from the item box.  
Because of the magic training, I wasn't able to do this recently.  
I will be using the skill after a while.

「Blood Bone Alchemy!」  
Bowen  
Yosh!  
Poison Bullet, Nirvana Bullet has been created.  
This bullet will allow me to apply poison from a distance.  
However, will this work against the golems...

Kuikui  
「Goshujin-shama, Goshujin-shama」  
Ado pulls on my hand.  
「What's wrong? Ado」

Kuikui  
Ado points at the bottom of her neck.  
What is it?  
I don't see anything, but her fluffy hair...

Ah.  
I understand what she means.  
Because the collar I have created before is now unusable because the evolution, she may want a new one.  
Can't be helped.  
Let's make her a new one  
I set up the blood and bones again.

「Blood Bone Alchemy!」  
Bowen

Yosh!

I created a red necklace.

「Ado, this is a present」

「Goshujin-shama~ Thank you deshu」

I place the necklace around Ado's neck.

But, this... this may burst when she turns into her beast form...

Maa, let's not worry about that now.

The measures against the golems are the present problem.

Golem's weak point... water?

Since they are made from soil, they should be weak against liquid?

If that's the case...

「Ado, won't you turn into a beast and take me to the river? I'd like to go to the water」

「Alright deshu yo」

Bowan

When Ado turned into the beast, the necklace remained around her neck.

I'm glad it didn't break.

I would get a quite shocked if it burst.

Kuikui Kuikui

Ado bows her head and starts running after I get on her back.

Sasa Sasa Sasa

We have arrived at the river.

I have a feeling that Ado's speed has increased.

I move to the shallows and scatter the bones and blood.

「Blood Bone Alchemy!」

Bowan

Uun.

Failure!

I was going to create a water bullet, but it didn't go well.

It didn't turn solid.

I thought it would go well like the blood bullet did, but the affinity may be bad.

How~ever.

Let's no give up and try again.

「Blood Bone Alchemy!」

Bowan

Failure.

Uun.

Something is amiss...

I look at the Ado playing in the water nearby.

It doesn't solidify because its density is lower than blood's, huh...

Then... right.

There is more than enough concentration of Aries' Salt in this river.

I change the imagine in my mind.

It's not a drawing up a water.

It's not a bullet reflecting the image of fresh water.

The material is different.

What I'm making now is... white shell.

「Blood Bone Alchemy!」

Bowan

Yosh!

I made it.

The name is Salt Bullet.

Fufufu.

I may be able to defeat the golems with this.

The time is already coming too.

「Ado, we are leaving」

「Ye~s. I caught fishes~」

Ado is holding a sack full of Ayuyu.

Today's lunch has been decided.

I get on Ado and we return back to the Sage's house.

{} (´•\_•`) {}

## Chapter 26

After everyone ate a grilled Ayuyu.  
We have come in front of the house.

「Well then, Tokugawa-san. Can you win against my golems?」  
「Bring it on」  
「Goshujin-shama~ Do your best deshu」  
Ado supports me from nearby.  
I wanted to ask if Ado wants to fight with me, but I have stopped myself.

「Well then, here I go. Golem summoning!」  
Dogon  
The pot in front of El Jiisan changes and a golem appears.  
A gigantic rock.  
Its height may be around five meters.  
The height of two-story apartment.

「H, huge...」  
That's my impression.  
I thought it would be a little smaller, but.

「What's wrong *ja*, it's okay to surrender *ja zo*」  
「I'm alright」  
「Well then, here I go. If you think you can't win, you can surrender immediately. The conclusion of the match will be decided once the other party can't continue to fight *ja*. I can use recovery magic you can fight with peace of mind *no ja*」  
「Yes」  
「Then, go *no ja*, Golem」

Dogon Dogon  
The large golem wiggles and approaches me.  
The ground shakes with every step it takes.  
I prepare my revolver and shoot.  
First, the Blood Bullet.

Ban Ban Ban  
The bullet hit the golem, but no changes.  
It won't work on the bloodless golem after all.  
If that's the case...  
I rotate the barrel and shoot again.

Ban Ban Ban  
The Bone Bullet.  
Mishimishi  
The golem's body slightly shakes.  
A sand falls from its body, but it didn't go through.

「My golem is hard zo. It won't suffer from attacks of such caliber *no ja*」  
Tsk.  
Time to use the trump card.  
I thought I would be able to at least damage it a little, but I was wrong.  
I rotate the barrel and load a sure killer while dodging the golem's attack.  
The Salt Bullet.  
I can win with this.

Ban Ban Ban  
Gigi Gigi  
Yosh  
It seems to be working well.  
The moment the bullet hit, the golem's movements became dull.  
I should keep on attacking then.

Ban Ban Ban  
Gigi Gigi  
The golem's movements gradually slowed.

And then...  
Gigigigigigigi... suton  
It stopped.

【100 Experience gained】  
【Baby Vampire's level has increased from 4 to 5】

I have heard the god's voice after a long time.  
I have not been fighting recently after all.  
But I see, so I'm already level five...  
No, it's not like it's something special, though...  
A break is good after all.

「W, what... my golem. W, what was that right now...」  
「El Jiisan. It's salt. Salt has purification effect nodesu. In the golem's case, because its soul comes from the soil, I was able to purify it」  
「What a thing *ja*... to think you would break my spiritism...」  
「It was just a fluke」  
「As expected of Goshujin-shama. Amazing deshu」  
「You... you are good」  
El Jiisan suddenly falls on his knees.  
He probably thought that he won't lose.

「Then, will you tell me the way to the 49th-floor entrance?」  
「However *nou*. You knew the weakness. Won't it be too difficult to fight head on?」  
「It would be alright. Every enemy has some kind of weakness」  
「That is true *nou*. I understand *no ja*. However, if it gets dangerous return immediately *no ja*」  
「Yes. Of course」

El Jiisan taught me the way to the 49th floor.

{} ( ' ' ) {}

## Chapter 27

「Well then, see you later」

「See you later~」

「Umu, stay healthy. It will get lonely *nou*」

El Jiisan is moved to tears.

It may have been a long time since he met people in the dungeon.

Farewell Jiisan... stay healthy.

「Ado, please」

「I understandeshu」

Boron

Ado changes from the demi-human mode into the beast mode.

A large dog with a fluffy fur has appeared.

After I get on Ado, we leave the sage's house.

Sassa Sassa Sassa

After following El Jiisan's directions we arrive at a large staircase.

There are some traces of remains? at a large open stonessquare.

A big stone circle? has collapsed there.

I think that's the place the Transfer Gate has fallen.

The Transfer Gate El Jiisan has destroyed.

「Ado, let's take a look around for a while」

「A treasure hunting na no~」

「Yup, something like that」

Sa Suta

I get down from Ado and search the area.

I touch the broken gate-ish thing and pour magic inside.

The magic touch is clearly different from anything I have touched until now.

I feel something like a lump of energy inside.

In addition, there seems to be a considerably complicated magic circuit.

I pour magic inside and just as I am about to grasp the structure, I start feeling some interference.

There may be some special method.

What a mysterious object.

At times like these.

It's best to ask that person.

Your expert opinion please, Appraisal-san.

-----  
Others: Remains of the 50th floor Transfer Gate  
Description: The wreckage of Transfer Gate. Broken and unusable.  
-----

It was Transfer Gate as expected.  
If this is repaired... I could get outside of the dungeon immediately.  
Mumu.  
Wait, can this be fixed?  
If it's my Blood Bone Alchemy.  
It may be worth a try.

I retrieve blood and bones from the item box.  
I remember and imagine the feeling of pouring magic inside the magic circuit a while ago.

「Blood Bone Alchemy!」  
Powan  
Failure!  
It seems that only the stone has been repaired.  
Maa, I knew this would happen, though.  
El Jiisan said that creating a Transfer Gate is considerably difficult.  
It can't be rebuilt so easily, huh.  
Tehe.

Now then, now then.  
Let's explore the surroundings, maybe I can find something useful.  
Ado is also looking while sniffing with her nose.  
Though there are no signs of anything, she seems to be having fun.

Wasa Wasa Wasa Wasa  
We didn't find anything.  
It's just simple ruins.  
A stone square...  
It would be nice if we could find a usable magic tool or something, though.

「Goshujin-shama, Goshujin-shama, there, there may be something」

Oh.  
It seems Ado has found something.  
She starts digging with her forepaws in the beast mode.

Tekuteku Tekuteku  
I take a look from Ado's side...  
A lithograph-like? thing is there.  
The hell's that?

Zaza Zaza Zaza

I take out the lithograph from the ground.  
It seems to be only a part of a lithograph.  
The size is approximately a quarter of the original lithograph.  
I don't understand what is drawn on this piece.  
I feel that it's something like a bird, but... I could be wrong.  
Eei.  
Appraisal-san, please take a look.

-----  
Others: Fragment of the lithograph of fire 1/4  
Description: Something good may happen if you collect them all.  
-----

Oou.  
This seems somehow game-like.  
This, will this warp me somewhere if I collect them all?  
Or it may open a sealed door.  
Should I try it?  
But maa~, I got only one piece so there's no meaning yet.  
Let's put it in the item box.  
Poi  
Fragment of the lithograph of fire 1/4, stored.

There doesn't seem to be anything else.  
Well then, we should leave from here now.

「Let's go, Ado」  
I approach Ado who is lying down, tired of searching.  
「Un! Break time over deshu」  
Nonono, Ado-san.  
That really wasn't a break.  
Oh well.  
I get on Ado and we climb up the stairs to the 49th floor.

How would the upper floor look like?  
I'm excited.

{} (´・ω・`) {}

## Chapter 28

We climb the lengthy stairs.  
It sort of feels like a very long subway escalator.  
Of course, this is not fully automatic. I'm riding on Ado, though.  
We have climbed a considerable distance.  
This seems to be as long as Japan's deepest subway, the Roppongi Station.  
I'm comfortable since I'm riding Ado.  
Oh.  
It seems that we are nearing the exit.  
I can see the light in the distance.

Once we climb up the stairs, what I see is... a jungle?  
The 50th floor was comfortable looking grasslands, but...  
This is the Amazon! Trees and plants everywhere.  
The grass is growing thick.  
Kururuukururuu, a wild bird's? voice.  
Is this really inside a dungeon...

「What a dense jungle...」  
「A lot of grass~ I want to run~」  
It seems Ado's wild instincts are being stimulated.

Puun Pachi  
I swatted a mosquito.  
To think you could drink blood from me, a vampire... how foolish.  
「Let's look around for some monsters first. Confirm the situation. I want to know the strength of our enemies」  
「I understandeshu」

Sasa Sasa Sasa  
Ado runs with me on her back around the jungle.  
Plants are violently hitting me in the face.  
It looks like Ado doesn't mind, but I'm quite bothered by it.  
Maa, Vampire's skin is rather tough so there's no damage.

Gashigashigashi  
Oh.  
A tree fell down in front of us.  
This is a sign of monster presence.  
Could this be our first encounter with a monster of the 49th floor?

「Ado, be careful」  
「Deshu!」  
Slo~wly, slo~wly Ado advances and...  
In front of us is a ridiculously large turtle?  
Nonono.

There's a monster on a size level of a dinosaur.  
It's like a moving house.  
Still, that huge~  
It's so big I don't feel like fighting it.  
Tortoise-san advances while knocking down every tree around it.

Ah, ah.  
There's no time to stare in admiration.  
I finally met a monster.  
I have to identify it first.  
Appraisal-san.

-----  
Race: Triceratops Tortoise  
Level: 7  
Description: A huge tortoise averaging approximately 10m in size.  
Because of its high defence shell, it receives damage only scarcely.  
-----

Oou.  
First time seeing a level 7.  
I understand that it's considerably strong.  
I can't see its status so I can't be certain, but I have a feeling that we wouldn't win.  
However, I will not attack it since it looks gentle.  
It may not be necessary for us to start the fight, but let's ask first to make sure.

「Ado, do you think you could win against that tortoise?」  
「Tortoise-san is too big~ Dunno」  
Then, let's ignore it.

Piko~n.  
Oo.  
A sound came from the item box.  
The Monster picture book seems to be shaking.  
That's quite a nuisance.  
I take it out.

Ummm...  
Ah there it is, there it is.  
I turn the sound feature to OFF.  
This will do.  
I put back the monster picture book into the item box.

「Ado, let's look for other monsters then」  
「Deshu! Run, run~」

Sasa Sasa Sasa

While running through the jungle... kunkun.  
I smell blood.

I'm sensitive to blood because I'm a vampire.  
There may be a corpse nearby.  
Which means, the one who killed it...

「Ado, let's go slowly from now on. Be wary of the surroundings」  
「Roger deshu」

Noso Noso Noso  
When we approach the smell of blood...  
A monster is leaning against a tree.  
A bear-like monster in a near-death state.  
Let's appraise it.

-----  
Race: Moon Bear

Level: 5

Description: A bear averaging 5m in size. It has a strong physical strength and uses body strengthening magic.  
-----

A magic user, huh...  
It looks quite strong, but... it's covered in blood.  
Furthermore, there doesn't seem to be traces of it being eaten...  
In that case... this is bad.  
If it's purpose wasn't food, we will most likely get attacked.  
If it's a monster that only hunts for fun... we may already be a target.  
It would be best to leave immediately.

「Ado, let's go back where we came from. This place seems to be dangerous」  
「Ado thinks so too...」

{} (´•\_•` ) {}

## Chapter 29

Sasa Sasa Sasa

I get on Ado and we turn back to the jungle.

Zaza Zaza Zaza

Footsteps can be occasionally heard.

This is... are we being followed?

The sounds of footsteps are tightly following us.

We may get attacked somewhere.

I grab the Magnum Revolver in my right hand and load it with bullets.

Since the monsters here are animals type, Blood Bullets may work here.

Sasa Sasa Sasa

「Goshujin-shama, behind us~」

It seems that Ado also noticed.

「Try pulling apart if you think you can. You don't have to mind me」

「Understood~ Goshujin-shama, hold tightly」

Sasa Sasa Sasa Sasa Sasa Sasa

Ado raised the speed.

I desperately cling to her.

Zaza Zaza Zaza Zaza Zaza Zaza

However, the enemy footsteps also accelerated.

It seems that it doesn't plan on hiding anymore.

It hid its presence until a while ago, but the footsteps can be heard clearly now.

Sasa Sasa Sasa Sasa Sasa Sasa

Ado raises her speed again, but the enemy behind still follows.

It doesn't seem that we will be able to shake it off.

It would be better to somehow deal with it before we encounter another monster.

Because it seems that only one creature is chasing us, I and Ado may be able to defeat it.

Ado's strength is still unknown, though.

「Ado, let's fight the fellow chasing us. If it doesn't go well, we can escape. The entrance to the 50th floor should be close. We should be able to escape that way」

「A fight, at last~ Ado will do her best~」

After Ado shakes her ears in excitement.

She makes an 180 degrees turn.

I wait for the footsteps at gunpoint.

A single fox emerges from the trees.

No, a giant version of a fox?

I appraise it immediately.

-----

Race: Moon Fox

Level: 4

Description: A fox averaging approximately 4m in size. It has a strong physical strength and uses body strengthening magic.

Hunts prey cooperatively in a group.

---

Cooperatively...

Oh crappy crap.

Are you saying... that there are others?

Mishimishimishi Mishimishimishi

Moon Foxes start appearing left and right.

---

Race: Moon Fox

Level: 8

Description: A fox averaging approximately 4m in size. It has a strong physical strength and uses body strengthening magic.

Hunts prey cooperatively in a group.

---

This is bad.

We are surrounded by five foxes.  
Moreover, one of the foxes is level eight...  
We have no choice, but to escape.

「Ado, escape immediately. Return to the 50th floor」  
「Eh, we won't fight~?」  
「It's reconnaissance only this time. It's dangerous to fight enemy that we know nothing about」  
「Understoodeshu」  
「Ado will escape with full strength while I shoot them」  
「Roge~r」

Sasa Sasa Sasa Sasa  
Ado starts running with all her strength.

Ban Ban Ban  
I face the Moon Foxes and shoot at them with the Blood Bullets.  
It hit the enemy and caused a small explosion.  
But, it didn't fall down.  
Tsk.  
It may not be effective against stronger monsters after all.

「Gurururuaaaaaaaa」  
「Gururuaaaaaaaa」  
「Gururururururururu」  
「Guruaaaaaaaaaaa」  
「Gururururuuuuuuuu」

Five foxes are chasing us.  
They slow down, surprised by my shooting.  
Like this, we can escape without worries.  
I reload the Magnum with Bone Bullets.

Ban Ban Ban  
「Kyan」

I hit on of the fellows, but it doesn't seem like its bones bloated.  
It looks like the bullet didn't break through its body.  
The appraisal said that they use magic to reinforce their bodies, so it may have protected its body this way.  
If Blood and Bone bullets are not effective...

Kuru Gacha  
I load a new instrument inside the revolver.  
A poison bullet, Nirvana Bullet.  
El Jiisan said that the monsters of the 50th floor left because he was cultivating the Nirvana flowers.

If that's the case...  
This may be effective.

Ban Ban Ban

Yosh!

A hit!

The fox who was hit by the Nirvana Bullet slowed its movements.

It seems the poison is effective.

The body strengthening magic may not be useful against that at all.

「Goshujin-shama, I can see the staircase~ should I enter~?」

「Yes, continue like that」

「Roger deshu」

{} (´•\_•`)

## Chapter 30

Sasa Sasa Sasa Sasa

After Ado passed the jungle and entered the staircase, the Moon Foxes stopped chasing. Their habitat may be only on the 49th floor.

We descend the stairs a little.

「Ado, it's OK. Stop please」

「Ye~s」

I get down from Ado.

「Ado, you may take a break now」

「Un! Relax~ Ado is grumbling~」

Ado lays upside down and her stomach starts grumbling.

A dynamic mofumofu break.

I recall the ambush while listening to Ado's performance.

What worked on the Moon Foxes were Nirvana Bullets.

The Blood and Bone Bullets were ineffective.

Counting the Moon Bear, there may be a lot of monsters that are able to use the body strengthening magic on this layer.

What done in the Moon Bear was probably the pack of Moon Foxes.

They may have used to bear's corpse to lure in a new prey and we have walked into their trap.

The poison also didn't seem much effective.

Its movement slowed down, but if it died or not is doubtful.

I feel that it is still living.

Because I didn't hear the god's voice telling me I obtained experience.

「Goshujin-shama~ I want you to mofumofu my belly~」

Can't be helped~

I was just thinking about mofuing something.

Well then, I won't hold back.

Mofumofu Mofumofu

As expected, rather a fine fur.

A lukewarm and soft on touch.

Ado's fur may be good for calligraphy.

「Ehehe. Comfortable~ Goshujin-shama is good at patting. Getting sleepy nano~」

「Don't fall asleep at a place like this, Ado. Monsters may come through here, after all」

「Ye~s... gusun」

Suusuuuu

Ado started the sleeper's breathing.

Arara.

She fell asleep.

But, I also am sleepy.

Ado-san.  
How on Earth did you get this?  
This powerful enemy.  
I thought it was a quite strong enemy, though.

「Ado, just how did you?」  
「Ehehe. It suddenly appeared when I was taking a stroll so I bit it. It's delicious~」  
「I, is that so...」  
It seems like it was an easy victory for Ado for some reason.  
Maybe we didn't have to run away after all.  
I really should grasp Ado's strength first.

「Goshujin-shama, what's wrong~ You are staring at Ado」  
「Nono, it's nothing. Then, I should eat too」  
Gabu Chiyu Chiyu  
I insert fangs into the meat and suck.  
This is... a different taste compared to Earth Dog and Cypher.  
Although it's quite firm, the taste is delicious.  
I feel a mysterious power flowing inside my body.  
The「strengthening effect」from the description?  
Ah.  
This may be quite good then.  
I stop sucking on the meat and take a bone from the item box.

「Gushujin-shama~ What's wrong? Are you not hungry?」  
「I thought about making a bullet from this meat」  
「I see~」  
Gabu  
Ado continues eating without minding.  
I concentrate and.  
「Blood Bone Alchemy!」  
Powan  
I did it.  
Body strengthening bullet, Moon Bullet.  
If I shoot myself with this, my body will get strengthened... probably.

And another one.  
「Blood Bone Alchemy!」  
Powan  
It's made.  
Blood Bullet.  
I thought about it a little.  
If my hypothesis is correct, then the affinity of the Blood Bullet and the target is important.  
What if using the blood of the same race I'm shooting may have a considerable effect.  
What if there's a thing like blood rejection or something.

「You have made a lot of bullets~」

「Yes, I will beat those foxes with this. And, I will shoot myself with this silver bullet」

「Eeeeh~ That's dangerous~」

「It's alright, it's alright. My specs will probably raise if I shoot myself with this」

「Ehee~ Is that so~ As expected of Goshujin-shama」

「Then, let's give it a try」

I direct the revolver towards my forehead.

Nonono.

That surely is scary, let's try a leg.

I aim at my left leg..

Fuu~

This is nervewracking.

If this turns out to be just a normal bullet, I will be hurting myself.

Fuu~

Eei.

Let's do it.

Ban

Oou.

No pain.

But, my body feels light.

The same feeling I had when eating the meat.

This is a success.

Let's run for a test.

Sasa Sasa Sasa

Oou.

By looks of it, my movements are 1.5 times faster.

Niceeeeeee.

「Goshujin-shama, so fa~st, pachipachipachi」

Ado claps with her paws.

「Ahaha, thank you. This is possible only thanks to Ado」

「Ado also wants to get Ban'ed~ Please~ Goshujin-shama~」

「Alright. Then, here it comes」

「Un!」

Ban

「Wawawawa. I'm filled with power」

Sasa Sasa Sasa Sasa

Ado runs around.

Rather, they are crazily fast. Ado's movements.

I can't see well.

How terrific.

I can see afterimages.

「Goshujin-shama~ Ado will go on a stroll, okay?」

「Ou, take care」

Sasa Sasa Sasa Sasa

After Ado goes up the stairs, her figure immediately disappears.

tte, a stroll that way!

I was certain you meant the 50th floor, though.

You meant the 49th floor!

Uun.

What should I do?

It will be hard chasing after her.

Ado is ridiculously fast after all.

Besides, a stroll means she will soon be back.

Should I wait here while sleeping?

Un.

Let's do that.

{} (´•\_•` ) {}

## Chapter 31

Greetings!

It's still me, the Baby Vampire Tokugawa.

It's sudden, but it's serious.

An hour passed since Ado went on a stroll, but...

She hasn't returned yet.

I thought she would come back immediately.

She has a collar attached, but...

She may be loitering somewhere in the grass.

By the way, I have confirmed the time with the watch El Jiisan gave me.

What should I do?

Should I go and look for Ado?

The 49th floor is still an unknown territory...

Stronger monsters than me grouping together, I feel intimidated.

I feel that Ado who hunts Moon Foxes on her stroll will be alright...

How~ever!

I can't leave Ado-san.

I must fulfil my responsibilities from the contract.

Well then, departure!

I start going up the stairs.

Tekuteku Tekuteku

I arrive at the entrance of the 49th floor.

I thought I would be able to see Ado from here, but...

That isn't the case.

The reality is cruel.

Kyorokoro

I can't see Ado's trails anywhere.

Just where on Earth did you go?

Because we may pass each other, I don't want to advance, but...

Mishimishimishi Mishimishimishi

Trees fall down and a huge tortoise appears.

T, that is... that fellow I saw before.

-----  
Race: Triceratops Tortoise

Level: 7

Description: A huge tortoise averaging approximately 10m in size.

Because of its high defence shell, it receives damage only scarcely.  
-----

Right, right, Triceratops Tortoise.

Since the level is the same, it may be the same guy.

Doshi Zu~n

The tortoise stops its movements and freezes on the spot.

What?

Hibernation? Sleep?

It seriously closed its eyes.

It looks like a mummy...

Mummy?

!!

Ah.

I remember.

Right, like the time I bit the mummy in the Anima Temple.

I obtained an ability there.

I'm sure... I heard the god's voice saying「Skill『God's Fangs』activated」and I have obtained the Blood Bone Alchemy.

After that, the life and death battle with the Earth Dogs unfolded.

I totally forgot that I had to hunt in order for my arm to regenerate completely.

Skill『God's Fangs』huh...

It seems to be ability capture skill.

I may be able to steal skills of the bitten target.

In that case... I may be able to obtain some skill if I bit that tortoise.

Fufufu.

Should I do it?

Should I give it a try?

That tortoise looks dull, it may not even notice that I bit it.

If it does, I can just escape.

It doesn't look like the tortoise can move quickly after all.

Yosh!

Let's do it.

Let's give it a go.

I will shoot myself with the Moon Bullet just in case.

Ban

Lightness and increased physical ability.

My body overflows with power.

Okay, charge!

I quickly approach the tortoise...

Gabu Chiyu Chiyu

I bit into its right leg and suck.

I suck while chanting『Steal』『Steal』in my mind.

Like a mosquito on a summer day.

【Skill『God's Fangs』activated. Skill『Harden』acquired.】

.....

.....

No, that...

Quite a not pleasing skill.

It probably raises the defensive power, but...

Although it will be usable...

To be frank, I was expecting something more amazing.

Something with a name like Tortoise Protection with an absolute barrier effect.

Nusa

Uo.

Oops.

The Triceratops Tortoise starts moving.

Sasa Sasa Sasa

I immediately get away from the tortoise.

The tortoise starts walking and disappears in the jungle.

Tortoise-san...

After seeing you up close, you really are huge.

I'm smaller than the tortoise's foot.

Can't be helped since I'm a baby?

Nevertheless.

The tortoise's traces are easy to understand because of the fallen trees.

Because it destroys everything.

Cause it's a bulldozer-like monster.

I think he's a nice guy since he's creating a road through the jungle.

Now then, now then.

This is not the time to admire the tortoise, I have to look for Ado.

Where did that girl go?

I hope she's didn't get lose.

「Goshujin-shama~ Goshujin-shama~」

Mumu.

This lisping voice...

When I turn towards the direction of the voice...

Ado runs from the jungle.

A lively figure carrying Moon Fox meat on its back.

Ara, Ado is quite a muscleman.

tte.

Arere?

Arerere?

It seems Ado went hunting again.  
A stroll with occasional hunting, huh.

「Goshujin-shama~ what are you doing here?」  
Ado is pure.  
Her eyes are sparkling.  
Rather, there's not a single scratch on her...  
This jungle may not be a threat at all for Ado.  
「Ah, I came to take a look at the situation. Your stroll seemed to be prolonged」  
「Is that so~ Ado~ found the fox den. And then, and then. Gaooo~ Ado burned them」

Eh?  
What is she saying...  
I sure see a white smoke in the distance...  
The cause is... Ado-san, huh?  
「The foxes were in the wrong~ They shouldn't have chased after Ado」  
「T, that's right... they started so they are in the wrong」  
「Goshujin-shama~ Will you eat the meat? Will you?」  
Kuikui she pushes the fox meat in front of me.  
It looks like Ado has already tasted it since it's slightly bitten.

「This is a bad place, so let's return to the staircase」  
「Un!」  
「Before that, let's put the meat in the item box」  
「Thank you~ Goshujin-shama」  
I store the Moon Fox meat on Ado's back into the item box.  
After that, we return to the staircase together.

{} (´•\_•` ) {}

## Chapter 32

After eating the Moon Fox with Ado.

「Ado, what happened to the Moon Foxes?」

「Several escaped~ Gaooning all of them was too troublesome~」

What a reliable answer.

It seems they had overwhelming numbers.

Ado-san, you are strong after all.

If that's the case...

Didn't Ado's level raise considerably?

Appraisal-san, please.

-----  
Name: Ado

Race: Hell Earth Dog-Human

Level: 7

Description: Demi-human. A monster that became human by mutation. Ancient species.

Able to use fire magic.  
-----

Oou...

Although her level was 1 just recently.

She already overtook me...

Ado's growth is so fast.

Goshujin-shama is happy.

I should check my level just in case.  
-----

Race: Baby Vampire

Level: 5  
-----

Yosh!

As usual, no change.

It's not particularly a Yosh, but Yosh!

Not changing is good.

But, this reminds me about the tortoise skill.

I can't see the skills in appraisal, but let's try the『Harden』.

I think the use is the same way as Blood Bone Alchemy.

Because the image of the skill flowed inside my head when I acquired it, I shouldn't be wrong.

Well then, let's give it a try at once.

Go!

「Harden」

Mishimishimishi Mishimishimishi  
My skin color changes to gray.  
As if I have changed into a stone statue.

「Go, goshujin-shama... became a stone」  
Poton  
A meat falls down from Ado's mouth.  
She stares at me with her eyes open wide.

「Ado, no need to worry. This is a skill」  
「Amaz~ing~ Goshujin-shama. So cool~」  
Is that so?  
I'm certainly like a statue, but... is that cool?  
Should I strike a pose?  
A little bit stylish.  
Modelish.  
Should I freeze in a pose while walking?  
Well then, a signature pose.  
「Goshujin-shama~ You look like a hero~」  
Ado's eyes sparkle.  
I will get embarrassed if you praise me so much.

However, this is not the time to strike poses.  
I'm sure my defenses raised with the change of appearance.  
Let's try it.  
「Ado, won't you punch me lightly. I want to test the change」  
「Ye~s」  
Ado spins her arm around.  
Then I remember.  
Ado is an owner of a power that can hunt Moon Foxes while on a stroll.  
Isn't this dangerous...  
I may get fatally injured if I let myself get hit.  
Ado also looks quite motivated.  
She thinks of me as a hero.  
Don't overestimate me.  
Let's tell her to be careful just in case.  
「Ado, gently, gently. Just lightly, slightly poke me」  
「I understand~ Coming~」  
「O, ou」  
「Ei」

Dogon Dododododododododododododododododo Zudon

I was blown off and destroyed every tree in ten-meter radius.  
I have created a road just like that tortoise.

Rather, Ado-san is ridiculously strong.  
That surprised me.  
I thought I was going to shatter into thousand pieces.  
Literally.  
How~ever.  
Thanks to the『Harden』skill, I have not received any damage.  
I feel tingling, but no pain.  
This skill, isn't it quite useful?  
Though it's not clear from the name, it may be absolute defense skill?

「Goshujin-shama~ Are you ok~ay?」  
Oh.  
Ado happily rushes over.  
I'm alright.  
「No problem. It doesn't look like I have received damage」  
「As expected of Goshujin-shama. Even though I punched slightly harder」  
You really did it Ado.  
I felt like that wasn't gentle punch.  
Thank you, skill.  
I cancel the skill and return to normal.

「Ah, Goshujin-shama returned to normal~」  
「I have canceled the skill」  
「Do it again~ Do it again~ Please~ Goshujin-shama」  
Ado shakes her ears and tail.  
Kunkun Kunkun  
She rubs her cheek against mine.  
Can't be helped, since you want to see it that much.  
But, getting blown off again is a little...  
However, there's something I'd like to try.

「I understand. Okay, but wait a little」  
「Ye~s」  
I load a Moon Bullet into the revolver and shoot myself.  
I can understand that my body became light and my physical ability increased.  
Then, I activate the『Harden』skill.  
I want to confirm the influence of physical strength.  
Can I be under the two effects at the same time?  
Or does only one apply?  
An investigation is necessary.  
「Wa~ Goshujin-shama~ Became a stone again~」  
「Right. Then Ado, punch me again. Same strength as before is alright. Gently, okay?」  
「Ye~s, here I go~」  
Ado spins her arm around...  
「Ei」

Dogon Dodododododododo Zudon

O, oou.

I was blown away again, but only three meters.

The distance decreased considerably.

It seems my defenses leveled up considerably after using the Moon Bullet and Harden together.

Looks like the effects stack up.

I'm glad.

I think that.

If by any chance the effects negated each other, it may have ended quite dangerous for me...

...

...

...

I don't mind that it's over.

「Goshujin-shama~」

Oh.

Ado comes over.

「Goshujin-shama~ Crafty win. Even though I have punched more than before, Goshujin-shama didn't fly at all~ Gusun」

Ado...

Again?

I was slightly suspicious.

Because I have heard an exploding sound at the moment of impact.

「By the way, Ado. Can Ado defeat a Moon Fox with that punch from now?」

「I can~ If I Dogon them a few times~」

Fufufu.

I see, I see... I'm glad.

Apparently, my defenses are higher than Moon Fox's.

Like this, I may be able to stay alive in this jungle.

A peace of mind for the time being.

You have to start from the defenses after all.

Defenses are the most important in any game.

Ado flaps with her hand.

It may have damaged her hand.

「Are you okay, Ado?」

「A numbness came to my hand~」

It would be better to cool it off in water.

I retrieve a water container from the item box.

Since I was thinking about selling the salt, I have brought quite a lot of water.

That water is essential.

「Here, you can cool it off with this」

「Thank you~」

Ado cools her hand.

I drink some water.

Hie~~ so cold.

Comfortable coolness!

It preserved its comfortable temperature in the item box.

This is a convenient cheat item.

This water tastes like a fresh, natural water.

Quite good for a journey.

[] (´•\_•`) []

## Chapter 33

「Well then Ado, I think it's time to capture the 49th floor」

「Ye~s」

「I think you must have explored a considerable amount of this floor, have you found any strong enemies? Someone you think you can't beat?」

「Uun. About that... I don't know」

I see, I see.

She doesn't know.

Can't be helped in that case.

But, since Ado was able to go on a stroll two times, it may not be that dangerous.

「Let's take a stroll around here first. Ado, will you let me on?」

「Ye~s」

Boron

She entered the beast mode.

I get on Ado and she runs to the jungle.

Sasa Sasa Sasa Sasa Sasa Sasa

After we run into the jungle, a Moon Fox appears.

I appraise immediately.

-----  
Race: Moon Fox

Level: 4

Description: A fox averaging approximately 4m in size. It has a strong physical strength and uses body strengthening magic.

Hunts prey cooperatively in a group.  
-----

Level 4, huh.

They looked strong when I first saw them, but...

I have already eaten them.

I saw their corpses so they don't seem that strong anymore.

Although I wasn't the one to defeat them, but Ado.

「Guruaa! Kyankyan」

The Moon Fox ran away at an unusual speed after it saw me.

Fufufu.

Is it frightened of me?

I may have a strong person aura.

tte.

It probably ran away after seeing Ado.

Since she's strong enough to burn a fox den all by herself.

「Goshujin-shama~ Chase?」

「No, it's alright. Let's continue strolling. I want to look around as much as possible. Let's look for a source of water first」

「Ye~s」

Sasa Sasa Sasa Sasa Sasa Sasa

I run around the jungle on Ado's back.

I occasionally see Triceratops Tortoises, but we haven't come across any other monsters.

While casually strolling in the jungle.

Zaza Zaza Zaza

Several footsteps are approaching us.

These footsteps are familiar.

It's a pack of Moon Foxes.

They may have come to take revenge for the den Ado has burned down.

「Goshujin-shama~ What to do?」

「Ambush, huh? There's a bullet I want to test out. I also have that skill, there is no problem」

I also need to see Ado's strength.

That is the main reason.

「Understand~ It's a war~」

「To an open wide place, please. My bullets will be blocked by obstacles」

「Then, this way~」

Sasa Sasa Sasa Sasa Sasa Sasa

We arrived at an open grassy plain after running for a while.

There are no obstacles here.

Ado stops in the middle of the grassy plain.

Moon Foxes emerge one by one from the jungle.

Alright.

I appraise every one of them.

First one.

-----

Race: Moon Fox

Level: 4

Description: A fox averaging approximately 4m in size. It has a strong physical strength and uses body strengthening magic.

Hunts prey cooperatively in a group.

-----

Hey, hey.

There are still more of them coming out, but...

Isn't this too much?

It doesn't stop at all, though.

My vision is covered by appraisal screens.

-----  
Eight one.

Hunts prey cooperatively in a group.

-----

Fuu~ it finally stopped.

I'm glad it already ended.

My view is buried by appraisal screens.

But... isn't this quite dangerous?

Yeah, dangerous.

There are 12 of them.

Although I intended to fight...

As expected, it may be dangerous to fight against this many.

「Goshujin-shama~ Ado is ready any time」

You are totally motivated, Ado.

The invincible Ado-san.

I'm not so much in the mood, though.

Then.

「Garurururururururu」

When one of the Moon Foxes howls, everyone bows down.

Towards me and Ado.

They touch the ground with their heads.

We totally look like being worshipped.

This scene... haven't I seen this somewhere before...

Right.

I remember Earth Dogs doing the same thing.

「Ado, do you know what that means?」

「It seems they want to become Goshujin-shama's subordinates~」

After all, huh.

That was it, huh~ this scene.

Every fox is rubbing its head against the ground.

By the way, the strongest, level 8 did the howling.

I think it's the leader of this group.

「What to do~ Goshujin-shama. Should I Zudon them?」  
Nonono.  
Don't try to do something so dangerous.  
Not having to fight is better.  
By the cute expression Ado is making, I can tell she ready to fight at any time.  
「I think about accepting these guys. Ado, how do I tell them?」  
「It's alright~ You just have to pat the head of the biggest one」  
I, is that so~  
That may be a rule of the beasts.  
A patting of obedience ritual?

「Goshujin-shama~ Let's go」  
「Ou」  
When Ado gets approaches the Fox boss, kuikui it brings its head closer.  
It looks like it wants to be patted.  
The 4m dinosaur of a fox? looks actually quite lovely.  
How strange.  
With that, I pat the Fox boss'es head.

「Kuo~n, kuo~n」  
The Moon Fox cries out.  
「Ado, is this alright?」  
「Un. Alright~ Goshujin-shama~」  
I see, I see.  
I'm glad the communication transmitted.  
It seems I have avoided a fight.  
「It asks if you'd like to visit their home」  
Mumu.  
Quite a good proposal.  
I was wondering where we should sleep on this floor.  
「Well then, let's accept that proposal」

I and Ado follow the Moon Foxes to their den.

[] (´•\_•`) []

## Chapter 34

Moon Foxes led us to a hole in a rocky place.  
This is apparently their den.  
I suddenly remembered that Ado recently burnt down a den and stealthily asked her.  
I was told「I don't know this place~」.  
It apparently was a different den.  
There may be several dens on this floor.  
I'm glad.  
If this was the very den Ado has burnt down, it would be quite uncomfortable.

Kuikui  
We enter the depths of the den at the fox's urging.  
Chilly~  
It's quite a cool place.  
There are a lot of fruits and meat in the cave.  
In addition, I see several new Moon Foxes.  
It seems that the group is larger than twelve foxes.  
Maa, they can't leave the den empty, can they?

Kuikui Dosa  
A meat was brought in front of me.  
Wondering what meat it is, I appraise it.

-----  
Others: Moon Bear's meat  
Description: A meat with a lot of fat. Good in a hot pot dish.  
Has a slight strengthening effect.  
-----

Oou.  
It may be meat from the Bear-san we saw before.  
That blood covered Kuma-san, huh...  
「Goshujin-shama~ Are you not eating?」  
It seems Ado is waiting for me to start eating first.  
She's looking at the meat greedily.  
「No, I will eat immediately」

Gabu Chiyu Chiyu  
Uumu.  
A mild taste. The fat is delicious.  
The meat melts the moment it enters my mouth.  
Mushamusha  
I suck the meat, but it looks like the foxes are waiting for something.  
I can feel everyone's gaze.

I ask Ado next to me who is stuffing her cheeks in high spirits.

「Should I do something?」

「Nn? Maybe they want a symbol of a friendship~」

A symbol, huh~

They may want something similar to Ado's collar.

I can make it with the alchemy, but...

Wait...

A symbol?

Since I'm a vampire, I may be able to do that thing.

Maybe they can become members of my followers if I bite them?

Biting a person and making them your follower is vampire's special trait after all.

Yosh!

Let's give it a try.

「The Moon Fox over there, come here」

I call the leader of the group.

「Me?」The fox is looking at me with such expression.

「I will now bestow you with a proof of subordinate. Don't move」

「Kuu~n」

My intentions probably transmitted.

Rather, I thought so with Ado, but it seems the monsters are unexpectedly able to communicate with me.

Although the weakness is that I don't understand what the opponent is saying at all.

Gabu Chiyu Chiyu

I bite at the fox's neck and pray『Become a follower~』『Become a follower~』.

Drinking a living being is quite tasty.

Then.

Oh.

Something has happened.

【Moon Fox has been added to the Family】

【Because there is no name, please decide on one】

Voice of the god-san.

Long time no see!

I have completely forgotten about you.

A name, huh~

To come up with a name all of sudden.

Uun.

What to do?

Since he is a moon fox and a boss of the group, Tsukitarou?

【Tsukitarou registered】

Oh.

I have answered without thinking too much.

Oh, well.

「Thank you very much. What is your name?」

Nn?

The Moon Fox in front of me suddenly started talking.  
Even though, it went「Kuu~n」and「Gururu」until a while ago.

「Tsukitarou, you can talk?」

「Are? I really can. It seems I became able to just now」

A follower privilege?

Then...

Ummm... my name, huh?

Since I told El Jiisan that I'm Tokugawa, let's go with that.

「I'm Tokugawa」

「I understand. Tokukawa-san is it?」

Ouu.

It was said wrong.

It's a not so popular name even in Japan after all.

「That, Tokugawa-san」

「What is it?」

「Would it be possible to receive something? A symbol of friendship」

Let's see~

Certainly, it will be hard to tell the Moon Foxes apart.

Some kind of mark is necessary.

Eei.

In this case, I will create collars for everyone.

「I understand. I will prepare immediately so wait for a few」

「Understood」

I take out a blood and bones from the item box.

「Blood Bone Alchemy!」

Powan

「Tsukitarou」a collar with a name was created.

「Would this be all right?」

「Waha. Thank you very much」

Tsukitarou receives it politely.

When Tsukitarou withdraws behind, the other Moon Foxes look at it enviously.

Their ears and tails shake.

It feels quite weird when a group of 4m does that.

「I understand. I will add everyone to the family. Form a line」

Zaza Zaza Zaza Suton

A line has formed before me immediately.

The fox in the front presents its neck.

Good gracious.

This may be quite tiring.

## Chapter 35

Hello!

It's Baby Vampire Tokugawa.

This may sound abrupt, but are you aware of play biting?

That thing where a dog or a cat lightly bits you to show love.

Maa, that's not much related, but.

Recently, I have been biting the big foxes.

Like Gabu Gabu.

I'm Tokugawa who bites everyone regardless of the gender.

Finally, 20 Moon Foxes were turned added to my family.

Because everyone didn't have a name, I had to name them during the biting.

Maa, they became a Tsuki number series, though, for example, Tsukijirou, Tsukisaburou, Tsukishirou.

I became exhausted and went to the bed right after that.

I was fast asleep as if I had lost consciousness.

Making followers may be draining quite a lot of stamina.

Peropero Peropero

Mumu.

That tickles.

Peropero Peropero

What?

I feel flickering pressure on my cheeks.

「Goshujin-shama~ Goshujin-shama~」

I hear Ado's voice.

When I open eyes anticipating to see Ado licking my cheeks again...

In front of me... a huge kitsune? ... A Moon Fox.

Hiyoeeeeeee!

Ueeeeeeeeeei!

A 4m fox is licking me.

Rather, am I not going to get eaten?

「Uo」

Sasa Touu Dosa

I immediately separate from the huge fox.

「Goshujin-shama~ Over here」

When I look towards the direction of the voice, I find Ado on top of the huge fox.

The dog-eared Ado is riding on a fox's head.

It looks like the fox grew one more ear.

「What's up, Ado」

「Ado~ Just came back from a stroll~」

「Is that so? Then, what happened?」

「A found a lithograph~ Here, this~」

Hyo!

Oops.

I catch the lithograph Ado threw at me

This is... certainly a fragment of the lithograph.

It's similar to the one we found near the 50th floor's gate.

Let's appraise it first.

-----  
Others: Fragment of the lithograph of fire 1/4

Description: Something good may happen if you collect them all.  
-----

Oou.

It's the fragment after all.

It's similar to the bird-like one from before.

Let's compare it with the one in the item box.

Sukusuku Kachi

Ah.

It fits in.

It fits in tightly.

It seems the fragments we have collected until now create a top half of the picture.

I see a bird-like figure.

We have to find two more.

I wonder what will happen after we find all of them~

「Goshujin-shama~ Was it a good thing?」

「Yes, Ado. A treasure. Outstanding discovery」

「Ehehee~ I was praised by Goshujin-shama~ Ehehee」

Ado rolls with a grin on top of the Moon Fox.

With a tremendous balancing power that won't let her fall down.

Leaving Ado aside, just where are the other fragments?

I'm interested.

「Ado, where did you find it?」

「Ummm. Uun. In a place with a lots of stones」

Hoo.

What a suspicious place.

There may be more important items.

「Can you take me to the stone place now?」

「Un. Sure thing」

Wondering how I will get there...

Zaza Zaza Zusaa

The Moon Foxes lower their heads rushingly in order to appeal.

A fox riding platform.

While choosing which fox to ride...

Suton Chokon

「Goshujin-shama~ Over here~」

Ado lowers her head and appeals in the beast mode.

Ado is number one after all.

I choose you.

「I know」

Sasa

When I got on Ado's back, the Moon Foxes seemed slightly lonely.

It may be a good idea to ride them later.

「Let's go, Goshujin-shama~」

「Take care of me」

Sasa Sasa Sasa

Ado starts running.

Sasa Sasa Sasa

When we arrive, rather than a stone place... a pyramid?

An archeological site in a jungle.

What?

Mayan-like feeling?

Darkish stones piled up.

There seems to be an entrance at the top of the stairs.

「Ado, where did you find the lithograph?」

「Ummm~ That place~ On the top of the stairs」

Hoo.

Just around the entrance to the pyramid.

That is quite questionable again.

「Can you go there?」

「Un」

Sasa Sasa Sasa Sasa

Ado runs to the top of the pyramid.

There's a broken statue near the entrance.

It looks like a person, but since it's destroyed I can't tell clearly.

Did some adventures of the past venture up here and built this?

It doesn't feel man-made for some reason.

At such times like this, it's that.  
Appraisal-san, please.

-----  
Others: Temple of the Warriors

Description: A temple built in memorial service for the fallen warriors. Currently not operational.

-----  
Mumu.  
It's pyramid-like place after all.  
In other words, a cemetery.  
This may perhaps be the largest cemetery in the world.  
「Goshujin-shama~ It was right over here」  
Ado points at a partially destroyed bronze statue.  
Seems like an elephant-man...  
There's nothing else interesting.  
「Are we going inside~?」  
What to do?  
I'm so interested it bothers me.  
I don't think this is connected to the 48th floor.  
In other words, a detour.  
Go in, withdraw...

....

....

Go in.  
I'm not particularly in a hurry.  
There may be some treasure inside.  
「Ado, let's go inside」  
「Yatta~ So exciting~」  
「Carefully, okay? There may be traps inside」  
「Ye~s」

I get on Ado and we enter the pyramid.

{} (´•\_•` ) {}

## Chapter 36

「It's full of dust~」

「Yes, nobody may have been here in a while. Oh, it's collapsing there」

Hyoj

Ado jumps over the hole.

That hole looks quite deep since I can't see to the bottom.

It may even be connected to the 50th floor.

After advancing for a while.

「Goshujin-shama~ Crossroads」

「Really」

The road is divided in two, right and left.

Which way to go?

The right road is slightly worn-out.

The left road is considerably worn-out.

There's no other difference.

It will most likely not change no matter which road we take.

I thought about deciding properly, but... I give up.

Wait.

I have magic.

In that case, there may be another way to decide besides intuition.

「Let me down for a minute」

「What's the matter~? Goshujin-shama?」

「There's something I'd like to try. I may be able to understand this building's structure if I spread magic through it」

Suta Peta

I stick my hands on the floor and let the magic flow through it.

First, let the magic loose...

Oh.

There it is.

I found the magic circuit.

Although the appraisal said that it's not operational...

Magic is still flowing through the circuit.

How suspicious...

It may be a hidden dungeon-like place.

When I pour magic and pursue the source of the magic in the circuit.

Tsu~n Tsu~n Tsu~n

It seems one of the rooms is the source of the magic.

Magic is being released from inside the room.

Then... the destination has been decided.

Of course, it's that room.

There may be some treasure.

「Ado, let's go on the right road. I may have found a treasure room」

「Amaz~ing. As expected of Goshujin-shama~ You are like a detective~」

Hyo!

I get on Ado again.

「If we come across a crossroads again I will tell you where to go. I have roughly remembered the route」

「Underscha. Then~ I'm going~」

「Ou」

asdadasda

Sasa Sasa Sasa Sasa

We advance smoothly and arrive in front of one room.

「Goshujin-shama~ Is it inside this room~?」

「Yes. I can sense strong magic from inside that room」

「Opening~」

「Go ahead」

Tote Tote Giii~batan

Ado opens the door with her forelegs and walks in.

The room is dark, but it seems considerably spacious.

A few steps forward...

Bowa Bowa Bowa

Flames gradually light up and the room becomes bright.

Looks like a stage for a boss fight.

「Fuhahahaha~ Good job on getting here, Hero! Now then, are you able to win against me?」

The sudden laughter belongs to... a ridiculously huge dragon!

Nonono.

It's genuinely huge, though.

The size of four houses.

Maybe even bigger than the Triceratops Tortoise.

「Goshujin-shama~ It's a dragon deshu~ Dragon deshu~」

Ado seems excited.

It's a dragon.

That's certainly exciting.

But.

We are no heroes at all.

Rather, we are the complete opposite.

I'm a Baby Vampire.

Ado is demi-human of ancient times.

「Hoho~u. What's wrong, hero? Are you intimidated by my voice?」

The dragon looks very satisfied.

Rather.

This dragon is casually talking.

Seems like strong monsters will develop a conversation skill after all.

Then, I must clear up the misunderstanding.

「That, excuse me. We are not heroes or anything, though」

「W, what... are you trying to trick me? I won't fall for that trick」

「Nono, I'm a vampire, Ado over here is a demi-human. We are both monsters」

「Ado is a Hell Earth Dog-Human nodeshu」

「T, that can't be... But, coming to this temple means that you are a Monster Hero, isn't that correct?」

What?

A Monster Hero...

It seems that Dragon-san in front of me is set on making me a hero.

「Nono, it's the truth. We came to this temple only by a chance, I was born on the level below. Just recently」

「Right nodesu~ Goshujin-shama is not a hero nodesu」

「Nu, that presence really seems to be that of a monster」

「Yes. I'm glad you understand. After appraising... it weren't supposed to be operational so we didn't expect to find someone. In addition, The Transfer Gate below is broken」

「Nu, really? Is what you just said the truth? Are you not lying?」

「Yes」

「So that's why nobody was coming... Because nobody was coming all this time, I thought a lot about it. I was thinking of leaving this place and searching for the hero myself」

「That is very... terrible」

Apparently, this place is a place of trials for heroes or something.

But, for what reason does this dragon waits for a hero?

「Dragon-san, why are you waiting for a hero?」

「Nu, that is my mission. To wait for the strongest warrior and ascertain their strength, that is my fate」

「Is that so, then, it seems to be unrelated to us. Please, excuse us」

Sutasuta Sutasuta

When trying to leave the room.

「What a moment」

「What is it?」

「Where are you heading to?」

「We are aiming towards the Transfer Gate at the 40th floor」

「In other words, leaving the dungeon?」

「Maa, that may be quite possible」

「Good. Then, I will accompany you」

「Eh」

Why?

Rather...

I think that such monstrously huge creature won't be able to leave the pyramid, though.

「I think that you would slightly stand out」

「Nu, rest assured. I can transform」

Boshu Chokon

Once the huge dragon disappears, what appeared is...

A small green dragon.

A baby dragon with a bobbing tail.

Ara, kawaii.

Let's try appraising for a bit.

-----  
Race: Ancient Green Dragon

Level: 67

Description: A 1,000 years old Dragon. Ancient species.  
-----

Hiyoeeee.

Uwa...

So amazing I ran out of breath.

A level 67.

That's a huge difference between the highest level I've seen so far.

Moreover, another of Ancient species...

Ado was quite strong from level 1.

The dragon in front of me may be ridiculously strong.

「Nu, you are appraising me」

Crap.

Appraisal has been discovered.

It may know because of the high level.

I cancel the appraisal at once.

「I don't particularly mind. Many heroes appraised me before. But you, a monster with the appraisal is rare. What is your name?」

「Tokugawa」

「Nu, Tokugawa, huh~ That is also a not heard before name」

「Goshujin-shama is Goshujin-shama~」

Thank you, Ado.

When I pat Ado's head.

She happily moves her head in synergy with my hand.

「An Ancient species like me under a Familiar contract... how interesting」

「Yes, it turned out that way」

「Goshujin-shama~ Goshujin-shama~」

「What's wrong?」

「My stomach is growling」

Nonono, Ado-san.

Because I wanted to talk with Dragon-san, I'd like if you could bear it for a while.

「Goshujin-shama~ Growling」

However, I'm not able to leave Ado with her tail down alone.

My heart is being tickled when I look at her teary eyes.

「Can't be helped~ Excuse me, Dragon-san」

「Nu, it's alright. I have waited for dozens of years. I can wait for a few minutes」

With the dragon's permission. I retrieve a grilled Ayuyu from the item box and hand it to Ado.

「Yatta~ I love this. So fragrant~」

Paku

Mushamusha Mushamusha

Gokuri

「So delish~」

Ado looks happy.

Since grilled Ayuyu is our favorite dish, I have packed many in the item box at El Jiisan's.

Because the item box is able to keep the freshness and temperature, we can eat it at any time.

By the way, El Jiisan also said「Leave some grilled Ayuyu behind by all means」, so I left him with a few pieces.

「Nu, you, that smells quite nice. Give me also one. If you do that, I will also agree to the Familiar contract」

Eeeeh!

Ueeeeei!

Are you serious?

Dragon-san.

Such strong monster becoming a familiar?

「Are you sure?」

「What, I was just getting bored with this place. Going outside may not be bad. I will be expected food as compensation, though」

Apparently, it's tempted with food.

Dragon-san is also unable to win against appetite.

「Of course」

「Nu, let's make the contract then」

【Create a Familiar contract with Ancient Green Dragon?】

Oh, it's the god's voice.

I didn't hear it with Ado, seems to be different this time.

The answer is of course, an OK.

Quickly before the other party changes its mind.

【Familiar contract completed】

【Because there is no name, please decide on one】

Again...

Monsters may fundamentally have no names.

「Umm, Dragon-san, do you have a name in mind?」

「Not in particular. You can decide as you like」

「Then... Ancient Green Dragon-san」

「Nu, isn't that my race? Are you making fun of me?」

Crap.

Dragon-san is glaring at me.

「Nono, not at all. Well then... How about En?」

「Nu, sounds good. En, nice, a good name」

It seems dragon-san likes it.

Temporary relief.

Then, voice of the god-san.

Let's go with En, please.

Since dragon-san has given the consent.

【Name was set to En】

Fuu~

It seems the Familiar contract is completed safely.

Like this, the Ancient Green Dragon joined my family.

{} (´•\_•`)

## Chapter 37

When I hand the Ancient Green Dragon En-san the Ayuyu.

Paku

Mushamusha Mushamusha

Gokuri

「Umu umu. The raw material matches with the salt exquisitely. I can't get enough of the fusion between Ayuyu and salt」

En-san starts talking.

Indeed, a thousand years old dragon is fussy about food.

En-san eats joyfully with melting cheeks.

「Lord, do you have more? Things like this?」

Ah.

The way it calls me changed.

From Tokugawa-san to Lord...

It may have recognized me as the main.

「Nothing else in my item box beside some monster meat」

「Nu, that is bad. It's necessary to be devoted to food everyday」

It's not Heroes Trial anymore, but Chef Trial instead.

But, the quality of the food is important.

I have to fulfil the clothes, food, and house.

「I will be more careful. Apart from that, En. Magic is overflowing from this room, do you know about it?」

「Nu, if it's magic then... it's that thing」

Tekuteku Tekuteku

En walks towards an altar and picks up a cup?

A cup leaking a light smoke?

「En-san, this is?」

「Magical Goblet. I was supposed to hand this to the hero who beats me」

Hee~

What is this wonderful item?

The aura around it is different.

「What kind of effect does it have?」

「Almost infinite magic restoration. The water in the goblet decreases to some extent on use so it's necessary to wait between uses」

What a convenient item.

An indispensable item for a mage.

I'm also a sage's disciple for once...

「You can have it if you want. I don't need it. Hero will also not come to this place」

「Is that okay? Wouldn't it be necessary if you meet the hero outside?」

「Nu, it's okay. I have few more items. This is not that valuable to me」

Panpan, En-san claps on the bag around its waist.

En-san has one too... an item box.

Cause it's convenient.

「Well then, I will gratefully accept it」

「Nu, respect me」

「Yes」

I store the Magic Goblet inside my item box.

sadasdfasfdasdsadasdasdasdasda

I get out of the pyramid on Ado's back.

Dragon En-san is flying nearby.

Flying looks so convenient.

「What will you do now, Lord? Going directly to the 48th floor?」

With Ado and En-san on my side, that would be quite possible.

We have met only a few monsters so far, but I don't think these two would loose.

「Let's do that? En-san, do you know the way to the 48th floor?」

「.....」

Are?

A silent response.

I was certain for an instant reply, but En-san is playing ignorance.

「That... En-san. The way to the 48th floor, are you aware of it?」

「I don't know. I came here using the 50th floor's Transfer Gate」

Seriously?

Are, monsters can use them too?

I was under the impression that it's human exclusive.

But, if I think carefully about it...

I'm a monster and I thought about using the Transfer Gate on the 40th floor.

It's a good thing that it's usable by monsters...

Rather, wait a moment.

I did not think about this, but...

If I use the gate on the 40th floor and appear at the entrance of the dungeon...

Wouldn't the people at the gate be surprised?

『A monster attack!』something like this.

I may get attacked by humans.

....

....

Maa, the gate is on the 40th floor... that's quite the distance.

I can think about it slowly.

The problem now is, how to get to the next level.

No choice, but to blindly look for the entrance...

「Goshujin-shama~ Goshujin-shama~」

「What's the matter, Ado?」

「Kitsune-sans are calling us~」

「Houu. Are moon foxes also obeying you? Good going, Lord」

There's certainly a pack of foxes in Ado's line of sight.

Did something happen?

Everyone looks restless.

「Ado, quickly go to them」

「Un, coming~」

「Lord, properly introduce me, all right?」

「Leave it to me, En-san」

You worry too much about little things, En-san.

En-san might be worried about the communication since being hikikomori for so long.

asdasdasdasdadsa

Sasa Sasa Sasa Sasa

When we approach the foxes.

「Tokugawa-san, Tokugawa-san, it's terrible...」

The Fox boss Tsukitarou says flustered.

What happened?

When I ask about the reason...

「In the back... Isn't that the supreme ruler-sama...」

Tsukitarou gazes behind me.

The Ancient Green Dragon was apparently noticed.

Although it's a baby dragon right now...

They may have sensed it from the aura.

「Yes, it became our companion. I would like you to get along well」

「I don't dare. A respect must always be shown to the supreme ruler-sama」

「Nu, good attitude. Respect me」

「Waha~」

Tsukitarou lowers its head.

En-san's influence in this jungle might be quite high.

Enough to be called a supreme ruler-sama.

「Tsukitarou, you said there's some trouble?」

「Yes. In fact, the Triceratops Tortoise came to the den...」

Triceratops...

That huge tortoise, huh...

That bulldozer who destroys every tree.

「Did it perhaps attack?」

「Nono, it has lied down to sleep and blocked the entrance to the den. We are troubled because we can't enter」

「That is... terrible」

It's a tortoise boasting with of defense after all.

Above all, it's huge.

And hard... probably.

「It will surely leave soon, why not wait?」

「Lord, that is not the case. The Triceratops Tortoise can nap for a year」

「Yes. It's like supreme ruler-sama says. The ones left behind in the den will starve to death」

「Goshujin-shama~ It's serious~」

Certainly.

As Ado said, it's serious.

I don't want to see my followers die right in front of me.

But, what should I do?

It would be best if it woke up and moved aside, but...

How?

「Lord, leave it to me. It's a simple task for me」

「Really? En-san」

「Nu, don't make light of me. I will show you my strength」

You are full of motivation, En-san.

Well then, I will have En-san show me En-san's strength.

No matter what, En-san is a level 67 Ancient Green Dragon after all.

「En-san, I will be troubling you」

「Leave it to me. Lord can prepare me a meal for reward. The grilled Ayuyu was delicious」

「Yes, Well then, Tsukitarou-san, shall we go?」

「Waha, this way」

We hurry towards the den.

{} (´•̀•̀´) {}

## Chapter 38

「It really is huge after all~ The Triceratops Tortoise」

「Deshu ne~ Ado is also surprised~」

「Nu, it's no trouble for me」

We were looking at the monstrously huge tortoise.

-----  
Race: Triceratops Tortoise

Level: 7

Description: A huge tortoise averaging approximately 10m in size.

Because of its high defence shell, it receives damage only scarcely.

-----  
This guy is the same level like the one I have appraised before.

It may be the same Tortoise-san.

It's blocking the den entirely.

Because the den is a chilly place, it may be just the right place of rest for the Tortoise-san.

It seems comfortable.

「Tokugawa-san, please. Save our people inside」

Tsukitarou-san says to me flustered.

Ado burning down the den and Tortoise blocking the entrance may be the same trouble.

Kitsune-sans have quite a bad luck.

「Leave it to us. Well then En-san, I'm leaving it to you」

「Nu, I understand. Everyone, get away from me. I will be returning to my original form」

Apparently, En-san is going to turn back to that huge dragon.

We quickly evacuate.

Powan Dodododododo

Ancient Green Dragon makes the appearance!

「Waa~ Dragon-san deshu~」

Ado says with her eyes sparkling.

It seems that Ado loves dragons.

But, what does En-san plan to do?

The size seems to be similar, but Tortoise-san looks heavier.

「Behold the extent of my power!」

Basa Basa

En-san rises to the sky... builds up momentum... and assaults the tortoise?

Zuzuzuzuzu Dododododododododo Dokka~n

To think that En-san would use a direct ramming attack.

En-san charges in a straight line.

Have you lived 1,000 years just for this, En-san?!

The Triceratops Tortoise was blown off, but the hit looked terrible.  
If the den got destroyed in the process that would be catastrophic.  
I'm worried about the foxes inside.

「What do you think of my power? Respect me」

Basa Basa

En-san says in satisfaction from the sky.

But, Tsukitarou and the other foxes desperately run towards the den.

They definitely want to confirm the safety of the foxes inside.

Seeing such delicate scene, En-san quietly descends to the ground.

Powan

En-san returns back to the small dragon form.

En-san's small feet reach the ground.

「That... En-san...」

「Nu, what?」

「You have overdone it a little. Wasn't there any other way to do it?」

「... It seems I have strained myself」

「En is amazing nodeshu~」

Ado looks pleased.

She is probably pleased by the clash of two heavyweights.

It's a scale-up of sumo.

In a little while...

Tsukitarou returns after confirming the situation in the den.

「Tokugawa-san, everyone is safe. Thank you very much」

Tsukitarou says with its raised fluffy cheeks up.

Seems there was no damage done by En-san's wild assault.

Good, good.

If there were any victims, the awkwardness would shot trough the roof.

「Nu, such thing is an easy task for me」

The relieved En-san says with a triumphant look.

Although En-san looked quite uneasy just a little while ago.

That's some positive thinking.

「Yes, we are grateful to supreme ruler-sama」

「Nu, respect me」

「Waha~」

Uh-huh.

A lot has happened, but it looks like the problems are settled.

I feel relieved.

Which reminds me, is the Tortoise alright?

Did it wake up?

I don't see any movements in the dust cloud in the distance, though...

「Nu, Lord, I request the food which was promised」

「Right, there was something like that」

En-san is cunning.

I thought the matter was definitely forgotten, but it doesn't seem like it.

Well then, what should I make...

I take a look at the ingredients in the den.

From the fruit...

Oh, there's a lemon.

From vegetables... spring onion and tomato-like vegetables.

It seems that the ingredients in this world are quite similar.

I remember a certain dish.

Let's start cooking it immediately.

I put finely chopped spring onions and fat extracted from the Moon Bear meat.

In a container, I retrieve from the item box.

I sprinkle it with Aries' salt, squeeze out a lemon juice and mix it.

With this, the sauce is complete.

Next, I soak the Moon Bear meat in water and rub it with Aries' salt.

It's necessary to soften the tough meat.

I wait until it permeates sufficiently.

Then, I heat up oil in the frying pan, then I put a slice of meat on the pan for approximately two minutes.

The heat is adjusted with Ado's fire magic.

After barbequing both sides of the meat, I pour sauce over it and it's done!

This is it.

『Special, Spring Onion Salt sauce Moon Bear!』

「En-san, it's done」

「Nu, I'm tired of waiting. Let's see, let's see, doesn't it have quite pleasing smell?」

「It's hot, please be careful」

「Ado will also eat~」

「Oh, very well」

Paku Paku

Musha Musha

Gokuri

I eat the meat with everyone.

「Nu, the Moon Bear meat is so soft it melts on my tongue. The refreshing flavour of the lemon. The difference of the sauce's temperature tickles my tongue」

Really.

En-san reviews the dish carefully.

「Goshujin-shama~ It's hot and co~ld. Delicious~」

Ado is grinning.  
I'm glad you like it.  
Paku Paku  
Gokuri.

I also start eating.  
Deliiiiiiiiish!  
It's yakiniku after such a long time.  
The taste of the soft meat and the sauce is unbearable.  
A drool comes out of my mouth while eating.  
Paku Paku Paku  
Gokuri.  
「Seconds!」  
Good grief.  
Ado and En-san seem to be greatly satisfied.  
I also want to continue eating.  
「Wait a moment, I will make more. Ado, fire please」  
「Immediately~ Coming~」  
「Nu, I can't wait」

We continued the yakiniku party.

{} (´•̀•̀´) {}

## Chapter 39

After the yakiniku party, we went right to sleep with our stomachs full.

zzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzz

Then, on the next day.

When I get up, I can hear the sound of wind.

My body is shaking.

What is it? Wondering, I open my eyes.

The landscape is moving.

Eh?

The scenery is smoothly flowing, but...

What is going on?

「Ah, Goshujin-shama, good morning deshu」

「O, ou, morning」

「Nu, finally awake. You sleepy head」

When I look around to verify the situation.

I seem to be moving on Ado.

Weird.

I thought that I fell asleep in the fox den?

Why am I on a move?

「Why am I riding on Ado?」

「The dondon Tortoise-san came~」

「Right. That tortoise has returned to the den. In order to protect everyone in the den, we have decided to leave. We are the target」

Nonono, En-san.

You say it coolly that it's in order to protect everybody.

But, isn't En-san alone the target?

Since you have blew off the sleeping tortoise quite far yesterday.

「Nu, it's right after us」

When I look back...

Dododododododododododo Dododododododododododo

A Triceratops Tortoise is certainly chasing after us.

It's moving quite fast.

It's fast walking on four legs.  
That is not the movement of a tortoise?  
That's a wild animal.  
Who was it, that said tortoises are slow...

「Lord, what to do? Keep or running? Fight?」  
I wonder?  
Can we even win?  
This fast moving, huge, tough things looks quite troublesome, though.  
「En-san are you able to win?」  
「Nu, who do you think I am? I can't lose. But, the enviroment will suffer considerable damage. Since that tortoise's defense is quite high」  
Is that so?  
It seems to really be a difficult monster to deal with.  
The skill「Harden」I stole from it also seems quite useful.  
I don't want to destroy the enviroment, though.

「It would be good to run towards the 48th floor. It would probably not chase us there」  
「Nu, true. But, I don't know the way to the 48th floor」  
「Ado, knows~」  
「?」  
I and En-san look at Ado.  
What did you just say?  
Ado-san.  
「Really? Ado」  
「Un. Kitsune-sans told Ado yesterday」  
It seems Tsukitarou and the others knew.  
Well, that's quite natural.  
It's no mystery that they know where it is since they have been living on this floor for quite some time.  
I should have asked earlier.  
「Then Ado, where is it?」  
「It's that way. Ado will guide you there~」  
「Nu, alright」  
「Ou」  
Ado dashes through the jungle.  
Sasa Sasa Sasa Sasa

We have arrived to...  
A big rocky mountain.  
But... I don't see the staircase.

Rather... the rocky mountain is crumbled.  
It may have fell apart just recently.  
「Did the entrance get blocked by any chance?」  
「It may be just as Lord said」  
「There's no road~ What to do~」

Dodododododododododo Dodododododododododo

The Triceratops Tortoise approaches us from behind.  
What to do?  
No choice, but to fight?  
「Lord, I will get the tortoise's attention. My skills are itching for a fight after so long」  
It seems like En-san wants to stall for us.  
Since En-san is a dragon-san, it will be probably okay.  
「I will be troubling you, En-san」  
「Nu, this is just a small thing for me」  
En-san with a self-satisfied look.  
What a brave, noble dragon.  
「Goshujin-shama~ Ado wants to go to war~」  
Nonono.  
Such fight between two heavyweights may be quite hard for Ado.  
I don't think that animals should participate in a Gamera vs Godzilla fight.  
「Ado will stay at home. Together with me」  
「Eh~~ Even though Ado is strong~」  
「Nu. Right. There's no need to meddle in my fight. Well then, I'm going」  
Sasa Sasa  
En-san starts running towards Tortoise-san.

Powan Dododododo Zudon

In the middle, En-san transformed to the Ancient Green Dragon and then rammed the tortoise.

Two ridiculously huge bodies collide.

The ground shakes.

Indeed, a monster battle.

I must look for the 48th floor entrance before it's too late.

Probably...

I think that it should be somewhere on this crumbled mountain, but...

「Ado. Is the 48th floor entrance around here?」

「Un. Kitsune-sans said it's around these rocks」

Then, we have to somehow remove them.

To move rocks...

Move rocks...

Let's ask Ado.

「Ado, pull up trees and stab them into this rocky mountain」

「Ye~s」

Mishimishimishi Dosu Dosu Dosu

Ado immediately runs towards the jungle, pulls out trees with her monstrous strength and stabs them to the ground.

I connect the trees with a vine.

「Yosh! Ado, that enough」

「Goshujin-shama~ What are you doing~?」

「Maa, just look. I will blow away the mountain at once. Ado, you hide. It's dangerous」

「Ye~s」

I pour magic down the vine.

This vine is connected to every tree stabbed into the rocky mountain.

I smoothly pour magic inside every tree.

Since the trees were just pulled up, they still have magic within them.

I'm using that fact.

The objective is a huge explosion.

I will pour more magic than every one of the trees can tolerate and make it explode.

A magic style dynamite.

Well then!

Doing it!

Magic unleash!

Dodododododododo Dodododododododo Dokka~n

The rocky mountain splits open.

Stones are flying around

As for me, I activate the「Harden」skill.

I ward off all the damage.

When the dust vanishes...

A large staircase appears.

Did iiiiiiiiiiiit.

Yaaaaaaaay.

It seems the entrance to the 48th floor was found.

「Goshujin-shama~ Split it open~」

「Yes, I get rid of it」

「Ado, let me on. Let's immediately call En-san back...」

While saying that.

En-san who heard the explosion is already heading this way.

It would be best to go up the stairs first.

Because the Tortoise-san is chasing En-san with a scary face.

Tortoise-san won't be able to enter with its size.

「Ado, let's go up the stairs ahead」

「Ye~s」

Powan

Ado transforms to beast and I quickly get on.

We start running towards the staircase.

## Chapter 40

After moving up on the stairs leading to the 48th floor...  
We found a girl collapsed on the stairs.  
Oou.  
A first human I see after coming to this world...  
A big black robe and a long mage-like hat.  
She is probably mage-san adventurer.  
She may have been dragged in the explosion a little while ago.  
「Goshujin-shama~ Who is she~? This witch kid?」  
Ado's question is reasonable.  
Who is this child?  
Fumu.  
It's time for that at times like these.  
Appraisal-san, your expert opinion, please.

-----  
Name: Marilyn François  
Race: Human  
Level: 31  
-----

As expected, a human.  
Level 31.  
That seems quite high for such small girl.  
I can't say anything about Ado's level 1 strength, though...  
She must be without a doubt a strong adventurer.  
Coming to the 49th floor, she must have the skill.

Kyorokyoro Kyorokyoro  
I look around, but... I don't see other people around.  
I'm sure El Jiisan said that a party of intermediate level adventurers is necessary to get to the 50th floor.  
That it should be hard for a single advanced level adventurer.  
So I thought she may have companions... but, there's no one else around.  
Why is this child alone...  
Strange...  
There's no way she's a lost child on this floor.  
There may be some reason.

「Nu, have you done in this fellow?」  
En-san says something dangerous from behind.  
It seems En-san was able to safely escape from Tortoise-san.  
As expected of Dragon-san.  
「I didn't do anything. She was like this when we came」  
「Right~ She passed on the floor~」

「I see, a human after so long. Quite young by the looks. May be a human child. What you plan to do about this fellow? It may be attacked by other monsters if you leave it here」  
That's very likely.  
I just can't leave a collapsed child alone.  
But, even so, this is my first contact with a human in this world.  
I have to be careful.  
I don't know what kind of attitude humans have towards monsters...

「She's does seem to be breathing, let's carry her. I think she will wake up soon」  
Since the appraisal is still showing「Race」, I don't think she's dead.

I can't leave her unattended after all.

「Ado will carry her~」

「Ah, please. You will have to carry two, will you be okay?」

「Ado is strong~ Strong~」

Paku Hyoui

Ado tosses the girl in the air and catches her on her back.

The girl is lying in front of me.

Well done!

「Then, let's continue upstairs」

「Un, I'm looking forward the next floor~」

「Nu, me too. In fact, I have never been on the 48th floor」

En-san's field of activity is way too narrow.

Maa, since En-san came through the Transfer Gate, En-san probably didn't even bother about other floors.

「I'm going~」

「I'm good anytime」

「Well then, let's go」

Ado starts vigorously running.

Sasa Sasa Sasa Sasa

Going upstairs... we came across a somewhat small hall.

A cave with the sandy ground.

Judging from the size alone, this doesn't seem to be the 48th floor.

Then, what is this place?

A space between the 48th and the 49th floor.

That leaves one possibility... a room of the floor master.

It wouldn't be weird if there was a boss room at the end of each floor.

Since we are going the opposite direction... it feels quite odd.

「Lord, this room... is slightly reeking of blood」

「Ado also thinks so~ There may have been a fight」

I sense it clearly.

Because I'm a vampire, my blood sensing is wonderful.  
Those senses are whispering me about the presence of blood.  
「Let's look around a little」  
「Nu, leave it to me」  
「Ado will also look~」  
We look around the room.  
En-san checks the 48th-floor side.  
Ado checks the center.  
I check the 49th-floor side.

『Looking around』

『Looking around...』

Several minutes later.  
「I didn't find anything」  
「Ado too~ It's empty~」  
「Me too」  
Because the walls and floor is broken, a battle was definitely fought here, but...  
That's all.  
There's nothing else.  
The girl on Ado's back may have defeated the boss? of this room.

「Uun, ah...」  
An unfamiliar voice.  
Oh.  
The girl on Ado's back.  
It seems that Marilyn has woken up.  
The girl restlessly looks around in order to confirm the situation.  
Then, she immediately sees us.

Sasa Sutan Kishin  
She jumps down from Ado and wields her staff in a battle ready pose.  
Swift movements. As expected of an adventurer.  
However, she's looking around restlessly and shaking as is suitable for her age.  
「Wawawawa... bad monster-sans and nude child? nanodesu... I'm not tasty nodesu」  
It seems that she has instantly recognized us as enemies.  
Maa, can't be helped.  
We are a Vampire, a huge dog, and a small green dragon after all.  
But, let's try calming her down since we are not enemies.

Rather, I.  
I'm not wearing clothes.  
Because I'm living the monster life (completely nude?), I have never worried about it so far.  
Maa, no one has complained so far.

「Nono, you are wrong. Calm down, please. We are not your enemy」

「Right deshu. Goshujin-shama is kind nodeshu」

「Nu, me too. I'm the kindest among this lot」

She looks at us nervously.

En-san tries to appeal its kindness for some reason.

You don't have to try so much...

「N, no way... the monsters are speaking... In addition... all of them are unknown to me.

Wawawawa, what to do~? They may be high level races~ they may be from levels below~」

The girl starts trembling like a jelly.

Her staff shakes like an electric toothbrush.

But, isn't she an adventurer?

Although frightened, it looks like she's checking the situation frequently, looking for a chance to escape.

It may be a rare encounter with talking monsters.

She may be actually really panicked.

Then, I must calm her down.

「Please calm down. We are no one suspicious」

「Lies! You are incredibly suspicious. Aren't you stark naked? You can't deceive my eyes.

Kukukuku~ I won't fall for that trick nodesu」

The girl's lines seem somewhat familiar.

En-san who said the same thing seems somewhat embarrassed.

「Really. We don't attack humans」

「Kukukuku, you've come across a wrong opponent. I'm the most genius mage in the town, Marilyn. I won't lose to monsters nodesu... eat this nanodesu!」

Pikan

「What?」

「What?」

「Deshu~?」

The room is wrapped in light.

Looks like the girl used some kind of magic.

I felt the activation of magic.

It may be some kind of spark magic.

Sasa Sasa Sasa Sasa

The girl has escaped towards the 48th floor.

「Go, goshujin-shama~ Ado's eyes, are sparkling~」

「Fu, blurry. My eyes hurt」

It seems that Ado and En-san caught the light directly.

Both are rubbing their eyes with their forelegs.

The puppy dog and puppy dragon figures are cute.

「Are you both okay? Do you want water to wash your eyes?」

「Okay~ Ado has recovered~」

「Me too. I was just a little surprised, that's all」

I'm glad.

They seem to have recovered quickly.

「Lord, should we chase?」

「Goshujin-shama~ Ado wants to play the tag」

「Nono, we don't have to chase. She looked healthy. She will be okay」

「Nu, is that so... even though we have finally met a human after so long」

En-san looks a little lonely.

En-san might have wanted to talk some more.

No wonder since En-san waited so long for the hero.

「We may meet her again when we go up」

「Then, Ado will find her~ I will do my best~」

「Nu, I will be the one to find it」

That... it seems like no one listened to me.

It may be a monster's instinct to try and catch a human.

Maa, let's go up first.

## Chapter 41

When we climb up the stairs.

What appeared before us is... a valley?

The wind is loudly whistling from the valley in front of us.

Because the wind is quite strong, it's difficult to walk.

「Goshujin-shama~ Goshujin-shama~ Ado can't see the bottom~ The wind is strong~」

「The wind is certainly quite strong. Even I probably can't fly in that wind」

「Right. It would be better to not approach the valley. I think we can find a road if we move along the cliff」

「Goshujin-shama~ Prob~lem. There's a problem deshu」

Ado shakes her dog ears.

Her fur also seems to be standing.

「What's wrong?」

「Ado, dislikes high places~ My heart is huynhyuning~」

「Is that so?」

In other words, acrophobia, huh.

I heard that it's sometimes found even in dogs.

「How pathetic, Ado. If you want to fly in the sky like me, you have to get used to it」

「Uuuu~ Ado can also fly in the sky?」

「It all depends on your effort. I also couldn't fly when I was young」

「Then, Ado will do my best~ Ado wants to fly~」

「Fumu. Be diligent」

It seems Ado and En-san found some kind of mutual understanding.

En-san can fly because En-san is a dragon, but what about the dog-like Ado?

I have a feeling that I have heard of a flying dog before...

She may perhaps fly...

Although that's just my thought.

Rather than thinking about that, I look at a certain scene unfolding in front of my eyes.

A huge bird?

No, a dinosaur?

A wyvern-like thing is flying...

It looks like it's carrying something in its feet.

That is... a human?

Nonono.

That can't be.

Anyway, it's that person, huh.

Appraisal-san, please.

-----  
Race: Wyvern

Level: 5

Description: A pterosaur with a high-flying ability. Be cautious of its talons.  
-----

-----  
Name: Marilyn François  
Race: Human  
Level: 31  
-----

Oou.  
Marilyn-chan...  
I have properly appraised.  
It seems the girl who escaped a few minutes ago was swept by a wyvern.  
When the wyvern flies above us.  
「Kyaaaaaaaaa, help me~~~ nanodesuuuuuuuuuuuuuuu」  
A familiar voice.  
That's a quite penetrating high-pitched voice.  
The wyvern has a satisfied expression.  
It may be happy with the fresh food.  
If it continues like this...  
It seems she will end up as today's main course.  
Can't be helped then.  
Let's help her?

「En-san. Can you save that girl?」  
「Nu, who do you think I am? A bird like that. I can settle it in few minutes」  
「Well then, please save her」  
「Leave it to me. I will return immediately」  
Powan Basa Basa Basa  
After En-san transforms to the dragon form, En-san approaches the wyvern...  
Oh.  
En-san rammed the wyvern forcing it to let go of the girl and then it escaped.  
It's the same as with the Tortoise-san, En-san's ramming attack may be special.

「Kyaaaaaaaaaaa」  
I hear Marilyn's voice coming down at high-speed from above, but...  
Basa Tosa  
En-san wonderfully catches her.  
En-san who saved Marilyn from the wyvern returns with a satisfied expression.  
En-san lowers the trembling in a fear girl and returns back to the small dragon form.

「Are you alright?」  
「Nu, it was just a trifling matter for me」  
No... That...  
I didn't ask you, En-san, but Marilyn, though...  
Oh well, since En-san had an outstanding performance.  
「As expected of En-san」  
「En is stro~ng」  
「Nu, I'm the dungeon's strongest!」

I leave En-san who said something ridiculous alone.

Ado is competing by saying「The strongest one is Ado~」, while I check the girl's, Marilyn's condition.

「Marilyn, are you injured?」

「Un... Umm, thank you nanodesu. That... Monster-san」

「It's alright. Marilyn」

「Are? Why do you know my name?」

Marilyn who was looking down the whole time finally looks at me.

Wondering how I know her name.

Although it's because I have appraised her... let's keep it secret?

「I somehow understood. My name is Tokugawa」

「Tokugawa-san?...」

Oou.

The human Marilyn repeats my name in question.

After all, Japanese names may be rare in this world.

「So Marilyn, why did you end up like that?」

「I... uhh... that... I have run out of magic and was swept by surprise nodesu. If I had magic... that chicken would be nothing to me, the strongest genius mage」

Ho~ou.

She can defeat that big bird?

As expected of someone who has come to the 48th floor.

Also, aiming to be the strongest... may be something everyone of this age dreams of.

「Don't you have any companions? I find it quite unusual if you have come up to here alone, though」

「We came together halfway, but... various things happened and everyone has returned nodesu. Kukukuku, they couldn't keep up with the power nodesu. Of the strongest genius mage, Marilyn」

Hee~

She did well by coming this far alone.

She may have some reason.

「Why in the dungeon? Have you come for something? I don't think you came to level up」

「Fufufu, good thing you have asked. I came to obtain a certain item. A「Moon River Grass」」

Moon River Grass.

What's that?

When thinking what that could be.

「Nu, someone is sick then? Moon River Grass is used as medicine to cure illness」

En-san answered.

Well-informed En-san.

As expected, the knowledge of a dragon who lived for 1,000 years is something different.

「Yes. I need it immediately」

「I see, then, should we cooperate?」

I think that we should help an ill person in need.

「Ado cooperating~」

「Nu, I will lend you my power」

「T, thank you very much. Monster-sans」

Pekopeko she bows her head.

She seems to be relieved for now.

「En-san, do you know where to find that grass?」

「Leave it to me. I know the general place」

「Ado, Ado... Doesn't know... Gusun」

Ado feels down for some reason.

Nonono.

There is no problem even if you don't know, Ado.

「Ado, it's alright. There is no problem if En-san knows」

「Ado... Is glad~」

It looks like her mood has recovered.

I don't want to see Ado's sorrowful face.

「Yosh! Then, let's return for a while」

「Everyone follow me」

Following En-san who is in high spirits, we return to the 49th floor.

{} (´•\_•` ) {}

## Chapter 42

「Nu, that tortoise. It's still around. It probably wants to settle with me. I shall receive its challenge」

「Gohsujin-shama~ Fight? Will there be a fight? Slaughter?」

Ado and En-san are full of fighting spirit after seeing the Triceratops Tortoise wandering around the entrance.

These two are battle maniacs.

Really, Ado's pretty face will get stained with blood.

「That is Triceratops Tortoise nanodesu. That's impossible, no chance to win desu yo. It's impossible with my strongest magic not filled up」

Says slightly trembling Marilyn.

I think that should be the normal reaction.

I don't think we should fight that huge moving mountain.

「Ado, En-san. Let's avoid it. Let's get the grass without being found out」

「Nu, why do I have to sneak around? That tortoise should be the one to hide away from me」

「Ado also~ Ado is also~ Against sneak~ing」

En-san and Ado complain.

I have a feeling that Ado is being influenced.

「I know that En-san is stronger, but destroying the environment is not good. We could get the Moon Foxes involved. En-san and Ado, please act as kind monsters you are for the sake of others」

「Nu, right. Having too much power is troubling」

「Ado also~ Okay with sneaking~」

「Me too~ Am the strongest nanodesu, but I'm okay with sneaking desu yo」

Yosh!

I was able to somehow persuade En-san and Ado.

Rather.

Marilyn also went with the flow.

She gets on the Ado with me, though.

She's caressing Ado's ears with great interest.

Marilyn may love dogs, huh~

「Well then, let's go since it has been decided.」

「Let's go deshu~」

「Nu, let's go」

「Nanodesu~」

Sasa Sasa Sasa Sasa

We start moving.

The place En-san guided us to is... a collapsed ground.  
It looks like a meteorite fell here.  
Every tree and grass are destroyed, it seems that there is no living plant.  
「En-san, this is a Moon River Grass place?」  
「Nu, it should be, but... there's not a single one」  
「Goshujin-shama~ It's crushed flat~」  
「How mysterious nodesu. Was a war fought here?」

Marilyn's words struck me.  
I think this is the place where En-san blew off Tortoise-san.  
This is the landing point.  
Pieces of the shell can be found around...

「Nu, a natural disaster surely happened here. Or perhaps a fight between monsters」  
「Deshu ne~ It's crushed flat」  
「Nanodesu ka~ Monsters of the 49th floor are terrific」  
En-san leads the conversation astray.  
Maa, it couldn't be helped that time.  
It's not En-san's fault.  
「En-san, do you know of any other place?」  
「Nu... I don't know. That flower is rare after all. There may not be any other place they grow」

....

....

Eeh?  
I was certain they grow in various places.  
「That can't be nanodesu...」  
Marilyn gets depressed.  
「Goshujin-shama~ Goshujin-shama~」  
「What is it, Ado?」  
「You see, Ado~ Ado knows. Ado knows a grassgrass place~」

「「?」」  
What did you say, Ado-san?  
I'm surprised at the suddenly well-informed Ado.  
She's a child that likes surprising Goshujin-shama.  
「Nu, is that the truth?」  
「Ado, where is the place?」  
「Nanodesu」  
Ado-san makes an overjoyed expression.  
She seems pleased to be depended on by everyone.  
What a cute fellow.

「It's at Ojiichan's place」

Ojiichan...

Jiichan...

Ah.

By any chance...

「Ado, do you mean El Jiisan's place?」

「Un. That's righth~ There were many growing in one of the rooms」

Ho~u.

Certainly, with so many rooms in the Sage's house, it wouldn't be impossible...

So it's in one of the rooms, huh.

El Jiisan is conducting a research about monsters after all.

It wouldn't be strange if he had some mysterious grass in his house.

「Ado, great job」

Wasa Wasa

Ado's tail and ears shake in joy.

It's one of Ado's greatest selling points.

「Go, goshujin-shama~ Wafuwafuwafu~」

Uh-huh.

I'm happy you are happy.

Ado's smile is the source of my strength.

「Lord, what is the El Jiisan's place you speak of?」

「Right nodesu. A house outside of the dungeon?」

Ah.

Right, right.

En-san and Marilyn don't know about El Jiisan.

「He's an elf Ojiichan living in the dungeon. His house is on the 50th floor so we can get there immediately」

「Nu. An elf living in a dungeon? How rare」

「Right nodesu. Elves usually live in elf villages or elf districts nanodesu. I have not heard about an elf living in a dungeon before nodesu. Moreover, on such high floor as 50th」

Both of them seem surprised.

As expected, living in the house in the dungeon is not normal.

It may be possible only because he is a sage of a former hero party.

「Then, let's go to the El Jiisan's house together」

「Let's go deshu~」

「Nu, I will be the first to arrive」

「Nanodesu~」

Ado starts cheerfully running.

Sasa Sasa Sasa Sasa

## Chapter 43

After a few hours.

We have arrived at El Jiisan's place on the 50th floor.

Although we have left this house just a few days ago, I already feel nostalgic.

Feels like returning home.

I'm home~ El Jiisan.

「Hou. So this is an elf's home. To think that he really would live in a dungeon」

「Right nanodesu. Besides, this floor... seems really peaceful. There's even a red flower garden nodesu」

En-san and Marilyn seem shocked in various ways.

But, I must properly warn them to be careful.

Because Marilyn is about to touch the flowers.

「Marilyn. The red flowers are called Nirvana Flowers and it would be better to be careful since they are full of poison」

「Na, nanodesu ka... Fuu~ I was almost caught in a trap... close one, close one」

「It would be difficult for so many Nirvana Flowers... to grow in nature」

Oh.

It seems that En-san has noticed.

How sharp.

「It's El Jiisan. It appears that he drove away the monsters when he planted these flowers」

「Am, amazing nodesu... he may be equal to me in magic. That elf」

Marilyn says impressed.

It seems she has immediately converted to El Jiisan.

「Goshujin-shama~ Goshujin-shama~ Let's quickly go inside~ I want to goron in the bed deshu」

「Yes, let's go, Ado」

Tonton Tonton

When I knock on the door... there's no response.

He is probably doing some experiment in his room again.

Well then, let's enter.

「El Jiisan? I'm entering」

Gacha

I enter the house.

When we I arrive at the reception room...

Mowamowamowa

A familiar white smoke creeps in.

「Gaha, gaha, gaha」

El Jiisan enters the reception room while coughing.

After he closes the door to block the escaping smoke...

「Oh, isn't it Tokugawa-san, it has been a while *nou*」

「Long time no see」

「So, who is that in the back *ja*? Ado-chan, a girl and... a dragon?」

El Jiisan tilts his head.

「What?」He's making such face.

「Yes. It's adventurer Marilyn and Ancient Green Dragon En-san」

「Hello nanodesu」

「Nu, I'm En-san」

「.....」

El Jiisan freezes.

Several seconds later.

「Tokugawa-san. What is a meaning of this *ja*, Ancient Green Dragon, isn't that an ancient species? A phantom race. To meet another one besides Ado-chan... what should I say *ja*」

El Jiisan's eyes start tearing up from emotion.

This may have a great impact for a monster researching Jiisan.

「Goshujin-shama~ Goshujin-shama~ Ado is sleepy~」

Ado says with heavy eyelids.

Ado worked hard today after all.

「You can go ahead to the room and take a rest」

「I will do that deshu~」

Tekutekuteku

Ado left to our room.

「Nu, Lord, I also want to rest」

「Me too nanodesu~」

It seems everyone is tired.

A lot has happened today after all.

We have also travelled a considerable distance.

「If that's the case everyone can stay and take a rest *no ja*. You are friends of my disciple Tokugawa-san *ja*. You can take it easy and relax」

「Then, we will do as yo usay」

「Nanodesu」

「Nu, I'm looking forward to bed」

We enter the familiar room number three.

There are four beds in the room, therefore there's enough for everyone.

In one bed, Ado already「Suu~ Suu~」sleeps soundly.

I sit at the bed I have been using before.

Marilyn and En-san also choose their beds.

「Nu, tou」

「Nanodesu~」

Tou Basha

Both of them jump on the bed and check its elasticity.

Poyoyo~n, they bounce on the bed happily.

They are giggling.

「Don't be too overenergetic. The bed may break under you」

「What, I will be okay. I have been bouncing with perfection」  
「Me too nanodesu. I'm the strongest genius mage Marilyn, you know?」

The two are infatuated with their beds.  
They jump up and down many times.  
Right~ I wonder how En-san's weight works?  
Such a huge dragon has transformed to such a small creature, but...  
En-san doesn't look that heavy.  
The bed is not breaking.  
The weight has most likely changed too.

Well then, I'm going to sleep.  
I became sleepy the moment I sat on the bed.

~~~~~

~~~~~

~~~~~

~~~~~

After Tokugawa-san and Ado returned home.  
El Jiisan sighed.

(Really~ Tokugawa-san keeps surprising me. He brought another ancient species along. And to think it would be an Ancient Green Dragon. Although it looked quite small, it surely is transformed. It's hidden magic was properly transmitted to me)

El Jiisan walks in circles.  
He can't suppress the expectations in his heart.

His legs just started moving unconsciously.

(I really want to examine the Ancient species. Ado-chan is not opening her heart to me *nou*. The Ancient Green Dragon may be different *no ja*. What to do~ I want to stealthily take a look at its sleeping figure~)

After he left his room, El Jiisan stopped after taking several steps.

(Let's not do that. They are tired now *no ja*. A good night's sleep is important *ja rou*. Judging from the atmosphere around them, they must have travelled quite the distance *ja kara nou*)

El Jiisan returned to his room.

## Chapter 44

Peropero

Nn?

Peropero Peropero

Nnaa~

Peropero Peropero

A lukewarm touch on my cheeks and wet sounds.

This feeling, perhaps...

Is not that feeling, right...

「Goshujin-shama~ Goshujin-shama~」

I hear Ado's cute voice.

When I open my eyes...

My expected, I was right.

Ado was right in front of my eyes.

「Goshujin-shama~ Good morning deshu」

「Umu, good morning」

When I turn my neck and check the area...

I couldn't see En-san and Marilyn.

Did they get up earlier?

Rather, I may be waking up the last every time.

Everyone is an early bird.

「Ado, where are the two?」

「Ummm~ Ummm~ They weren't there when Ado woke up deshu~」

Is that so?

They might have woken up earlier and went somewhere.

En-san is thousand years old so he might be an early riser.

I heard that old people are light sleepers.

Marilyn, let's see... cause she is a girl?

Girls rise earlier than boys.

「Well then, Ado, let's go. Let's get a breakfast」

「Yes deshu~ Breakfast~ Breakfast~♪」

Gabu Chiyu Chiyu

I suck on the Cypher meat that was on the table.

I feel strength overflowing inside my body.

Delicious!

Paku

Mushamusha Mushamusha

Ado also sinks her teeth into the Cypher meat.

Her cheeks relax after she bites.

Her dog ears moving in joy are also excellent.

「Ado. It's stuck around your mouth」

「Npa?」

Ado wipes her mouth with her hand, but...

The piece of meat is stuck on the opposite side.

I help her out.

「Gohushijn-shama~ Thank you deshu」

「You are welcome」

Gabu Chiyu Chiyu

When I return my fangs into the meat.

A small dragon enters the dining room.

「Nu, Lord, you have woken up」

「Fumufumu」

I nod while sucking on the meat.

The meat juices would spill out if I pulled my fangs out before sucking it all.

「I just returned from a morning run. Because the grassland is so wide, I just felt like running.

It's different from the full of trees 49th floor. The air is nice」

En-san looks refreshed after exercising.

I suck all the juices and remove my fangs.

「That is good. What about Marilyn?」

「Nu, that mage, huh? She went to get the Moon River Grass from El Jiisan」

Ah.

That's right.

We came to El Jiisan's place because of that.

I must be still half-asleep.

「I have picked up this flower」

En-san takes out a large quantity of Nirvana flowers from his item box.

Nn?

Are?

I thought that there was a lot of deadly poison in it, though...

「What are you planning to do with these?」

「Of course, I'm going to eat them. This much poison won't work on me. It's a famous delicacy, you know?」

Is he poison resistant like me and El Jiisan?

That makes... me, El Jiisan and En-san.

Three people in this house are fond of Nirvana flowers.

Mushamusha Mushamusha

En-san starts eating the delicious Nirvana flowers.

I also take some and eat.  
Gabu Chiyu Chiyu  
It's delicious after all.  
The fresh taste is something different.  
The tingling poison and hotness are stimulating.  
Above all, it's tasty.

「Goshujin-shama~ Ado too~ Wants to taste~」  
Ado looks at me wistfully, but...  
Because the poison is strong, it's impossible.  
「The poison is strong, it would be hard for Ado」  
「Right. Ado's level is not a match of mine. Work diligently!」  
「Uuuuuuu..... gusun. Ado tootootoototoo, tootootoototoooooo」  
Ado is sad.  
The end of her sentence is also questionable.  
「Tootoo」She cries in a loud voice.  
Really, can't be helped.

I take out an eggshell from the item box.  
「Ado, eat this shell then try eating a leaf. The shell will protect your stomach from the poison and leaf is the least poisonous」  
「Wawawawa~i. Goshujin-shama, thank you deshu」  
Paku  
Mushamusha Mushamusha  
「Tashty~」  
Ado eats the Nirvana flower with a smile.  
Her appearances are heartwarming.  
She looks very pleased.

Kuikui my hand is being pulled...  
En-san looks at me with a grim face.  
Is he worried about something?  
「Nu. Lord, haven't you spoiled Ado too much a little while ago?」  
U~n.  
Do you think so~?  
I thought I was doing alright, though.  
Does En-san think so?  
But, you see~ Ado is cute so it's alright.  
「I will try to be more careful from now on」  
「I do not really mind. I'm okay as long as I protect my food provider」  
It's the gourmet En-san.

## Chapter 45

「Teacher!」

「!?!」

When I met Marilyn in the corridor, this is how she suddenly addressed me.

She's looking at me with some kind of expectations.

Why?

Even though she was calling me Tokugawa-san until a while ago...

「What's the matter, Marilyn」

「Kukukuku, I have also become the Sage-sama's disciple~ Becoming a disciple of a former hero party's Sage-sama is an honor nodesu」

Ho~u.

That means I have become a senior disciple.

So that's why teacher.

Fumufumu... I understand.

「Come to think of it, at what level is your magic?」

「Kukukuku, I'm the strongest mage Marilyn nanodesu. Strongest nanodesu」

Marilyn is chuuni.

Are?

But, didn't En-san said he's the strongest in the dungeon?

There are many strongest fellows.

Although En-san sounded quite serious.

At any rate, he's a 1,000 years old dragon.

「Teacher! I have a request」

「What is it?」

「Please have a match with me!」

「Eh, that... why?」

「In order to exceed the teacher and become the strongest nodesu」

Nonono.

I have just started learning magic and can't utilize it at all.

Although I have become El Jiisan's disciple, I have used only a little magic.

「Nu, nice spirit. Fighting is the best road to becoming the strongest. I assure you」

「Gishujin-shama~ Fight deshu~」

Ado and En-san who appeared from somewhere say.

The atmosphere is already like I have accepted the match.

「Un, un, I'm glad nodesu」Marilyn nods.

That, I have not answered yet, though...

I haven't said anything yet, though...

No way!

Was the silence an OK sign...?

「Well then, let's have the match at the grassland」

Like this, the match between me and the self-proclaimed strongest mage Marilyn has been

decided.

I and Marilyn face each other at the grasslands.  
A revolver magnum is in my hand.  
A magic wand is in Marilyn's.  
The situation has advanced very quickly for some reason.  
Now we are facing like this.  
I was not planning to fight, but I'm standing here like this for some reason.  
Really, why?  
El Jiisan, Ado and En-san are watching from the distance.  
Everybody looks in excitement with some kind of expectations.  
No, this is not particularly interesting... probably.

「Teacher! I'm coming nodesu. ——A shining arrow falling from the sky, Godly hammer striking down from the ceiling. Split open, Holy Blow——」

When Marilyn raises her wand.  
A spear of light rushes towards me.  
Wai.  
Wait a minute.  
A little timeout.  
You are using some kind of dangerous spell right from the start, though.

I load two Moon Bullets into the barrel and shot myself.  
I have verified this recently.  
One bullet will increase my speed 1.5 times.  
2 bullets are  $1.5 \times 1.5$  which mean my speed will increase by 2.25 times.

Sasa Sasa Sasa  
I avoid Marilyn's attack with high moving speed.

「W, what a speed... as expected of teacher nanodesu. Then, next is this one. ——Angel's bow right here right now. A desired ruthless attack of Angel's arrow, Holy Arrow——」

Uho!  
An arrow of light is attacking me.  
I want to dodge quickly, but...  
Uhe.  
It's chasing me.  
Indeed, this is...

「It's useless, this arrow has a homing function nodesu. It will continue on chasing until it hits」

A tracking type after all...  
What a dangerous magic.  
It hardly looks like angel's magic.  
It's more of a demon's arrow.  
It would probably be better to quickly settle it.  
By the looks of it, my opponent's magic is weak in close combat.  
Being caught by the wyvern, her physical ability is doubtful.  
In that case...

Ban Ban Ban  
I aim the revolver towards Marilyn and shoot.  
The loaded bullet is Nirvana Bullet. The poisonous bullet.  
As expected, I can't use lethal bullets like Blood and Bone bullets.

「——Angel's buckler, Holy Shield——」

The bullet is repelled by a transparent wall.  
As expected of someone who came to the 50th floor.  
There is no hesitation in her smooth movements.  
She seems used to fighting.

「Teacher! You don't have to go easy on me nodesu. Sage-sama can cure the injuries to some extent nodesu」

Can't be helped.  
There's no meaning in prolonging the fight.  
Let's settle it quickly.  
In the first place, the match has been decided the moment we stepped on this terrain.  
My victory was virtually decided.

Ban Ban Ban  
I commence a suppressing fire while running towards a fallen tree.  
I put both hands on the fallen tree and pour magic inside.  
The rapid growth of the roots.... and explosion.

Zudodododododododododo Zudodododododododododo  
「Wh, what is that nanodesu... Wawawawaaaaaa」  
The ground under Marilyn crumbles.  
A severe collapse is completed.  
She fell into a hole.

「Nu, it seems it's Lord's victory」  
「As expected of Goshujin-shama~ Zudon deshu」  
「Hohoho. To grow the tree and explode them in order to destroy the ground... Tokugawa-

san's magic is on a different scale as expected ]  
The three approach me.  
They clap their hands and nod 「Un, un」.  
My evaluation among them seems to be quite high.

「That was really nothing. I have just been lucky」  
「There's no need to be humble *no ja*. A lot of people can't do what you just did」  
「Nu. I also think so. I'm very interested in that weird weapon of yours」  
「Ado too~ Ado too~ Goshujin-shama is strong nodeshu~」  
Really.  
Even though I was honestly just lucky...  
The place of the match was my luck.  
Apart from that...  
Is Marilyn okay?

When I look at the collapsed ground...  
Pyon Sutan  
Oou.  
Marilyn jumps out of the hole.  
Her body is dirty with soil here and there.  
「Kukukuku, as expected of my teacher! Nanodesu. To beat the strongest me, you are quite strong yourself」  
I'm glad.  
She doesn't look injured.  
Did she guard herself with magic?  
「Then, with this, the match is over」  
「Yes, nanodesu」

「Well then, I will give a prize for the winner Tokugawa-san *no ja*」  
Is that so?  
It's my first time hearing about a prize.  
I will receive it gratefully.  
「Here *ja*」  
「Thank you very much」

What was handed to me... a medal?  
What on Earth is this?  
A picture of a scale is drawn on the gold coin.

「El Jiisan, this is...」  
「Anima medal *ja*. It's a valuable antique found in various places」  
「Is it okay? To give me something like this」  
「It's alright *ja*. Take a great care of it *no ja*. It's the proof of winning *ja*」  
「Thank you very much」

I store the Anima medal inside my item box.

## Chapter 46

Hello, it's Baby Vampire Tokugawa.  
After winning the match against Marilyn.  
I have been troubled because she's looking at me with admiring eyes and calling「Teacher this, Teacher that」.  
Ado also confusedly calls me「Goshujin-shama~, nn? Goshishou-shama?」.  
En-san, on the other hand, is little upset saying「Why am I called En-san and not Teacher!」.  
Nonono.  
I don't know even if you ask me~  
Every day passes like that.

~~~~~

「Goshujin-shama~ What is the Anima Temple deshu?」  
Uoho~  
I have been suddenly asked while rolling in the grass.  
I honestly don't really know much~  
About that temple.  
Appraisal-san only told me that it's a temple governing over life and death.  
Also, there were many corpses of reincarnated people...  
And there were many soul-like floating things.

「I'm not really sure. Just that it's a temple. Why are you asking, Ado?」  
「I've heard about it from El Jiisan deshu. That Goshujin-shama was there before deshu」  
Jiisan...  
He probably talked about a lot of things just in order to draw Ado's interest.  
「I have been there only once」  
Also... I wasn't able to enter there again.  
It's a dangerous experience that has almost killed me.  
I was able to create the revolver that time.  
「Ado too~ Ado too~ Ado wants to go to the Anima Temple deshu~」  
Anima Temple, huh...  
Let's see~ Should we try to go one more time?  
My level has increased.  
Let's give it a try, I have nothing to lose anyways.  
「Alright, Ado. Let's go take a look?」  
「Uee~ Yaay~ deshu」

Sasa Sasa Sasa Sasa  
I got on Ado and we arrived at the temple's entrance.

When I was here before... I had to desperately struggle for life.  
I defeated the Earth Dog leader at the last moment and regenerated my bitten off arm.  
A nostalgic past.  
I did well.

When I approach the door...

【Anima Medal is necessary to be consumed in order to enter the Anima Temple】

Oou.

Different god's words than before.  
I'm certain that... skill points were needed the last time.  
It's Anima Medal this time, huh...  
I have received it from El Jiisan, but he told me it's only an antique.  
Then, let's try using it.  
Uhh, I answered the god's voice the last time, right?  
Let's try doing the same.  
Well then...

『I understand, OK』

【Anima Medal consumed】

Gogogogogooooo  
The door opens.  
「Go, goshujin-shama~ It Gogogo'ed deshu~ Gogogo」  
「Yes, then let's advance」  
「Deshudeshu..... ah, ouch deshu」  
「？」

Ado hit an invisible wall and can't advance.  
I'm inside, though...  
Only Ado crashed into something.

「Goshujin-shama~」

The moment I was going to approach the teary-eyed Ado.  
Ah.  
Batan  
The door close shut.  
I couldn't see Ado anymore.  
I push against the door with all my strength, but it didn't move an inch.  
I try to touch the door and pour magic inside, but...  
Nn?  
Strange.  
My magic doesn't pass...  
There seems to be some interference.

This feeling is a first.

I tried trial and error for a while, but nothing happened.  
Even shooting the revolver won't leave a scratch.  
It seems to be some special door.

Can't be helped.  
I give up on the door and advance ahead.  
Tekuteku Tekuteku  
I advance like before and come across the large valley.  
The souls are floating at the bottom as before.

-----  
? :?  
? :?  
-----

Fuu~  
Nothing appears after appraising after all.  
Is it some unknown substance or something?  
I can sense something much larger since coming to this place.  
It almost makes you believe in god or something.

After watching the fluffy floating lights for a while.  
I go towards the mummies buried in the wall.  
Certainly...  
The one I got the 「Blood Bone Alchemy」from is...  
Was it this mummy?

-----  
Race: A person reincarnated from a different world.  
Description: Person who created things  
-----

Right, right.  
This mummy.  
I was able to escape the predicament thanks to biting this mummy and obtaining a skill.  
What would have happened without that ability?  
I'm thankful.  
Thank you, Mummy-san.  
I bow my head.

Then, I observe the mummies around.  
I was sent out of the temple several seconds after biting that mummy.  
Or did my time ran out?  
I don't know if biting is the trigger.

Then.

I should observe the mummies while conscious about the time.

I don't know when I will be kicked out after all.

It's just my intuition, but...

I will most likely obtain a skill after biting another mummy.

A skill these people had while alive.

Because I got a monstrous skill.

The skill called『God's Fangs』.

Now then, who should I choose...

I appraise the mummies one after another.

-----  
Race: A person reincarnated from a different world.

Description: Person who healed people  
-----

-----  
Race: A person reincarnated from a different world.

Description: Person who crossed the sea.  
-----

-----  
Race: A person reincarnated from a different world.

Description: Person who bet on luck.  
-----

-----  
Race: A person reincarnated from a different world.

Description: Person who excelled at leisure.  
-----

Then.

Right after appraising them.

【1 minute remains. You will be forced to leave when the time runs out】

Oh.

Crap.

There's no time left.

I have to hurry.

I have to choose from these four.

『Person who healed people』『Person who crossed the sea』『Person who bet on luck』

『Person who excelled at leisure』

A person who healed people is most likely a healing skill.

A person who crossed the sea would most likely be some kind of water skill.

A person who bet on luck has signs of gambling.  
A person who excelled at leisure, some convenient skill?

I want a skill that would allow me to capture the dungeon the most.  
Which means... I don't need a person who crossed the sea and a person who bet on luck.  
There's shouldn't be a sea in the dungeon... and I can't just rely on the luck.

Healing... Convenience...

Uun.

Fu~mu.

Umu~n.

Uun.

Yosh!

I have decided!

This is where I choose convenience.

Since I have Ado and En-san with me.

I don't think they will have troubles with enemies, or that they would get hurt.

Then, I will complement them with convenience.

Well then, well then.

There's no time.

Here I go!

Gabu Chiyu Chiyu

I bite the『Person who excelled at leisure』.

**【Skill『God's Fangs』activated. Skill『Online Shopping』acquired】**

Uooo.

Niiiiiiiceee!

Hiyahoooooo!

A convenient skill obtained.

Pakan!

O, ou.

I remember hearing this sound.

My body is suddenly wrapped in light with a sound of a bell.

It's so bright I can't open my eyes.

An electric shock runs through my head.

Like the circuit of my brain was forcibly played with.

It's my second time, but... so intense!

Stay strong!

Guaaaaaaaaaaaaa!

Aaaaaaaaaaaaaa!

My vision is wrapped in white light...

And I feel like floating.

A sense of my body flying.

## Chapter 47

「Go, goshujin-shama~ Suddenly appeared~ Ado, surprised」

「I'm also surprised, but that's how it apparently works」

「I want to try it one more time deshu」

No~ How unreasonable.

I think that you probably can't enter.

It won't work even if you stare at me with such pure eyes.

But, watching Ado's pure face, my heart hurts.

I approach the door, wanting to try...

【You cannot enter at this time】

As expected.

I hear the same god's words as before.

It may not be possible to enter again for a certain period of time.

「Ado, apparently I can't enter again for a while」

「Is that sho~~ Gusun. Regrettable deshu」

「But, I have obtained an interesting ability. It may be a good thing for you, Ado」

「Really deshu~?」

「Yes, let's try using it right away」

「Deshu deshu」

I confirm the image flowing in my mind.

The obtained skill「Online Shopping」.

I understand how to use it clearly.

『Online Shopping open!』

A screen with an online shopping site opens in front of my eyes.

A site with a friendly Japanese feeling.

The design looks similar to a certain amazon site.

Piko~n.

A window pops up.

『First time charge bonus, 10,000 points』

Oou.

A pleasant privilege.

The money I presently have...

Just a several pieces of gold coins I have received from El Jiisan.

My mind is doubtful.

The usage of this online shopping site flows inside my head.

- I can purchase products by spending points.
- I can purchase points with this world's currency.
- The purchased items will immediately appear.

I'm happy it's easy to use more than anything.

Well then, at once.

Let's try purchasing something.

Something cheap at first.

Pochi Pochi Suma Suma Suma

I tap the food section and scroll through.

A familiar operating method.

Talking about cheap... a snack food section.

Familiar snacks appear on the screen.

Oou.

It has Japanese feeling.

What should I get...

Ummm.

Fu~mu.

Then~

Let's get this.

『Potato Chips Lightly Salted』

I put the product into a shopping cart and press the purchase button.

Pikon Gata

The product pops up from the screen.

Oou.

The real thing really came out.

Though I understood that in my head, I still got surprised.

「Fuwaaaa. Goshujin-shama~ Something suddenly jumped out deshu~」

「You don't need to panic. Ado」

Rather.

That is surprising.

Ado doesn't see this online shopping screen?

「Ado, do you see something in front of me?」

「I don't see anything deshu~」

Really?

This online shopping screen may be visible only to me.

Then, I should pay attention where and in front of who I use it.

I would look like a suspicious person moving his hand in the air.

Now then, now then.

Let's try out the product.

In fact, I have been impatient since I saw the product on the screen.

Fumufumu.

What a good child.

I want to give her potato chips as a reward.

「Then, let's return home」

「Deshu~」

Sasa Sasa Sasa Sasa

I return to the Sage's house on Ado's back.

{} (´•\_•` ) {}

## Chapter 48

「Nu, I'm surprised. This thing called potato chips... a flavor I have never tasted before. An appetizing flavor. It makes me drool just by smelling it. It's wonderful」

En-san also seems pleased with the potato chips.

He started prattling while eating.

After dinner in Sage's house.

I tried the『Online Shopping』skill again and bought more potato chips.

One bag of potato chips is 100 points.

A price similar to Japan.

The money in my possession is 10 gold coins.

In other words, 100,000 points.

I don't feel itchy about 100 points.

I tried buying many one after another.

Fumfumu.

I thought there would be some kind of time restriction between purchasing, but.

It doesn't seem like it.

「Goshujin-shama~ Ado wants one more potechi deshu」

「No, you can't. You had a bag just a while ago」

「De, deshu~ I already ate it deshu... potechi deshu」

Ado makes a tearful plea, but.

I shield my heart.

「Ado, it's a bag a day. Eating too much is not good for your health」

「Deshu~~ I understandeshu」

Ado hugs the empty potato chips bag in her futon.

「Suu~ Suu~」and immediately her sleeper's breath was heard.

「Lord, you did quite well. You have declined Ado's request」

「Potato chips before going to the bed are not good. En-san should also be careful」

「Nu, is that so? Will I be alright?」

En-san became worried.

You don't have to take it so seriously...

「I will go for an exercise before sleeping. Moving after eating」

Sasa Sasa

En-san runs out of the room.

「Teacher, there is nobody now nodesu. Please, give me one more potechi nanodesu」

Marilyn pulls on my right hand.

「No. Haven't I refused Ado just a little while ago?」

「Teacher... So Spartan nanodesu」

Susa

Marilyn crawls inside her futon just like Ado.

She may be sulking.

Well then, I'm going to sleep as well.

Certainly, she didn't say that there's a sick person.  
En-san said that the grass is effective on sick people.  
Marilyn only said「I need it immediately」.

「Kukuku, you have been deceived, huh? By my ingenuity」  
Marilyn laughs questionably.

「But, it's the truth that I needed the Moon River Grass immediately. It's necessary for me in order to become strong nodesu」

「What do you mean?」

「When you eat the Moon River Grass, your physical ability will temporarily increase nodesu. It's indispensable for me in order to become the strongest nodesu」

Ah, that?

A similar effect to my Moon Bullet?

「Do you have some enemy you want to defeat?」

「Kukuku. That is a secret nodesu yo」

Marilyn smiles questionably again.

Dimples came out.

「Maa, do your best」

「Teacher, someday, I will defeat even you nodesu」

Marilyn is full of vigor.

{} (´•\_•` ) {}

## Chapter 49

We have relaxed at El Jiisan's house for a few days.  
I watch Ado's running figure while laying on the grass.  
Nonchalantly.  
How peacefull~  
Gabu Chiyu Chiyu  
I insert my fangs into Nirvana flower and drink.  
Kuuuuuu.  
So tasty and sweet.  
The tangy poison is also quite nice.

But, I must not forget.  
I didn't level up at all.  
Let's appraise after a long time.

-----  
Race: Baby Vampire  
Level: 5  
-----

Fumu.  
No abnormalities.  
Nothing has changed.  
Well, that's that...  
I haven't been defeating monsters recently.  
The fight with Earth Dogs feels nostalgic.  
I was on fire those days~

Because of the super strong Ado and En-san I feel a peace of mind.  
But, but.  
Isn't that bad?  
I have to become slightly stronger too.  
In the monster society, power is everything after all.

Uun.  
In addition, I still don't know much about this world.  
First of all, let's try getting to the gate on the 40th floor in order to get outside.  
Un.  
Let's do that.

Well then, well then.  
We must make the preparations for the journey at once.  
First, creating a lot of「Aries' Salt」and catching lots of Ayuyu.  
With「Online Shopping」we won't be in trouble for food, but.  
「Aries' Salt」is exquisite.  
The online shopping site doesn't sell raw fish so we need to properly secure them.

「Ado~」

I shout and wave my hand.

「What ish it~ Goshujin-shama?」

Ado comes immediately.

「Let's go to the river. I want to get water and catch fish for the journey」

「Ehehee, river deshuka~」

Ado likes playing in the river after all.

She's also good at catching fish.

Because she whacks the fish with her forelegs.

「Then, let's go」

「Deshu ne~」

Powan

Ado turns into the beast mode.

After getting on Ado's back.

「Well then, Ado, let's depart」

「Deshu~」

At the river, we have secured enough water and caught many Ayuyu's.

It's stored in the item box.

Time passed quickly while preparing other things in El Jiisan's house.

And now, we are about to depart from El Jiisan's house.

「Well then, El Jiisan, we are off」

「Umu. Be careful *no ja*」

「Teacher, farewell, I will miss you」

It seems Marilyn will miss me.

Right...

Marilyn is not going with us.

She's staying at El Jiisan's place.

She will train here in order to get stronger.

Apparently, she came into the dungeon in order to train.

「Well then」

「Ado will see you later deshу」

「Nu, me too」

We leave the Sage's house.

Sasa Sasa Sasa

I get on Ado and we advance.

We already know the way to the 48th floor through the 49th-floor's jungle.

We continue advancing through the jungle... and arrive at the 48th floor.

「Nu, the wind is strong」

「Byu~ Byu~ Deshu」

「So true」

We are at the cliff near the 48th-floor entrance.

The wind doesn't stop, it keeps raging through the valley.

The wyverns seem to avoid flying in that fierce wind.

「Well then, let's go. Marilyn told me that we should reach 47th floor by moving along the cliff」

「Go deshu~」

「Nu, can you beat me?」

I get on Ado and we move along the cliff.

One wrong step could make us fall into the abyss, but Ado advances at high speed.

Then...

The sky is noisy.

A wyvern is flying above us.

It has been following us for quite a while now.

「Nu, Lord. That fellow is aiming for us」

「Goshujin-shama~ A fight deshu, are we going to fight deshu?」

Wyvern, huh...

The monster who captured Marilyn.

It won't be a problem if it come at us since En-san is here, so there's no need to start the fight ourselves.

「Ignore it. Let's proceed」

「Understandeshu」

We proceed along the cliff.

## Chapter 50

「Nu, Lord. I can't endure it anymore. Forgive me!」

「Eh」

Just what should I forgive?

Powan

En-san transforms into the Ancient Green Dragon form.  
He flies into the sky and plunges into a wyvern above us.

Dogon

「Gururuaaaa」

The wyvern flies away after being rammed by En-san.

En-san immediately returns.

「Fuu~ that was refreshing. That was my power」

「En is amazing deshu~」

「No need to praise me. That was an obvious outcome」

En-san looks triumphantly.

Maa~ oh well, there was no problem.

I was also a slightly concerned about that stalker wyvern.

「En-san, it was alright this time, but don't go plunging into enemies too much. I don't want to fight unnecessary fights」

「Lord, I understand. It was special this time. My back was itching. Itching you see」

Speaking of back...

The tail fin...?

I don't know about much about dragons.

「Well then, Ado, let's keep on moving」

「Yes deshu~」

Sasa Sasa Sasa Sasa

We advance along the 48th-floor's cliff.

After a while, we arrive at a wide open space.

But, there are wyverns assembled in full force right in front of us.

There are around 20 wyverns.

O, oufu...

This is bad.

It's a flock of dinosaurs!

Uun.

To tell the truth...  
I wanted to avoid a fight with enemies that could fly.  
Since among us, only En-san is able to fly.  
I don't know what to expect.

In that case...  
Let's appraise just in case.  
Grasping opponent's power accurately is important.  
Here we go!

Fuu~

Waa~

Fuu~

I finally appraised the last one.

I sweep the windows to a side because I can't see in front of me.

Let's see...

Surely...

I saw that there was a function like that.

Where is it...

There it is!

Click.

When I arrange the appraisal windows with the automatic sort function...

Level 4 = 1  
Level 5 = 2  
Level 6 = 1  
Level 7 = 1  
Level 8 = 3  
Level 9 = 2  
Level 10 = 1  
Level 11 = 2  
Level 12 = 3  
Level 13 = 1  
Level 15 = 3  
Level 16 = 1

21 in total.

Yosh, yosh.  
It became clear.  
I decided to display only the levels and numbers.

With that.  
Apparently, this flock of wyverns...  
Is level 4~16.  
Quite a broad flock.  
There's a difference of 10 levels.  
Also... if I look closely.  
Their bodies seem to grow larger the higher their level is.  
When they stand like this in a line.  
The level difference in each individual is quite interesting.

Now then...  
What are they waiting for like this...  
Let's pay attention.

{} ( ' = 21 = ' ) {}

## Chapter 51

「Lord, what's the plan? Should I kick them around?」

「Goshujin-shama~ Fight, are we going to fight~?」

Ado and En-san are completely in a battle mode.

They seem to be eager to fight.

However, bu~t.

I want to settle this peacefully.

I would like to avoid fighting 20 wyverns if possible.

Because... I have no idea if I can win.

I don't even slightly understand my own strength.

「The opponents are still, let's see what is it about」

「Lord is too careful. I will watch over you so be at peace」

「Deshu, deshu~ Ado is here too~」

What a reassuring companions.

Ado, En-san...

I may have been blessed with good friends.

「Then, Ado, let's move a little bit forward」

「Ye~s」

Sutasuta Sutasuta

We are inside the flock of wyverns.

When I approach the biggest guy.

The level 16...

「Guruaaaaaa!」

It roars.

My cheeks shake because of the wind pressure.

What a great lung capacity...

「Ado, do you understand what it said?」

「Uun. It wants a match. 」

It's a wild wyvern after all.

Power may be everything here.

It may not be settled with a conversation.

If that's the case...

I have no choice, but to adjust to these rules.

「I understand. A battle between representatives?」

「Gurururuaa!」

A tremendous roar once again.

The opponent may be trying to intimidate me.

「Un. It seems to be okay deshu」  
「Then, the one fighting for us is...」  
Someone who can ensure a victory...

「Lord, leave it to me!」  
「Eh, Ado wants to fight too~」  
Both of them are fully motivated...  
En-san and Ado... they are both monstrously strong.  
But... the opponent is a flying type.  
This is En-san's turn...  
Ado can't fly after all.

「Sorry, Ado. Let's leave this to En-san」  
「Eeh... deshu... gusun」  
「Fu, Lord, you made the right choice. As expected of Lord」  
Sad Ado, proud En-san.  
Ado's dog ears are hanging down.  
It's a dejected Ado.

「It's alright, Ado. I will give you potechi later」  
「... In that case, it's alright deshu. En, do your best deshu」  
「Nu, Lord. Of course, you will give me potechi too, right?」  
「There's also En-san's share」  
「I see... with this I can fight without worries. My skills are itching!」  
「Potechi, potechi, potechi deshu~」

With Ado's potechi call, En-san steps forward.  
Although he is in small form... he looks cool.  
En-san talks to me with his back.  
How cool.

「Well then, I'm your opponent. How at me, little chicks!」  
Powan Basa Basa  
En-san transforms back to the dragon form and flies towards the sky.  
Dragon should be flying in the sky after all.  
It has a unique appeal.

「Guruaaaaaaa」  
Basa Basa  
Opponent.  
The level 16 wyvern flies into the air.  
It flies to the same height as En-san.

At this moment.  
The sky battle has begun.

Both I and Ado...  
The other wyverns...  
Are waiting for the fierce battle that will happen.  
I keep watching the sky with expectations, but...

「I'm going, little chick. Witness it! My power!」  
「Guruaaaa!」

En-san circles in the air...  
He raised his speed...  
And rammed the wyvern with tremendous momentum.

Dokan———

「Guruaaaaaaaaaaaaaaaaaaaaa!」

Hyuun Dosu———。

The wyvern crashes into the ground while screaming.

The battle lasts approximately ten seconds.  
Battle ends.  
Winner, En-san.

「.....」

「.....」

The meeting place fell silent with disappointment.  
The wyverns are dumbfounded.

I and Ado are also surprised.  
En-san's ramming attack exploded once again.  
Rather...  
I haven't seen En-san use another attack than the ramming attack.  
Surely not, surely not...  
It can't be that he has only a ramming attack, right?  
My expectations...  
Maa, he won so let's leave it at that.  
Victory is important.

Hyuun Suta

Powan

En-san comes back and turns into the small dragon form.

En-san without a single scratch.  
「How about that? Have you realized my power?」  
「En~ Amazing deshu」  
「En-san, you have done well」  
「This much is not worth the praise. Just a trivial matter」  
En-san humbly says with a self-satisfied look.  
He's so happy that his tail is vigorously moving around in joy.

Noshinoshi Noshinoshi  
The fallen wyvern gets up.  
It moves approaches us.

Sutan  
It turns towards us and... lowers its head?  
Then, every wyvern does the same.

「Guruaa」  
More feeble voice than before.  
This soft tone, this posture...  
Surely not...  
Indeed, this is...  
That, right?  
It's that, right?  
I have seen it before.  
This scene.  
The same action the Earth Dogs and Moon Foxes did.

「Ado, the wyverns, perhaps...」  
「They want to become Goshujin-shama's followers」

As expected...  
It was that thing after all...  
I had a vague feeling.  
That monsters follow the strong.  
Then, that rule.  
Why don't I answer it?

「Ai, I understand. Wyverns. I will accept you」  
「Gururua」

The wyverns call joyfully.

Thus, I have obtained a flock of wyverns.

## Chapter 52

Gabu Chiyu Chiyu

I bite the wyvern's long extended neck.

The same way when I made Moon Foxes my family.

『Become my follower~』『Become my follower~』I pray in my mind.

The wyvern meat doesn't have the juiciness.

While tasting and praying...

Oh.

Ooh.

Something came out.

【Wyvern has been added to the family】

【Because there is no name, please decide on one】

God's voice after a long time.

Listening to this voice makes me somewhat feel at ease.

A name huh~

As expected, the wyverns don't have names.

There may be only few named monsters, huh~

Uun.

Then, a name...

What could it be?

Should I do the same as with the Moon Foxes?

Yeah, let's do the same.

『Voice of god-san, let's go with Waitarou please』

【Waitarou registered】

Yosh, yosh.

It seems that I got a new follower properly.

「Thank you very much. A gentlemen accompanied by considerably strong dragon-sama. I'm sure you have a proper name, but... how should I adress you?」

Uho.

The wyvern, Waitarou speaks up.

Indeed... it seems that by adding them to my family I'm able to converse with them.

It seems it wasn't only Moon Fox special feature.

「Call me Tokugawa」

「Yes. Tokukawa-sama」

Fuu~

Again.

It looks like no one will get my name right.  
It's a name not widely used even in Japan after all.

「Best regards」

「Waha. We wyverns would like to be added under Tokukawa-sama's lead. If possible, all my companions.」

「Yes, yes. I understand. Just form a line. I will add everyone to my family」

「Waha. Thank you very much」

Zaza Zaza Pita

The wyverns form one line and extend their necks.

What a great scene.

It's like gang members bowing in front of the gang leader in some yakuza movie.

The wyverns seem to be nicely behaving.

Well then.

Gabu, gabu, let's turn them into my followers.

Gabu Chiyu Chiyu

I bit the first one and turn it into my follower.

I feel like my magic is escaping my body every time I make a follower.

I feel it stronger than with Moon Foxes.

Making strong follower may consume more magic.

Gabu Chiyu Chiyu

Gabu Chiyu Chiyu

Gabu Chiyu Chiyu

.....

.....

After the last one, I already feel half-asleep.

「Goshujin-shama~ Sleep?」

「Lord. It would be better to take a rest」

「Yes, I will lie down for a bit」

It seems the magic consumption is larger than I thought.

When I exhaust my magic I become sleepy.

I want to lie down right now.

「Lord, then you should sleep on top of Ado. You can entrust this to me, your number one follower」

「Eeh~ Ado is Goshujin-shama's number one follower~」

「Nu. Ado was just early. I'm number one. The strongest!」

「Ado is~ Ado i~s. Ado is number one deshu」

「Nu」

I hear talking voices, but...  
I'm falling asleep.

zzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzz

Byuu Byuu Patapatapata  
I wake up at the sound of wind...  
Ue?  
Nn?  
This is not from a top of Ado... on top of scales?  
I turn my neck... nothing's here?  
Eeh, that~  
I don't see anything, but sky...  
In addition, the scenery is moving.  
「Ah, Goshujin-shama, awake?」  
「Nu, sleepyhead Lord. You have woken up」  
After confirming my surroundings, I seem to be high in the sky.  
I seem to be on En-san who has turned into the big dragon form.  
By the way, Ado is closely sticking to my neck.  
She may be supporting me so I don't fall down.

「Why are we flying in the sky?」  
「We are going to the wyvern's nest. Because it's on top of a huge tree, we fly deshu~」  
「My flying is delicate. Don't worry」  
When I look around...  
I am surrounded by wyverns.  
It seems we are flying in a formation.  
We are located right in the middle.  
After looking down, the bottom can't almost be seen anymore.  
The altitude is quite high considering this is a dungeon.

Are?  
But, this reminds me...  
Wasn't Ado afraid of heights...?

Uun.  
Such high place...  
Is she alright flying in the sky?

「Ado, it's quite high, are you okay?」  
「Deshu? That reminds me deshu ne~ I haven't noticed deshu」

Ho~u.  
It's that thing?  
There's a variety of people with acrophobia.  
A people who are afraid of height, but can board a plane.  
Ado is probably like that too.

「Nu, it's the fruit of my safe flying. Ado, be grateful」  
「En, thank you deshu~」  
「Fu, no need to thank me」  
He wants a gratitude, but he refuses it.  
As expected of En-san.  
How difficult.

When I look at the flowing scenery...  
Oh.  
Something came in sight.  
In front of us...  
A huge tree growing as high as the sky.  
Its shape changes here and there... I can also see bird nests.  
Wyverns probably make their own nests.  
The proof is that the wyverns fly past those nests.  
「That place seems to be the place of destination」  
「Deshu ne~ It's huge deshu~」  
「Fufu, compared to my pyramid... still have some way to go」

Basa Basa  
Large wyverns are flying this way.  
They turn around in the sky and bow.  
「Tokukawa-sama, please enter from Gate 3. The wyvern before you will guide you」  
「Nu, leave it to me」

The wyvern in front of us changes a course.  
En-san follows the wyvern.  
Gate number three, huh...  
Uun.  
Looking closely...  
There seem to be several holes in the tree covered by leafs.  
Each hole is most likely a gate.

Basabasa Zusaaah~

We land inside the huge tree.  
It's a large branch that seems to be something akin to an airport.  
When I and Ado get down from En-san...

Powan

En-san returns to the small dragon form.  
「How big deshu~ The leafs are bigger than Ado deshu」  
「It's even bigger than me」  
「It's smaller than my original form」  
We poke one of the nearby leafs.  
It's really big leaf.  
In addition, it seems to be well kept here so it's quite beautiful.  
I can also see figures of small wyverns.  
These wyverns not different in size from us...  
Are they newborn wyverns?

There is a smell of a peaceful life.

{} ( ' \* \* \* ' ) {}

## Chapter 53

「Tokukawa-sama. This will be your room」

We are guided by Waitarou to a birdcage-like room.  
The rooms in this tree are like birdcage units, but... this must be one of the most luxurious rooms.

It decorated with jewels I don't know.

「A good room deshu ne~ Bonebone deshu~」

「It's suitable for me. There's enough shiny」

Ado and En-san seem to be satisfied.

Of course, so am I.

The bed made from some kind of feather seems to be very soft and fluffy.

I want to jump and make a bed dive, but...

「Deshu~!」

「Nu, I'm first」

Zaza Dobon

Ado and En-san took the initiative.

Both of them jumped on the bed and look like melting in the angel's embrace.

「De, de, deshu~~~」(Melting smile)

「Me too~ Nu, outrageous softness~」(Stupid expression)

The two are in great delight.

Ku...

Even though I wanted to dive in the most.

「Well then, everyone, I will let you know when the meal is ready」

「Thank you」

「Nono, it's for Tokukawa-sama's sake after all」

Waitarou leaves our room.

I sit on the fluffy bed and look around.

There's a huge bone all right.

『Bone』...

This is... I try to pick it up while thinking what it is for.

I tried moving it, but...

It doesn't seem to be doing anything.

While thinking what it is for.

Wyvern children come into my sight.

And also one fairly big wyvern.

Everybody seems to be playing? with the bone.

That's not it...?

They may be biting the bone like dogs do.

Anyway, they seem to be biting the bone and relaxing.  
Apparently, this bone is... a plaything?

Poi  
I place the bone on the floor.

Sutasutasuta Dobon  
I jump into the bed.  
First of all, let's lie down and sleep.

「Suu~ Suu~」  
Before I noticed, Ado already fell asleep.  
「Suu~ Suu~」  
En-san also seems to be in the middle of a nap.  
He may be tired since he was flying for a long time.

Although I slept just a little while ago...  
I become sleepy while listening to other people's sleeper's breath.  
Well then, good night.

zzzzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzzzz

zzzzzzzzzzzzzzzzzzzz

Peropero  
Nn?  
Peropero  
Nna?  
「Goshujin-shama~」  
When I wake up to the usual feeling...  
Oyaoya.  
Ado-san is licking me.  
「Ah, I'm up now」  
「Goshujin-shama~, Waitarou wanted you to come to the hall once you wake up」

Hall?

I don't know where that is, though...

I will ask someone on the way.

「I understand. Then...」

I don't see En-san around.

He woke up earlier and probably went somewhere.

「En is practicing. He's『Teaching the sky』to the wyverns」

Houhou.

En-san's switch may have been turned on.

Although he looks like that, En-san is a caring person.

「Then, let's go have a meal」

「Deshu ne~ I have learned the way to the dining room from Waitarou deshu」

How admirable, Ado.

It seems she has been doing various things since she woke up.

She's always up earlier than me after all.

「Then, let's go」

「Deshu, deshu~」

Tekuteku Tekuteku

We leave the birdcage and walk over a huge branch.

I feel dwarfed.

I feel like a rhinoceros beetle on a tree.

「This tree is really huge, huh~」

「Right deshu ne~ There are even big fruits deshu」

It even has fruits...

How great.

But, that means...

「Ado, did you already have a breakfast?」

「I didn' eat deshu~ I haven't digested the fruit yet, so I didn't eat yet deshu. Sour deshu」

Oou.

Looks like Ado already ate the fruit.

I'm curious.

After walking for a while... we arrive to the dining room.

I'm glad that Ado knew the way.

It's one of the largest birdcages on the tree.

When I lined up behind the wyverns.

I immediately received some kind of meat and fruit.

Looking at the other wyverns, it seems they are eating it raw.

I think I will be okay because of the Food Poisoning resistance and Poison resistance, but...

Let's appraise it just in case.

-----  
Others: Chicken Meat

Description: Generic chicken meat.  
-----

-----  
Others: Yellow Fruit from the huge tree

Description: I ripe fruit from a huge tree. Although big, the flesh of fruit is delicious.  
-----

Yosh!

Un, un.

It's not toxic.

Well then, itadakimasu.

Gabu Chiyu Chiyu Chiyu Chiyu

I suck the meat with my fangs.

Energy flows through my body.

Delicious!

I seem to be getting energy from eating meat after all.

A juicy taste.

Well then, the fruit is next.

Gabu Chiyu Chiyu Chiyu Chiyu

I suck the flesh of fruit with my fangs.

Feels like a fruit juice.

It think it tastes similar to mango.

I drink till the last drop.

Puha

I remove my fangs in satisfaction.

Breakfast is finished.

Although Ado is still in munching next to me.

She seems to be just finishing.

「Ado, let's go meet Waitarou-san then」

「Deshu, deshu, my stomach is full deshu」

{} (´•\_•` ) {}

## Chapter 54

We who became full after the breakfast.  
Arrived at the hall with Ado's guidance.  
There were many wyverns gathered talking to each other.

This... smells of an incident.

Waitarou notices me.  
「Tokukawa-sama. Thank you very much for coming」  
The wyvern politely bows.  
Waitarou is very polite.  
But, it's clear at a glance from this atmosphere that the wyverns are troubled about something.  
I mean... they have that distinctive tail movement.  
I'm frequently observing Ado's and En'san tail movements.  
I came to know more about the emotions behind the tail movements.  
That depressing looking tail movement is...  
There's no mistake.  
They are in trouble!

「Waitarou. Are you perhaps having some problem?」  
「Y, you can tell... As expected of Tokukawa-sama」  
「Please ask me anything. Because you are my family now, after all」  
「Deshu. Goshujin-shama is kind deshu」

「Yes... Thank you very much. The truth is... The huge tree is in a danger. Please take a look at this fruit」

Waitarou shows us a withered fruit.  
It withered and bubbly.  
A rotted gray color.  
A great difference from what I have eaten just a little while ago.

「This is... Just what has happened to this fruit?」  
「Some kind of unusual phenomenon may be happening with the huge tree. The fruit should be growing because the tree is getting nourishment from the ground, right? However, we who fly in the skies have no knowledge about ground」

Is the huge tree undergoing some kind of change...  
If this tree disappears my wyvern followers will be in trouble.

「I understand. We will take a look at it」  
「I, is that alright? Tokukawa-sama」

「What, it's not anything great」  
「Thank you very much」

「Then... is there a good place to start the investigation?」

「Yes, there is a hole at the base of the huge tree. You should be able to enter the basement of the tree from there」

「Well then. We will go immediately」

「Thank you very much」

Byuu Zaza

A sudden gust of wind...

En-san lands nearby.

He remains in the big dragon form.

「Nu, of course, I'm going too. I got tired of the flight practice」

Oh.

En-san saved me trouble looking for him.

But, got tired...

Not so much time has passed yet, though...

En-san interests may be easily changed.

「Then, I will be relying on you」

「Deshu~」

I and Ado get on En-san's back and we depart from the huge tree.

The destination is the base of the tree.

【in flight】

「Descending in one go」

「Wawawawaaa~ Deshu」

「Oou. En-san I won't mind if you go slowly」

「Thoroughly witness my power」

En-san starts the swoop.

I cling to En-san.

Ado clings to me.

Because of the sudden decrease in altitude, my heart tightens.

Zazazazazazazaza

Zazazazazazazaza

Zazazazazazazaza

Suta

Swooping En-san.

Before I know what's what, we have already arrived at the base of the huge tree.

Superexpress En-san.

Ado embracing me from back has fainted.

Going out like a light state.

「Nu, we have arrived. How was it, the air travel? Comfortable, right?」

I get down from En-san.

Of course, I carry Ado on my back.

I just wanted to get my feet on the ground.

I wanted to touch a solid ground.

I wanted to touch the ground which does not move.

I demanded Mother Earth.

「It was the worst deshu~ I hiyunhiyuned deshu~」

「I wish you could have gone more slowly」

「W, why... really... my flying...」

En-san receives a shock.

He must have been confident in his flying.

This right now was a wild flight.

He probably wanted to please us.

「Ado, are you okay?」

「Slightly dizzy deshu~」

「Then let's take a little break here」

「Nu, how childish. The ancient species nowadays...」

We lay at the base of the huge tree.

En-san pulls a leaf from the huge tree and also lies on the ground.

I look up at the towering huge tree.

Uun.

Really, an enormous tree...

This tree...

Such tree existing in a dungeon...

I can't believe it even now when looking at it.

Under the huge tree.  
We spent time nonchalantly.

☺ ( ' ' ) ☺

## Chapter 55

At the base of the huge tree.  
After the little break.

「I feel perfectly deshu~」  
Ado's sickness seems to have calmed down.  
Ado smiles with vitality.  
Her dog ears cheerfully twitch.  
「Well then, let's take a look at the tree」  
「Deshu ne」  
「My energy is also recharged」  
Oops.  
En-san says with drool on his mouth.  
Glad you slept soundly.  
「Then, let's go. Ado, please」  
「Deshu」

Powan  
Ado turns into the beast mode.  
I climb up.  
「Let's run inside in one go」  
「Deshudeshu」  
「Me too」

Sasa Sasa Sasa  
We enter the cave under the tree.

Sasa Sasa Sasa  
We run through the cave under the tree.  
Huge roots can be seen growing here and there.  
They are covered in a questionable light.  
「This light... perhaps... that thing」  
En-san says some significant words.  
It seems he knows something.

「Do you know about it? En-san」  
「Probably, but. The huge tree's life force=mana is most likely overflowing. This light is the light of mana... I have no doubt」  
「A warm light, huh~」  
Ado taps on a light sphere.

Of course, she can't touch the light, though...

Fumufumu.

This may be a special place.

If that's the case...

It may be worth checking it.

Appraisal-san, please.

-----  
Others: Huge Tree's underground dungeon

Description: Labyrinth overflowing with Huge Tree's mana.

A dangerous place. Many mana eating monsters are attracted by the overflowing source of nourishment.

-----  
A dungeon inside a dungeon...

Does this make it a『Great Dungeon of Aries: 48th floor: A Huge Tree's underground dungeon』?

En-san's questionable light=mana theory seems to be right.

「Ado, En-san. According to appraisal, this place is overflowing with mana which attracted many mana eating monsters」

「Then, we must be careful. Mana is the source of life. If they have absorbed that... They may have become quite strong」

「Ado too, Ado too... wants to eat mana~ I want to pakupaku it deshu」

Good grief, Ado has a great appetite today.

Is it the growth period?

But... if there are monsters who can eat the mana...

We are monsters too.

If we eat the mana...

Ado faces the light sphere and tries to eat it, but...

「Uun... can't eat it... gusun」

「Fufu, Ado. Ordinary monsters can't consume mana. It would be better to stop trying the impossible. You are still too young」

「Uuuuu~ deshu」

Is that so~

I can't eat the mana.

I thought I could it, though~

A sphere of light just came my way so...

I try to absorb it with my fangs since I have nothing to lose.

Gabu Chiyu Chiyu

Are?

Arere?

Arerere?

It seems that I am absorbing the light sphere.

The sphere in front of me is becoming smaller and smaller...

My body is filled with energy.

A sense I have never tasted before.

【Fixed proficiency of a skill reached. Skill『Mana Bite Lv1』acquired】

O, ouu.

Un?

Umm...

I got something.

Rather, I got a new skill after a long while.

It has been so long, I have completely forgot about this.

「O, oooooooooooooa! A, aaaah Lord!」

「Go, Goshujin-shama... eating... mana... eating the sparkling deshu」

Ado and En-san tremble in surprise.

En-san's jaw almost came out.

Ado's mouth is also absentmindedly opened.

While thinking what's wrong.

Ah.

Oou!

My hand starts shining.

It may be because I ate mana, but...

My hand is shining!

It's the same colored light of the surroundings.

「Lord! Surely not... have you perhaps eaten the mana?」

En-san asks while shaking in surprise.

His jaw is making a rattling noise.

Is it that surprising?

「Since it was right in front of me, I Gabu'd it」

「As expected of Lord. To think you would even be able to eat mana... It should be impossible to eat mana for monsters not born of mana eating race. A monster not born of mana eating race able to eat mana... That's unheard of」

「As expected of shiny Goshujin-shama~ Pikapika」

Ado plays with my shining hand with great interest.

Being touched by paw pads... is slightly ticklish.

Ado's hands are also very small.

「I can't see the bottom of Lord's talent. As expected of my Lord. Like this, won't you be able to do mana search?」

「Mana search?」

What's that?

First time I hearing about this.

Ado tilts her head and ask「Mana search?」. It seems she also doesn't have a clue.

「Mana search is a technique that allows you to investigate with the flow of mana. The huge tree's problem is most likely caused by mana fluctuations. A tree as big as this one definitely has enormous amount of mana, therefore even the slightest change of mana will cause problems」

Hoho~u.

Knowledgeable En-san.

He's saving me in various ways.

「Is it similar to magic control?」

「It probably is」

「Ado will do it too~」

Ado touches the ground with her both hands, but there's no effect.

She's trying very hard, but... nothing is happening.

Her tail hangs down.

「Ado... can't do it... gusun」

「Yosh, yosh, I will do it, Ado doesn't have to worry」

After patting Ado's head, I put my hands on the ground.

And pour mana inside the tree.

【Searching...】

【Searching...】

【Searching...】

Uun.

I wonder?

I don't understand well.

Rather, I don't understand since mana is overflowing everywhere around me.

I don't know what's what...

At times like these...  
Let's try doing that.

Gabu Chiyu Chiyu  
I bite the root of the tree and suck the mana.  
I chase the flow of mana while storing some in my body.  
I learned the magic control the same way.  
My trait... I think that vampire's biggest weapon are the fangs.

【Searching...】

【Searching...】

【Searching...】

Oh.  
Uu.  
I might have found something.  
A visible problem in flow of mana...  
I certainly feel it.  
It's stagnant.  
Disarranged.  
Overflowing.  
There's something obstructing the flow of mana.

That place is...  
Where is it?  
I pinpoint the location by pursuing the flow of mana.

Umm...  
Ummm...  
There!  
Found it!  
There's a place where mana strangely accumulates.  
It swelled up like a lump of mana.  
This is definitely the problem.

Going backward from that place...  
Like this...  
Ah, here... and like this.

Yosh!

Fumufumu.

I memorized the way.

Pushu

I pull out my fangs.

「Ado, En-san, I might have discovered the source of the problem」

「As expected of Goshujin-shama deshu」

「Lord, as one would expect」

[[ (´・ω・`) ]]

## Chapter 56

Sasa Sasa Sasa Sasa

I get on Ado and we ride to the place where the mana collects.

「Ado, turn left here」

「Deshu~」

「I'm going too」

Sasa Sasa Sasa

We steadily advance through the cave.

「Ado, turn right here」

「Deshu」

「Me too」

Sasa Sasa Sasa Sasa

We advance further.

「Ado, next... 『Left』」

Oh.

En-san interrupted me.

Moreover, the answer is correct.

「Right, it's left」

「Deshu, deshu~」

「Fufu, I also can somewhat understand the flow of the mana」

W, what! En-san.

He may not be Ancient Green Dragon just for the show.

To think he would be even able to tell the flow of the mana.

Sasa Sasa Sasa

We advance further in the cave.

The light of the mana is getting gradually thicker.

「Ado, on the next road turn... 『Right』」

En-san interrupts me again.

But, unfortunately... he's wrong.

「Ado, it's not right, but left」

「Deshudeshu」

「Nu, my prediction... fell short...」

En-san's mana detection may be incomplete.

Sasa Sasa Sasa Sasa

Sasa Sasa Sasa Sasa

Sasa Sasa Sasa Sasa

After running for a while...

Yosh!

Arrival!

We have arrived at a big hall.

「Uwaa... amazing deshu~ This room is shining deshu」

「Nu, this much light... this is also a first for me. Just how much mana has gathered here? I can't even imagine」

「Right deshu ne~ Dazzling deshu. Pikapika paradise deshu~」

The room is bright as day at a noon.

Countless mana spheres are floating around.

When we enter inside...

A huge sphere of light is in the middle...

The huge tree's roots are strangely growing inside it.

「That huge lump of light... is the tree's roots?」

「Deshu ne~」

「From what I can see... it's strange. That is very abnormal」

Sutasuta

When I approach and look closely...

Some kind of a device is attached to the huge tree.

Is that a magic tool?

This may be what caused the mana flow to be disturbed.

Sutasuta

When we approach the magic tool to inspect it in detail...

「Lord!」

「Deshu!」

En-san shouts loudly.

I absentmindedly get off Ado in a hurry.  
I felt a chill.

Patsun Dododododo

On the place where we were standing just a moment ago.  
Countless sharp holes appear in the ground.  
A trap that activates when getting close...  
Something came flying from the above, but...

When I look up... a magic circle?  
A magic circle is drawn on the ceiling.

W, what's that...  
This is my first time seeing a magic circle like that.  
It looks dangerous.

「Lord... let's return to the entrance」  
「Goshujin-shama!」  
「Go!」

Sasa Sasa  
We avoid the magic bullets raining down from the ceiling and evacuate to the entrance.  
The room became bumpy.  
The one who put the magic tool there may have trapped the whole room.

「Don't get any closer...」  
「Deshu ne~ That surprised me deshu」  
「Lord, should I destroy the room?」  
En-san says something dangerous.  
If I do something about that lump, the huge tree will be mended, but...  
We may completely destroy the tree if we damage it further.

「If we break it won't the mana run wild?」  
「It's possible. So much mana has been trapped after all」  
「Deshu ne~」  
「Right nya, it's dangerous nya~」

「「「!?」」」

Who is this nya?  
Ah, I made a mistake.

Who is this?  
The girl standing suddenly next to me.  
Nonono.  
A single cat-eared girl is standing here.  
The girl entered our conversation smoothly.

「Who are you deshu?」  
「I have not noticed her either. Who?」  
「Who are you?」

The girl stares at us and blinks in surprise.  
Her big cat eyes are staring open wide.  
Yellow eyes with black pupils.

「Nya? Talking about me nya?」

She moves her cat ears and tilts her head to the side.  
Good gracious.  
There's only you.

「That's right, we are talking about you, Nekomimi-san.」  
「I'm Chiko of Cat tribe nya. Nyanya」

The cat girl Chiko introduces herself with a lovely pose.  
She's nyanyaning.  
Ku, so cute... cat ears.

「Understood. Chiko. Why are you at this place? Also, since when?」  
「I'm wondering myself. I didn't feel your presence」  
「Ado too~ Surprised deshu」

「Kyakya」Chiko laughs with twitching ears.  
Her tail also moves in synergy.  
Chiko who wiggles in various ways.

「My presence concealment is quite high leveled nya. You would not normally notice me nya」  
「Then, why are you here?」

「I have come to retrieve the mana nya. I've heard an intruder alarm nya」

Intruder?  
Alarm?  
So that means...  
Surely not...  
The magic tool installed to the huge tree...

「The one who draw magic circle on the ceiling... was that you, Chiko?」

「Right nya, it was me nya. Was it fun nya?」

「So it was yooooooooooooou! I though I was going to dieeeeeeeeeee!!!」

I lightly grab Chiko by her neck shake with her.

Cat fur is soft.

The fluffy Chiko is swaying.

「Nyanyanya~ Stop nya~ I feel dizzy nya~」

Oops.

How rude of me.

I remove my hands at once.

It seems I went with my feelings.

「Fu~ wa~ Fu~ wa~ nya」

Chiko breathes deeply.

It seems her breathing has calmed down.

「Good grief nya~ Violent nude boy? nya. You are quite wild nya」

「My bad. Sorry. I'm Tokugawa. Nice to meet you」

「It's alright nya, I think I overdid it with the trap nya」

I and Chiko reconcile with a handshake.

Her pads are different from Ado's paw pads.

Fumufumu.

It's rich in elasticity.

Ah, this is not the time to be savoring the feel of cat paw pads.

I have come here in order to investigate the huge tree's problem.

The cause of that problem is standing in front of me.

I have to solve the problem immediately.

「Chiko, about that magic tool. Won't you remove it? It may be the cause of the huge tree's unusual phenomenon」

「Nyanya? Unusual phenomenon nya?」

I tell Chiko about the wyverns.

That something has happened to the tree's fruit.

If that something isn't perhaps because of the tree's mana flow.

「Something like that happened nya~ I didn't know nya~ Nevertheless becoming acquaintances with wyverns nya~ Tokukawa is amazing nya~」

「Then, Chiko. Can you remove the magic tool for now? There may be something different causing this, but」

「Alright nya~ This tree is important to me too nya. I would be troubled if there was some accident nya~」

Sutasuta Sutasuta  
Chiko went inside the room.  
And started working on the magic tool...

Paka  
The device came off of the huge tree.

「Nu. That was surprisingly easy. How is it, the state of the huge tree?」

Sutasuta  
En-san enters the room.  
Countless magic circles are drawn on the ceiling.

「W, wait, En-san. Have you forgotten about the magic circles?」  
「Deshu, they are still shining bright deshu」

「Nu?」  
En-san expression freezes.

Immediately after that.

Dododododododododo Dodododododo  
A tremendous amount of magic bullets started flying towards En-san.

## Chapter 57

Dododododododododo Dodododododo

「Gyaaaaaaaaaaaa~」

En-san screams.

A cloud of dust dances around.

However.

There are is no sign of the magic bullet storm stopping.

「Chiko, please! Stop the trap!」

「I know nya. Was it this one nya? Push nya」

Chiko operates something...

The magic bullet storm immediately stops.

「Everyone, it's okay to enter now nya~ I have removed the trap nya」

I and Ado restlessly look around to make sure.

We carefully enter the room.

Fuu~

Nothing happened.

The magic circles on the ceiling are not shining.

I'm glad.

I feel relieved.

After confirming our own safety.

I look at the cloud of dust...

There, I see En-san's figure covered in mud.

It seems he has eaten a few of the magic bullets.

There's a pattern on the ground.

His body only looks dirty, it doesn't seem like he has suffered an injury.

The dragon scales may be quite hard.

「En-san... are you okay? I heard a great scream」

「Deshu ka?」

The muddy En-san stands up.

He quickly removes the soil from his body.

「Nu. That felt like a rain to me. It just surprised me a little」

「I'm glad. You are safe」

「En is hardeshu」

「Nyanya. En is tough nya. Even though it was quite a strong trap nya」

「Nu, won't work on me. You need even stronger magic bullets if you want to break through my scales」

En-san answers coolly.

Dignified, although covered in mud.

Chiko admires En-san while「Un, un」nodding her head.  
「Tokukawa's friends are all strong nya~ I have never seen such monsters as En and Ado nya」  
「En-san and Ado are both ancient species, after all」

I think that's probably great.

Because I have not seen many monsters yet, it's difficult to realize their greatness for me.  
Since even the former sage El Jiisan was really surprised.

「Nyanya, you serious nya~ I thought ancient species are just imaginary monsters nya」

「I'm an actual existence」

「Ado too~ Ado too~ Existence?」

It seems the word existence was too hard for Ado

I was also weak at kanji characters as a child, I think?

「Ado, the word existence means that you are an actual being... In other words, it means that you「Exist」」<sup>1</sup>

「... Un. Ado is existence deshu, existence deshu~」

Yosh, yosh.

I pat Ado's head.

It seems Ado has become smarter again.

Now then, since we were able to safely enter the room...

Let's accomplish the purpose we have come here to do.

「Chiko. Have you removed the magic tool from the huge tree?」

「Yes nya」

I see...

However...

The lump of light has not disappeared.

The accumulated mana stayed like that.

Which means... the unusual phenomenon may haven't been solved.

It would be better to confirm the present conditions.

I bite the huge tree's root.

Gabu Chiyu Chiyu

I investigate the flow of the mana while sucking.

Uun.

What is it...

Fumufumu.

Certainly, the obstruction that has been hindracing the mana flow has been removed, but...

The mana collected here is interfering.

The flow may not return to normal unless we move this lump.

Then!

There's only one thing to do.  
I will suck it all.  
All mana that has gathered here.  
I may be able to rescue the huge tree that way.

Let's do it!  
Huge tree's rescue!

Gabu Chiyu Chiyu

Gabu Chiyu Chiyu

Gabu Chiyu Chiyu

I can tell that my body is filling up with mana.  
An enormous amount of warm light is flowing inside me.  
My body is becoming nice and warm.

「Go, gohujin-shama's... pikapika shine is increasing deshu」  
「Ah, Lord... just how much do you... to what extent can you...」  
「Nyanyanya~ Just what is happening nya?」

【Fixed proficiency of a skill reached.『Mana Bite Lv1』has become『Mana Bite Lv2』】

I heard the god's voice.  
But, it does not matter now.  
As long as there is that lump before me...  
I will continue absorbing!

Not yet...  
There's... still mana left.  
As long as there is this lump, the huge tree won't be saved.  
The wyvern's problem won't be solved.  
In that case, I must absorb everything.  
It all depends on me.

Agugu...  
The limit of mana tolerance in my body has been exceeded a long time ago.  
It feels like my body is going to explode.  
But... I can hear a voice from somewhere telling me that I can still go on.  
Then, I shall exceed the limit!

Gabu Chiyu Chiyu

「Goshujin-shama looks like a godeshu. Angel deshu, pikapika deshu」  
「Lord... it seems like you went and did it... you have broken through a wall...」  
「Nyanya~ Nyanya~ Tokukawa what are you doing nya~ You are sparkling more and more nya~」

【Fixed proficiency of a skill reached.『Mana Bite Lv3』has become『Mana Bite Lv4』】

【Evolution requirements have been met】

Supa  
I sucked up all the mana.  
This is the end.  
Over.  
The lump of mana has completely disappeared.  
The huge tree's roots became normal.  
I can even tell that the flow of mana has become normal.

The wyvern mission has been accomplished...

Has my sensed been enhanced...  
Or is it the influence of the mana in my body...  
My body is shining with overflowing light.  
Energy seems to be emitting from part of my body.  
I have become the light.

Suta Paku  
A soft touch...  
Ado has embraced me.  
「Goshujin-shama~ Angel-shama deshu~ Very warm deshu~」  
Ado's fur is tickling me.  
She puts her face next to me and rubs her cheek on mine.  
「Stop, stop it, Ado, it tickles」  
「Goshujin-shama~」  
However, Ado's cheek rubbing doesn't stop.  
Punipuni two cheeks are rubbing against each other.  
Really... Good grief.  
Ado is hopeless.

「Lord. Ku... You have exceeded my expectations... Nu, bad... tears」  
En-san is shedding tears.  
He seems to be impressed by me for some reason.  
He may be delighted by my growth.

「Nyanya, nyan nya~? Nyan nya~? Nyanya nyanya. Tokukawa is beaming nya~」  
The cat girl Chiko seems confused.  
Her cat eyes are sparkling.  
She may be attracted to light since she's a cat.

Everyone is exaggerating.  
I just absorbed mana.  
But... I feel like I could do anything right now.  
The energy overflowing inside my body is telling me.

Besides...  
I'm certain the god's voice told me about the evolution...  
I didn't obtain any experience so...  
Is it not through level up, but skill acquisition or...

Either way.  
It would be best to take this opportunity and evolve.

『Please, show me the available evolution paths』

【Display available evolution paths?】

I hear the god's voice.

Is it my imagination...?  
I feel like I hear it more clearly than usual.

『Please』

Baby Mana Vampire  
Baby Siren Vampire  
-----

Everything is a baby, huh.  
There was just one evolution path last time... it's three this time.  
It seems I'm able to choose now.

• Baby Angel Vampire...  
Judging from the name, a vampire of the angel lineage.  
Although vampire and angel is the complete opposite in my mind...  
What a strange life form.

• Baby Mana Vampire  
Because there's mana in the name, so it's a vampire specialized in mana?  
It might be able to use magic or other effects using mana.

• Baby Siren Vampire...  
Siren=that thing from greek mythology, right?  
The upper half of a girl and a lower half of a fish...

Now then...  
What evolution path should I choose...  
I'm at a loss...

## Chapter 58

I'm presented with three evolution paths.

-----  
Evolution Paths: Baby Angel Vampire  
Baby Mana Vampire  
Baby Siren Vampire  
-----

The appropriate evolution for me...  
When it comes to which evolution is most appropriate for the present me...

The answer may be decided.  
Not that I'm divinely shining in mana.  
I may not be satisfied with a common race.  
The present me is a sparkling vampire.

Therefore...  
Choosing Baby Mana Vampire is impossible.

I have to choose from the two remaining.  
But... there's no need to hesitate.  
A siren and an angel...  
Both are out of the normal ecosystem.  
The one most appropriate for me right now...

Fufu.  
There's no need to think about it.  
The answer has already been decided.  
Since the three paths were presented to me, there was only one choice.  
It's decided.

『God's voice, please begin the evolution』

『Into the Baby Angel Vampire, please』

【Evolution has been started】

Oou.

It came, it caaaaaaaame!

Ueeeeeeeeeeei!

A torrent of energy arises within my body.

I can tell that a lump of energy is moving inside my body like a typhoon.

A lump of exploding energy.

My insides are caught in a typhoon.

「W, wha, Goshujin-shama~ Deshudesu~ Hot deshu. Too hot deshu」

Pyon

I feel the touch of dog ears separating from me.

Ado couldn't withstand the temperature of my body and had to separate from me.

「Lord... surely not... perhaps... this light... light of evolution? But, a light like that... I have never seen something like this」

En-san's surprised voice resounds in my ears.

An ancient species, a millennium old dragon is shocked.

「Nyana~ Nyan nya since a while ago. I don't understand nya. Just what is happening nya」

Gii Gii

The cat girl Chiko reached the maximum confusion.

She begins scratching the ground with her nails.

I suppose this is not sharpening of claws.

She probably can't control the confusion in her heart.

The energy inside me reached the critical point.

Not good...

I can't maintain consciousness because of this torrent of light.

This much light...

Guhaa...

I hold on.

Not good...

Ugu!

I try holding on more.

But, suppressing it...

I will suppress it.

Mugua!

I can't hold down such amount of energy.

The torrent of energy is going to explode...

I can't... suppress it.

Ku...

TO think it would be this much...

Uguwaa!

Aguaaaaaaa!

It's going to explode...

This is...

At this rate...

This torrent of light...  
Will wrap everything up and shoot like a shooting star...

Univeeeeeeeeeeeeeeeeeeeeeeeeeeeerse!

Pika~n.  
A storm of light explodes.

「Deshudeshu!!!」  
「What's that, this light!!!」  
「Nyanya~!!!!」

I can't withstand the blast.  
Ado, En-san and Chiko got blown away.  
The storm of light envelops the room.  
Every nook and cranny of the room get enveloped by the light.

Then...

At the place where the light subsides...

A single vampire has appeared.

Shining divinely like an angelic demon.  
A being that has transcended a race.  
Going beyond the limits of a monster.  
A monster that set a foot on the holy sanctuary.

Right... this is me.

I appraise myself.

-----

Race: Baby Angel Vampire

Level: 1

-----

Fufufu.

Fufufuhahahahahaha!

Fuhahahahahahahahaha!

The swelled energy inside my body causes me to burst out in a laugh.

I feel it.

That I have become a completely different being.

I might have broken through one of the monster's walls.

When I look at my hands.

They are sparkling.

Just like when I became the Baby Vampire.

They seem even more beautiful.

This is me.

「Goshujin-shama~ Angel-shama~」

「Nyanya~ Angel nya~」

Sutasuta Sutasuta Sa Sa Pyon

Ado and Chiko cling to me.

They may be fascinated by the divine light.

Dog and cat ears are tickling my cheeks.

It's very ticklish.

Good grief... mofumofu children are loners.

The animal ears draw closer...

They are lovely children.

Soft cheeks start rubbing against mine.

「It tickles. Ado, Chiko」

「Goshujin-shama deshu~ Angel deshu~」

「Chiko too nya~ I love sparkling nya~」

Good grief.

It seems that I am liked by the mofumofu children.

I pat the heads of the two girls.

Nadenade

Fumufumu.

I can feel the difference between the dog and cat ears.

Cat ears are slightly softer... dog ears are slightly stiffer...

This is... too much.

「Feels goodeshu~ Will melt deshu~」

「Chiko too nya~ Paradise nya~」

Fufu.

What a handful children.

I confirm the situation while patting Ado's and Chiko's heads.

In front of me... the Ancient Green Dragon En-san is shaking.

His jaw is rattling.

As if he has seen something he shouldn't see.

「Lord... that appearance... surely not... a God species at such young age...」

Can't be helped.

He seems to understand.

After all... people in the know will know.

As expected of En-san.

Ancient species dragon-san.

「As you can see. I have become an angel」

「Nu... angel, huh... I have heard rumors, but how divine. Lord is a special existence as I've thought」

Is my figure that dazzling to En-san?

I put my hand in front of me.

「Lord, that light... are you able to control it? As expected if you keep shining like that, the surroundings will get affected」

Certainly...

Ado and Chiko won't separate from me.

And indeed, I think I'm sparkling way too much.

This will become troublesome in everyday life.

I focus on my body.

I'm going to keep the light in check.

I try to keep the light down and move it inside my body.

Then...

「Deshu? Goshujin-shama's pikapika is settling down deshu」

「Nyanya? Why nya?」

Ado and Chiko noticed.

They blink at me with their lovely eyes.

「I'm going to suppress the light for a bit. As expected, with too much light, I won't be able to live peacefully. I will hide my true appearance for a bit」

「Goshujin-shama... it's serious, pikapika paradise deshu」

「Tokukawa is modest nya」

「Able to control the light at once?... As expected of Lord」

I separate from Ado and Chiko.

I bow in front of the three.

「Everyone, although I have evolved, I'm still the same Tokugawa. Please, continue taking care of me as you did before」

I promptly introduce myself once again.

[[ (´・ω・`) ]]

## Chapter 59

I finished the mission and evolved.

Already, this place...

There's no need to stay in『Great Dungeon of Aries: 48th Floor: Huge Tree's underground dungeon』any longer.

「Well then, the problem of the huge tree has been solved. We should go and report to Waitarou and the others. They are surely waiting for the good news」

「Deshu ne」

「Nu. That is true. I have completely forgot because of Lord's evolution」

「Nyanya? How are you going to climb the tree nya? It's enormously high nya」

Chiko tilts her head.

Chiko has seen only En-san's small form after all.

She doesn't know that En-san is actually a large dragon.

That's a natural question.

「We will fly on En-san. Although he looks like this, En-san's true appearance is that of a large dragon」

「Nu, respect me」

「Nyanya? Is that so nya? That means you are transformed nyaow?」

「By the way Ado is not transformed, but she can turn into a beast mode」

「Deshu yo~」

Chiko begins trembling.

It seems she doesn't believe my words.

「Angel and transformed ancient species... this party is way too amazing nya...」

Certainly... it may be quite an outrageous party.

I did not notice until now, though.

「What will you do, Chiko? Do you want to go with us?... Rather, what were you doing here?」

Setting a trap that En-san carelessly walked into...

I think that matter becomes unsettled because of my evolution.

「I have come to supply the magic tool with mana nya. Even though I may look like this, I'm a plant professor nya」

Eeh~ How unexpected.

I was certain she was an adventurer or something.

A professor on the 48th floor...

I think she must be a considerably influential person...

Because according to El Jiisan's story, people who get on this floor must have a considerable

skill.

「Have you come alone? This far?」

「Right nya. My concealment skills are superior so I easily got here by myself nya」

I, En-san and Ado didn't notice her presence after all.

She really must be quite skilled.

It may have an opposite effect if she gets companions.

She would get discovered by monsters after all.

「We won't have any problems with the monsters around this area so there's no problem coming with us, what are you going to do?」

「Nyanya. Then nya~ I will go with you nya. I am interested in the wyvern's nest nya. Best regards nya」

Chiko bows with gratitude.

Her cat ears are twitching.

「Best regards deshu」

「Nu, respect me」

「Best regards~」

Chiko has joined our group.

「Then, let's get out of the cave first. Ado, please」

「Deshu」

Powan

Ado turns into the beast mode.

As soft and fluffy as ever.

Sasa

I climb on Ado.

The ride is the most comfortable.

「Come Chiko, get on Ado too. Let's leave the cave quickly」

「Is it alright nya?」

「Alright deshu yo」

「I don't mind as well」

「Nyanya」

Suta

Chiko gets on Ado.

Ado is fairly large, there's enough space on her back to carry two.

「Then, Ado, let's go」

「Deshudeshu」

Sasa Sasa Sasa Sasa

We run through the cave.

En-san flaps his wings and flies towards the exit.

We left the cave.

I and Chiko get off Ado.

Powan

Ado turns back to human mode.

「It's a transfer. It's En-san's turn next」

「Nu, I was waiting」

Powan

En-san transforms into the huge dragon form.

「Nyanya? He really became a huge dragon nya」

「I told you so. En-san is an amazing dragon-san」

「Deshu yo」

「Fufu. I'm the dungeon's strongest」

En-san with a satisfied expression.

En-san's mood may be easy to change.

Sasa

I and Ado climb on En-san's back as usual.

We choose a place that we won't get shaken off carefully.

「Chiko, you come here too」

「Nyanya」

Suta

The agile Chiko gets on En-san's back.

「Nu. Everyone is on? Well then, let's go!」

Basa Basa

En-san flaps his big wings and soars into the sky.

He flies up gently.

My heart starts tightening.

「Fl, flying nya~」

A sparkle of delight appears in Chiko's eyes.

It may be her first time riding a dragon.

But, waving both hands in the air is a mistake.

「Chiko, it would be better to hold on properly. Wyvern's nest is very high. You will get thrown off」

「Deshudeshu」

「Nyanya?」

「Leave the returning to me!」

Dobyyu~n

En-san rises vigorously.

He speeded up without a care for the beginner Chiko.

Extremely fast speed.

My face is being transformed by the wind.

「Nyanyanya~」

「Deshudeshu~ Hiyunhiyun deshu~」

「Uo!」

I hold on En-san in surprise.

High-speed acceleration En-san.

We desperately hold on En-san.

{} (´•\_•` ) {}

## Chapter 60

「Nu, we have arrived」

「Waa~ Waa~ Nya」

「Deshu~」

「M, made it...」

I didn't grasp the speed fully, but...  
Before I noticed, we have arrived at the wyvern's nest.  
It's the Gate 3 we have come through the first time.

The three of us get off En-san while staggering.  
Ado might have gotten dizzy again.  
She's making a delicate expression.

「Feeling bad deshu~」

Indeed~

Both her tail and ears look worn-out.

「Nyanya, that was funya」

Chiko looks lively on the other hand.

Is this a difference between a dog and a cat...?

「Ado, it would be better if you go ahead and get a rest. I don't mind reporting by myself」

「I will do that deshu~」

「I have also burned out. Too exhausted from flapping my wings」

Ado and En-san leave.

「Then Chiko, shall we go? Let's introduce you to the wyverns」

「Nya~ But, this place is really high nya. I have never thought this tree was this high nya」

「I also came here just recently. It surprised me too」

「Nyanya」

I and Chiko went to the hall.

Tekuteku Tekuteku

Waitarou and the others seem pleased by my return.

As soon as they approach me, they become slightly puzzled.

「Nn? It should be Tokukawa-sama, however... the atmosphere around you seems to have completely changed... That... did you perhaps become even more divine?」

Come to think of it...

It's so.

Un.

My appearance was slightly altered after the evolution.

「This and that happened and I have evolved」

「Is that so? Congratulations. Also, thank you very much」

「What do you mean?」

「The unusual phenomenon has stopped. We have observed the tree and the stagnation

seem to have disappeared. That is surely thanks to Tokukawa-sama  
It seems the fruits are already showing results.  
The wyverns probably have a method to confirm the state of the tree.

「Nono. We just had a fruitful encounter」  
Waitarou notices the cat ears standing beside me.  
He extends his long neck and observes.  
「Oya?」He's making such face.  
「This is Cat tribe... Tokukawa-sama's friend?」  
「Yes. We have met in the underground dungeon. Is it alright if she stays here?」  
「Of course. Tokukawa-sama's friends are our important guests」  
There doesn't seem to be a problem.  
I thought it would be probably okay.  
With this, we got the permission.  
「Isn't that good, Chiko?」  
「Nya~」  
「What would you like to do about her room, would she be staying in the same room with everyone else?」  
Uun.  
I don't particularly mind, but.  
Chiko should decide herself.  
「Chiko, what do you want to do?」  
「I'm okay with staying together nya~ If I stay alone in a big room I will get homesick nya」  
「I understand. Let's arrange it like that then」

I and Chiko left the hall and returned to our room.  
Ado and En-san are already asleep in the bed.  
「Suu~ Suu~」Both are already sleeping soundly.  
Both of them must have been quite tired.  
「Good room nya~ I have been always sleeping outdoors nya. It was a tiring nya. My back always hurt nya」  
Chiko is like a worldly-wise man.  
She has been living a stray cat life.

「Chiko. Choose a bed you like. Except the bed on the right, that one is mine」  
「Nyanya~」  
Sasa Pyon  
「Feels good nya~ So soft nya~」  
Fufu.  
Chiko seems to be also dozing off.  
Everybody who sees these soft beds would want to dive right in.

## Chapter 61

Peropero

Nn?

Peropero

Nna?

I feel a cold touch on my cheek.

「Goshujin-shama~ Goshujin-shama~」

When I open my eyes... I see Ado's figure.

She seems to be licking me lively today too.

Did I get used to being woken up like this?

「Awake deshu?」

「Yes... I'm getting up now」

When I look around, I don't see En-san just like yesterday.

Chiko is still sleeping.

I'm glad~

It does not seem like I was the last to wake up.

「Nyanya」

Chiko sits up while rubbing her eyes.

「Morning nya~」

「Morning deshu」

「Morning, Chiko」

「Nyanya, everyone is so lively in the morning... Chiko is weak in the mornings nya. I will sleep one more time nya~ Good night nya~」

Chiko falls back on the bed and crawls under the futon.

「Suu~ Suu~」She fell asleep instantly.

Chiko is a sleepy head, huh?

「Then, Ado, let's go get a breakfast」

「Deshu ne. My stomach is starving deshu」

Sutasuta Sutasuta

I and Ado enter the dining room.

We were handed the same meat and fruit by wyverns again.

The menu for breakfast may be the same every day.

When I appraise...

-----  
Others: Chicken Meat

Description: Generic chicken meat.  
-----

-----  
Others: Yellow Fruit from the huge tree

Description: I ripe fruit from a huge tree. Although big, the flesh of the fruit is delicious.  
-----

It's the same after all.

Gabu Chiyu Chiyul bite my fangs into the meat.

Tasty~

It's indeed quite juicy.

There may be nothing better than waking up to a meat.

Next, the yellow fruit.

Gabu Chiyu Chiyu

This one is fruity.

A juice with a refreshing taste.

I'm full of energy after eating the meat and the fruit.

Ado is in finishing munching.

「Thank you for the meal」

「Ado, let's return to the room then」

「Deshu ne」

I and Ado return to the room.

In the room.

Because we have had a great adventure in the underground dungeon yesterday.

Today is completely a day off.

I fully intend to idle the whole day.

Ado seems to be reading a picture book.

It's in a size for humans, but... why do wyverns have something like this?

Chiko is playing with the bone after returning from breakfast.

Instead of holding the bone in her mouth.

She's punching the bone while rolling on the floor like a cat.

It seems she's having quite a fun.

As for me...  
I'm idling in the bed.  
My body feels slightly heavy... most likely because of the evolution.  
Even though I didn't feel it yesterday...  
It may take time for my body to get accustomed.

I don't want to move, but I'd like to do something.  
Since it's like this, it's time for that ability.

The ability I stole from that person ↓ in Anima Temple.

-----  
Race: A person reincarnated from a different world.  
Description: Person who excelled at leisure.  
-----

「Online Shopping's」turn.  
Now then...

『Shop Open』

A familiar online shopping screen appears in front of me.  
Then...  
Since I don't feel hungry.  
And I'm idling in a bed.

I choose「Books」and look into the「Comic Books」genre.  
O, ou.  
Uun.  
Masterpieces assembled in a full force.  
Now then... Let's choose something familiar.  
I click the window.

And buy.  
『Ninja Manga』

Suton.

A manga appears in front of me.

「Nyanya? Nyana~ Suddenly appeared nya」  
Chiko gets surprised while punching the bone.  
Her eyes are startled.

Ah.  
Right.  
I haven't explained「Online Shopping」to Chiko yet.

「Chiko, this is my ability. I'm able to produce a variety of goods from space. Although I say produce, it's bought with money」

「Nyanya~ Amazing nya~ Tokukawa is outstanding nya」

Chiko says in amazement.

I decided to lay down on the bed and read the manga.

Then... Ado and Chiko approached with great curiosity.

「Goshujin-shama~ What's that deshu?」

「Right nya~ Picture book nya?」

「This is... called a manga. A story expressed in letters and pictures. Maa, it can be considered a kind of a picture book」

「Deshu ka~ Ado wants to read too deshu~」

「Me too nya~」

The eyes of both girls are sparkling.

I can't decline them.

「I see... then should we read together?」

「Deshudeshu」

「Nya~」

I lie down in the bed.

Chiko on the left. Ado on the right.

The three of us read the「Ninja Manga」together.

【While reading】

「Goshujin-shama~ This is amazingly interesting deshu」

「Nyanya~ Right nya~」

「Hey, hey, treat the manga carefully or you will tear it apart」

Chiko and Ado seem to get entranced by the manga.

As expected, it's impossible for three people to read at once.

I bought new manga.

「Pirate Manga」and「Basketball manga」

Me ←「Ninja Manga」<sup>1</sup>

Ado←「Pirate Manga」<sup>2</sup>

Chiko←「Basketball Manga」<sup>3</sup>

## Chapter 62

Idleidleidleidle~

After reading the manga while idling on the bed...

Kacha

The room's door open and En-san walks in.

That reminds me... where did he go?

I didn't see En-san since the morning.

En-san looks around the room.

「Fuu~」he sighs.

「Everyone is lax. Idling on the bed. Even though the weather is this nice. How about going out?」

「Ado is reading deshu」

「Me too nya~」

「I'm also reading」

「What... Eggheads are?... In addition, that Ado becoming a bookworm... Where did the real Ado go? Even though you were running so lively at the Sage's house...」

En-san receives a shock.

En-san is outdoor type after all.

He was probably confined in the Temple of the Warriors for too long.

He probably goes so often out because of that.

「En-san. Where did you go?」

「Nu, I was teaching the wyverns about the sky. They way of flying is weird after all. They are just young chicks」

As expected of En-san.

Active even during the day off.

He may have a strong consciousness.

「Ado, Chiko, get out from the bed for special training」

「No deshu」

「Mew too~」

Both are absorbed in the manga.

They reply without taking their eyes off it.

They read while rolling on the bed.

Ado is face down style.

She lies on her stomach, her hands over the pillow with the manga right in front of her face.

Chiko is face up style.

With her back on the bed, she's stretching her arms towards the ceiling and reading the

manga.

That must be quite the burden on her arms.

The two girls have no experience in reading manga in the bed.

It can be clearly seen just by looking.

「Really... how deplorable」

「Maa, maa, En-san. Today is a day off, after all」

「That's right deshu」

「Right nya~」

En-san is at number disadvantage.

Ku... He says with a grim expression.

「Can't be helped. I will go for one more flight. You are welcome to join me anytime」

Batan

En-san leaves the room.

We keep on reading the manga.

A few hours later.

Gacha

When I look at the direction of the opening door...

It's En-san again.

「Still reading...」

En-san looks around the room with a sorrowful look.

Depressed En-san.

「How about it? Want to move your body? Hey, Ado, how about it? The weather outside is nice」

「I'm reading deshu~」

Ado is still reading.

She reads without moving.

She may be making a big step into the world of manga.

「Then... what about you, Chiko? You are from a Cat tribe, you know? Don't you want to wander around? I bet you do」

「I'm also reading nya~」

「Ku... lazy demi-humans... don't you want to become stronger for Lord's sake? Even though such fierce evolution happened just in front of you... how negligent」

O, ou.

En-san is strangely more enthusiastic than ever.

Am I the cause?

It seems he was inspired by my evolution.

「Ado... Ado feels that Ado will get stronger by reading this manga deshu. Somehow... I think that. Pirates are strong deshu. Ado will get amazingly strong if Ado eats a strange fruit deshu」

「Mew too nya~ I might get stronger if I play basketball nya. The left hand is for support only nya~」<sup>1</sup>

Ofu...

It seems the two of them have completely become a manga people.

This may not be a good influence, but...

Both are overflowing with a strange energy.

「Ado, return to reality. There's no way you can get stronger just by reading. That is not a magic grimoire, you know?」

「Maa, maa, En-san. It's important to raise motivation. Let's put it aside for today」

「Nu, it can't be helped if Lord says so. If that's the case, I will be taking a rest too」

He sits on his bed.

And frequently peeks at me.

I understood the meaning of his eyes immediately.

I purchase a new manga with the「Online Shopping」.

By the way, it's a「Go Manga」.<sup>2</sup>

「En-san. Would you like this? It's a manga of ingenuity」

「Nu. I see... if Lord wants me to no matter what... I will give it a try」

En-san starts reading the manga he has received.

asdada

Several hours later.

「Lord. I'm convinced. I feel like I will get stronger by reading this manga」

「Ado thinks so too deshu」

「Mew too nya~」

New manga believer obtained.

En-san wonderfully joined the group.

It seems he defected to the supports of manga.

「With this divine move, I will surpass you」<sup>3</sup>

「Ado will~ Eat an amazing fruit. Logia type would be the best」

「My left hand is for support only nya~」

I don't understand well, but...

Everyone's motivation became high.

Manga is interesting after all.

Our day off passed like this.
